

## Partnering With Academia: It Was The 'SMART' Thing To Do

Projects & Partnerships: Who Knew GIS  
Could Do That!

ESRI User Conference July 2003

Don DeGenova  
VP, Business Development  
& Strategic Alliances  
DMTI Spatial

really  
smart  
spatial  
solutions™

[www.dmtispatial.com](http://www.dmtispatial.com)

## Overview

really  
smart  
spatial  
solutions™

- DMTI Spatial™
- SMART™ Program
- Benefits
- Other Programs

## Overview

really  
smart  
spatial  
solutions™

### Corporate facts:

- Established in 1994
- Strategic solution provider for Government (Federal, Provincial, Municipal)
- Counting all Canada's Telcos, Utilities, Internet Mapping, Oil & Gas, GPS Companies among it's top clients

### Customer focused:

- [fixme@dmTIsPatial.com](mailto:fixme@dmTIsPatial.com)
- [wishlist@dmTIsPatial.com](mailto:wishlist@dmTIsPatial.com)
- [support@dmTIsPatial.com](mailto:support@dmTIsPatial.com)
- customer survey

## Founding Principles

really  
smart  
spatial  
solutions™

- **To create the definitive geographic base data**
  - **High accuracy**
  - **Updated daily - released quarterly**
  - **Open standards, multi-format (i.e. ESRI, etc)**
  - **Exact topology**
  - **Very deep, multi-level geospatial databases**
  - **Full integration across disparate data types and data sources**

## Libraries... Do we take them for granted

really  
smart  
spatial  
solutions™

- “Canadian school libraries are in crisis”
- “Libraries with no new books in the last 10 yrs”
- “Libraries... are an endangered species”
- “Pouring more money into library staff and resources can bring scores up by 3 to 15%”
- “School libraries in a miserable crisis, Carrier says”,  
Globe & Mail, Kim Honey, May 29, 2002

SMART

really  
smart  
spatial  
solutions™

- **Spatial Mapping Academic Research Tools**
- **The DMTI Spatial response to the DLI**
- **First and only private sector firm to participate**

## SMART Quotes

- **Doug Banting, Geography Department, Ryerson University “With the access to commercial-grade data such as that from DMTI Spatial, the learning environment is in keeping with professional expectations.... This innovative private-sector arrangement.. is truly welcome and it is hoped the initiative will inspire others in the field to grant access to their data for teaching purposes. It advances the entire GIS community by producing better graduates.”**

## SMART Data Sets

- **CanMap® Streetfiles**
- **CanMap® RouteLogistics**
- **1996 Census Geography Boundary Files**
- **Enhanced Postal Code File**
- **Forward Sortation Areas (FSAs)**
- **Canadian Atlas Map Bundle**
- **Enhanced Points of Interest**
- **CanMap® Parks**

## SMART Data Sets continued

really  
smart  
spatial  
solutions™

- CanMap® Rail
- 30m Digital Elevation Model
- 90m Digital Elevation Model
- CanMap® Water (Coming September 2003)
- GeoPinpoint™
  - \*1996 Census data (special request)

## SMART Annual Maintenance Program

really  
smart  
spatial  
solutions™

- New coverage
- Product improvements
- Customer driven “wish list” items
- New Product Additions

## Cost

- Annual flat fee administered by the University of Toronto
- Based on number of participants
- Fixed regardless of the number of new data sets added

## SMART Participants

- University of Ottawa
- University of Windsor
- University of Guelph
- York University
- Universite de Sherbrooke
- University of Alberta
- University of Waterloo
- Brock University
- Trent University
- Ryerson University
- Southern Alberta Institute of Technology
- Laval University
- University of New Brunswick
- Okanagan University College
- University College of the Caribou

## SMART Participants

- Universite de Moncton
- Niagara College
- Buchanan Library
- University of Victoria
- Simon Fraser University
- University of Lethbridge
- University of Calgary
- Mount Royal College
- Dalhousie University
- University of Western Ontario
- Olds College
- University of Saskatchewan
- Lakehead University
- McMaster University
- Laurentian University
- University of Northern British Columbia

## SMART Participants

- Memorial University
- Acadia University
- College Garneau
- Carleton University
- University of Toronto
- University of Regina
- Queen's University
- Universite du Quebec a Montreal
- McGill University
- University of Manitoba
- Wilfrid Laurier University
- University of Montreal
- University of British Columbia
- University of Winnipeg
- **45 Institutions**

