# Dojo: The Good Parts

David Spriggs - @davidspriggs

Jeff Archer - @vee\_dubb

# Introduce Yourself

- How many of you have built a dojo module?
- How many of you have you been using libraries other than dojo?
  - Which ones?
- How many of you have a github account?
- How many of you are the actual coders in your organization?
- How many of you are more PM/Decision makers?

- Explore the Dojo Framework
- Help you understand your options
- Give you tools to get to production faster
- Clue you in on other information you can use when you get home

## Dojo – The Bad Parts

- **Dijit**
  - Dom vomit or “domit”
  - Really hard to style
  - Look is totally 1989

\*Photo Courtesy [Ultimate-Guitar.com](http://Ultimate-Guitar.com)

**So why do we still use Dojo, anyway?**

J

# Demo

The Good Parts

Accessing Resources

Creating a module

dojo  
toolkit

# More Good Parts We Want YOU to use!

- **AMD**
  - Web Optimizer
- **Dojox projects**
  - Mobile
  - WebApp
  - Language
  - Graphics
  - Datastore
  - Widgets
  - Misc. Utility Modules

## Check out some other sessions

- **Using Dojo to be Awesome!**
- **Demystifying the Dojo build system**
- **Customizing and Extending the ArcGIS WebApp Builder**

# Thanks!!
