MAKERS OF GO! SYNC MOBILE GIS

Sample Redlines

Sample Inspections

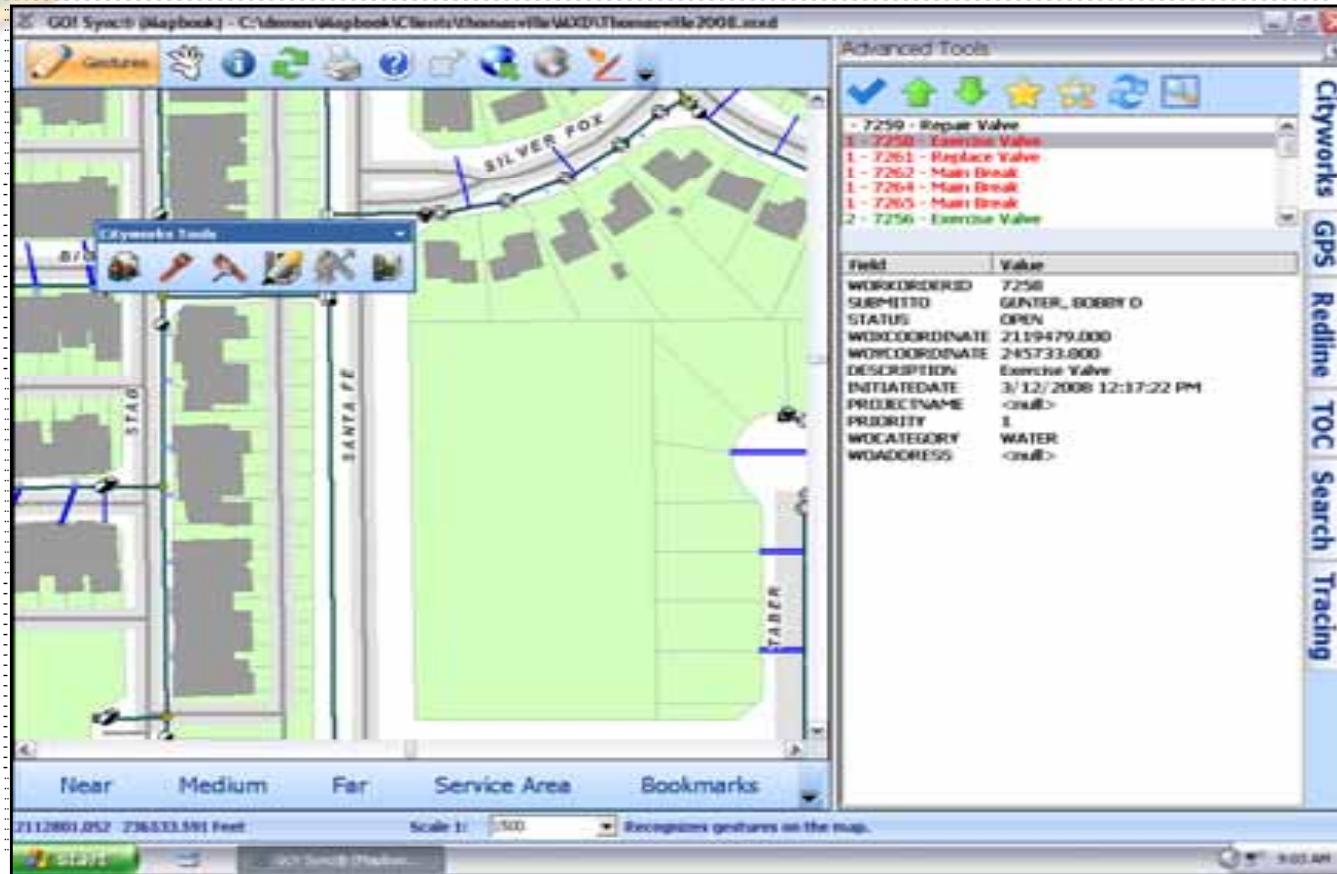

The screenshot displays the GO! SYNC mobile GIS application interface. On the left, there is a map view showing a road network and some land parcels. A specific location is highlighted with a yellow marker. In the center, a detailed view of a construction site shows several buildings under construction. To the right, a table lists various inspection items for a lattice tower. The table includes columns for 'Item ID', 'Report Status', and 'Last Update'. Most items are marked as 'Completed', except for one which is 'Not Yet Started'.

Item ID	Report Status	Last Update
Lattice Prod A Excavate	Completed	2013-07-10 10:00:00
Lattice Prod A Frame and Rubber	Completed	2013-07-10 10:00:00
Lattice Prod A Concrete	Completed	2013-07-10 10:00:00
Lattice Prod B Excavate	Completed	2013-07-10 10:00:00
Lattice Prod B Frame and Rubber	Completed	2013-07-10 10:00:00
Lattice Prod B Concrete	Not Yet Started	
Lattice Prod C Excavate	Not Yet Started	
Lattice Prod C Frame and Rubber	Not Yet Started	
Lattice Prod C Concrete	Not Yet Started	
Lattice Prod D Excavate	Completed	2013-07-10 10:00:00
Lattice Prod D Frame and Rubber	Not Yet Started	
Lattice Prod D Concrete	Not Yet Started	
Grounding Structure Install Base	Not Yet Started	
Grounding Structure Bolt Copper	Not Yet Started	
Grounding Structure Bolt Zinc	Not Yet Started	
Hardware Installation	Not Yet Started	
Hardware Cable Jumper	Not Yet Started	
Brackets	Not Yet Started	
Total Items	25	
Items & Comments	12	
Items & Issues	13	

Example AMS (Cityworks) Integration

MAKERS OF GO! SYNC MOBILE GIS

GO! Sync Mobile GIS

Customers use it to...

- Replace paper maps
- Equip field crews with data collection / sketching capability
- Automate work flows (inspections, maintenance, etc.)