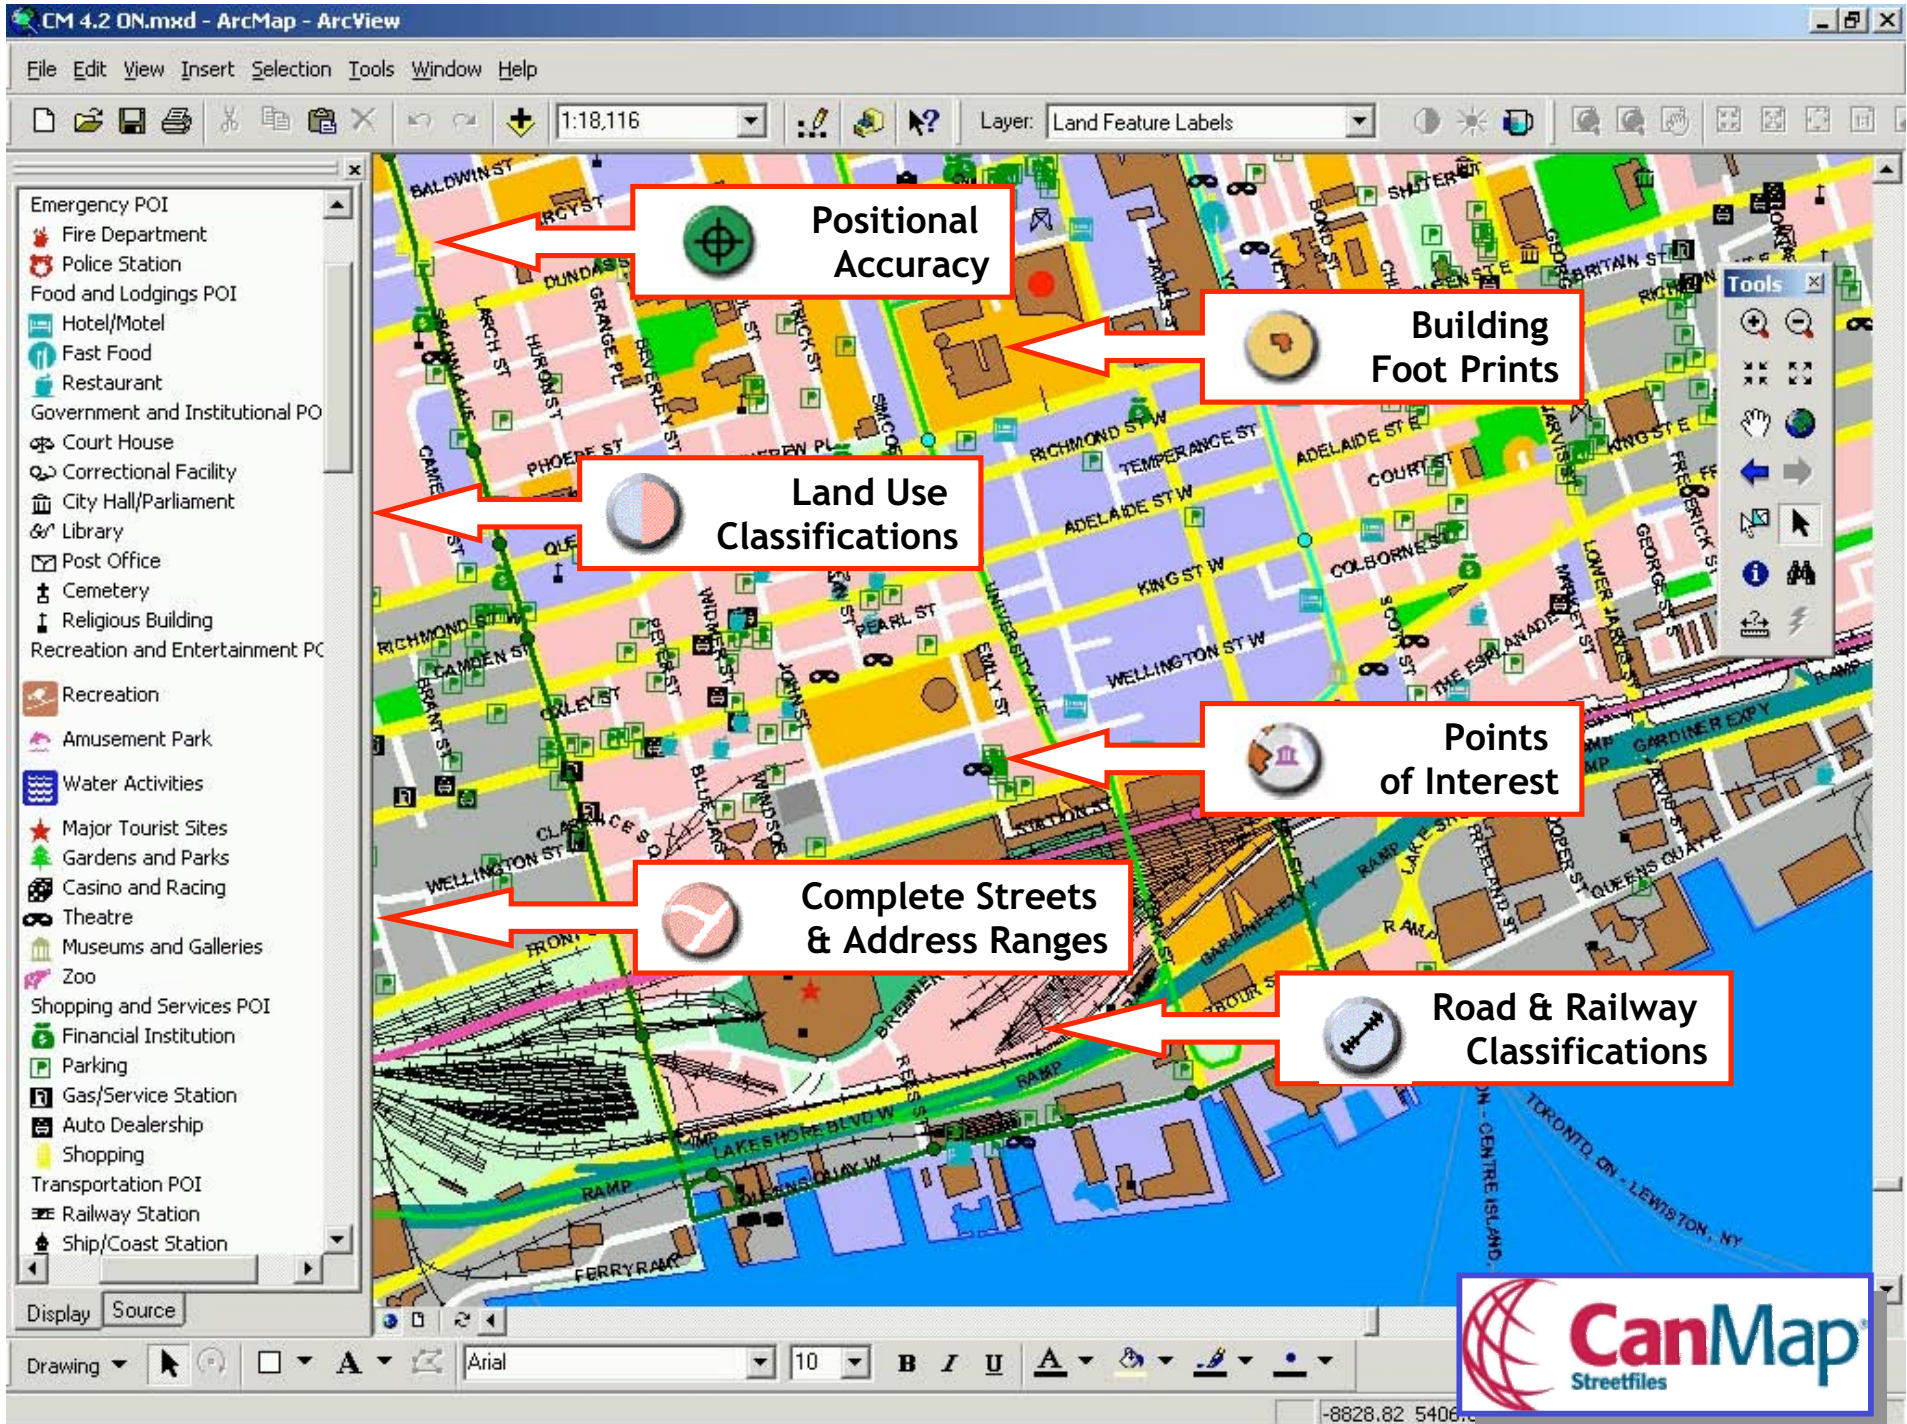

## **Nationwide Features**

- Street centreline road network
- Street names and address ranges, 99% and 88% of the population respectively
- Regional and municipal boundaries
- 6 cartographic road classifications
- Major roads and highways are included in a separate layer (cartographically distinguishable from other streets)

## **CanMap's 748 Urban Areas Includes:**

- Land use classifications
- Points of interest
- Building footprints
- Buffered street centerline road network casements
- Railway and utility features
- Topographic features and named geographic features

# CanMap<sup>®</sup> RouteLogistics

really  
smart  
spatial  
solutions<sup>™</sup>

One-way  
streets in  
Toronto

- Topologically-correct network fabric based on CanMap<sup>®</sup> Streetfiles
- One-way streets in urban areas
- Physical turn restrictions
- Estimated travel time in minutes
- Estimated travel speed
- Highway exit numbers
- FSA boundaries
- Road gradient based on road elevation
- Route Hierarchy

# GeoPinpoint™ Geocoding Software

really  
smart  
spatial  
solutions™

**1** DMTE Geocoder  
GeoPinpoint™  
Enter Locations For Geo-Reference Database And Target Data  
GeoRef Database: [Browse]  
Target Database: [Browse]  
Table/SQL: [Select Table]  
Next > Exit

**2** DMTE Geocoder  
GeoPinpoint™  
Specify Address Data Fields And Options  
Use Un-Paired Address Field [checked]  
Write Back Geocoded Addresses [ ]  
Write Back Geocoded Paired Fields [ ]  
Write Back Province Code [ ]  
Relax Matching On Street Type [ ]  
Relax Matching On Street Direction [ ]  
Address: [ ] Municipality: [ ]  
Province/State: [ ] Postal/Zip Code: [ ]  
Back Next > Exit

**3** DMTE Geocoder  
GeoPinpoint™  
Specify Output Fields And Options  
Longitude: [ ] Latitude: [ ]  
Result Code: [ ] Result Code 2: [ ] Precision Code: [ ]  
Output Options: [ ]

[ ] Offset From Centroid (Meters)  
Back Next > Exit

**4** DMTE Geocoder  
GeoPinpoint™  
Results  
Geocoded By Address/Intersection: 0  
Geocoded By Postal Code: 0  
Geocoded By Municipality: 0  
Previously Geocoded: 0  
Not Geocoded: 0  
Press Start To Geocode Or Back To Change Parameters  
Back Start Stop Exit

Canada's Premier  
Geocoding Package

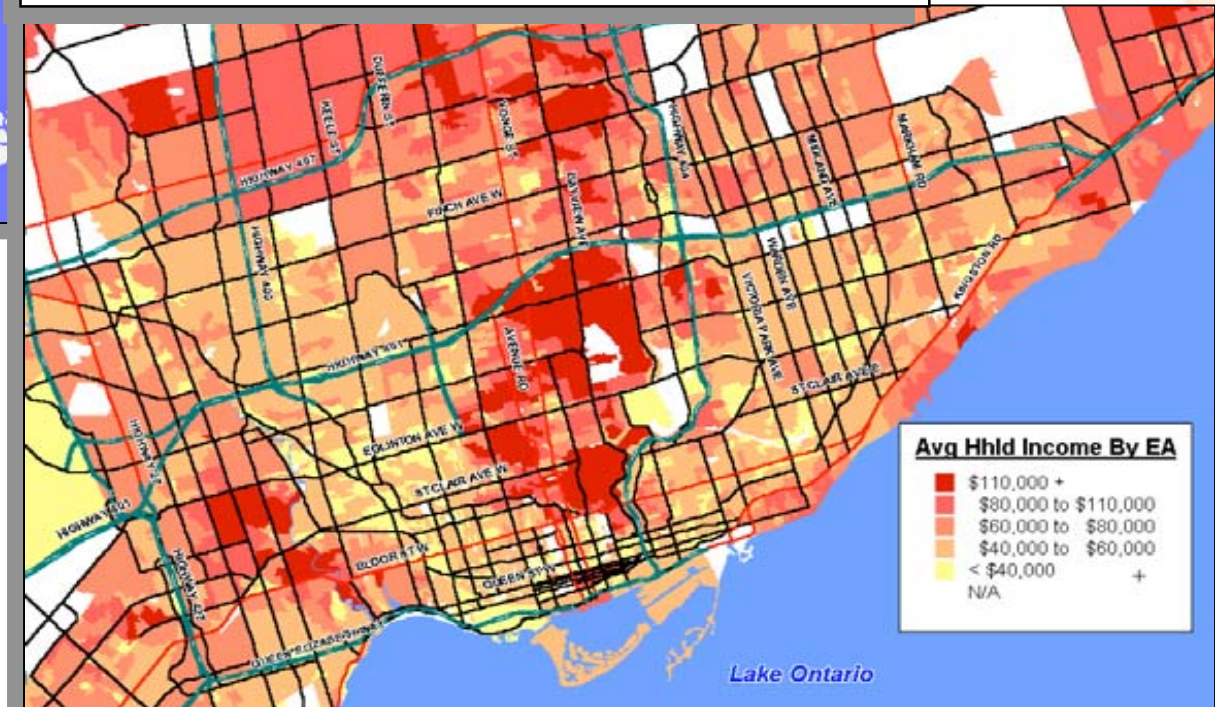

## 2001 Census Boundaries

**Benefit:** DMTI's Census Boundaries nest with the precision-based **CanMap®** to enable you to carry out accurate geo-spatial analysis.

really  
smart  
spatial  
solutions™

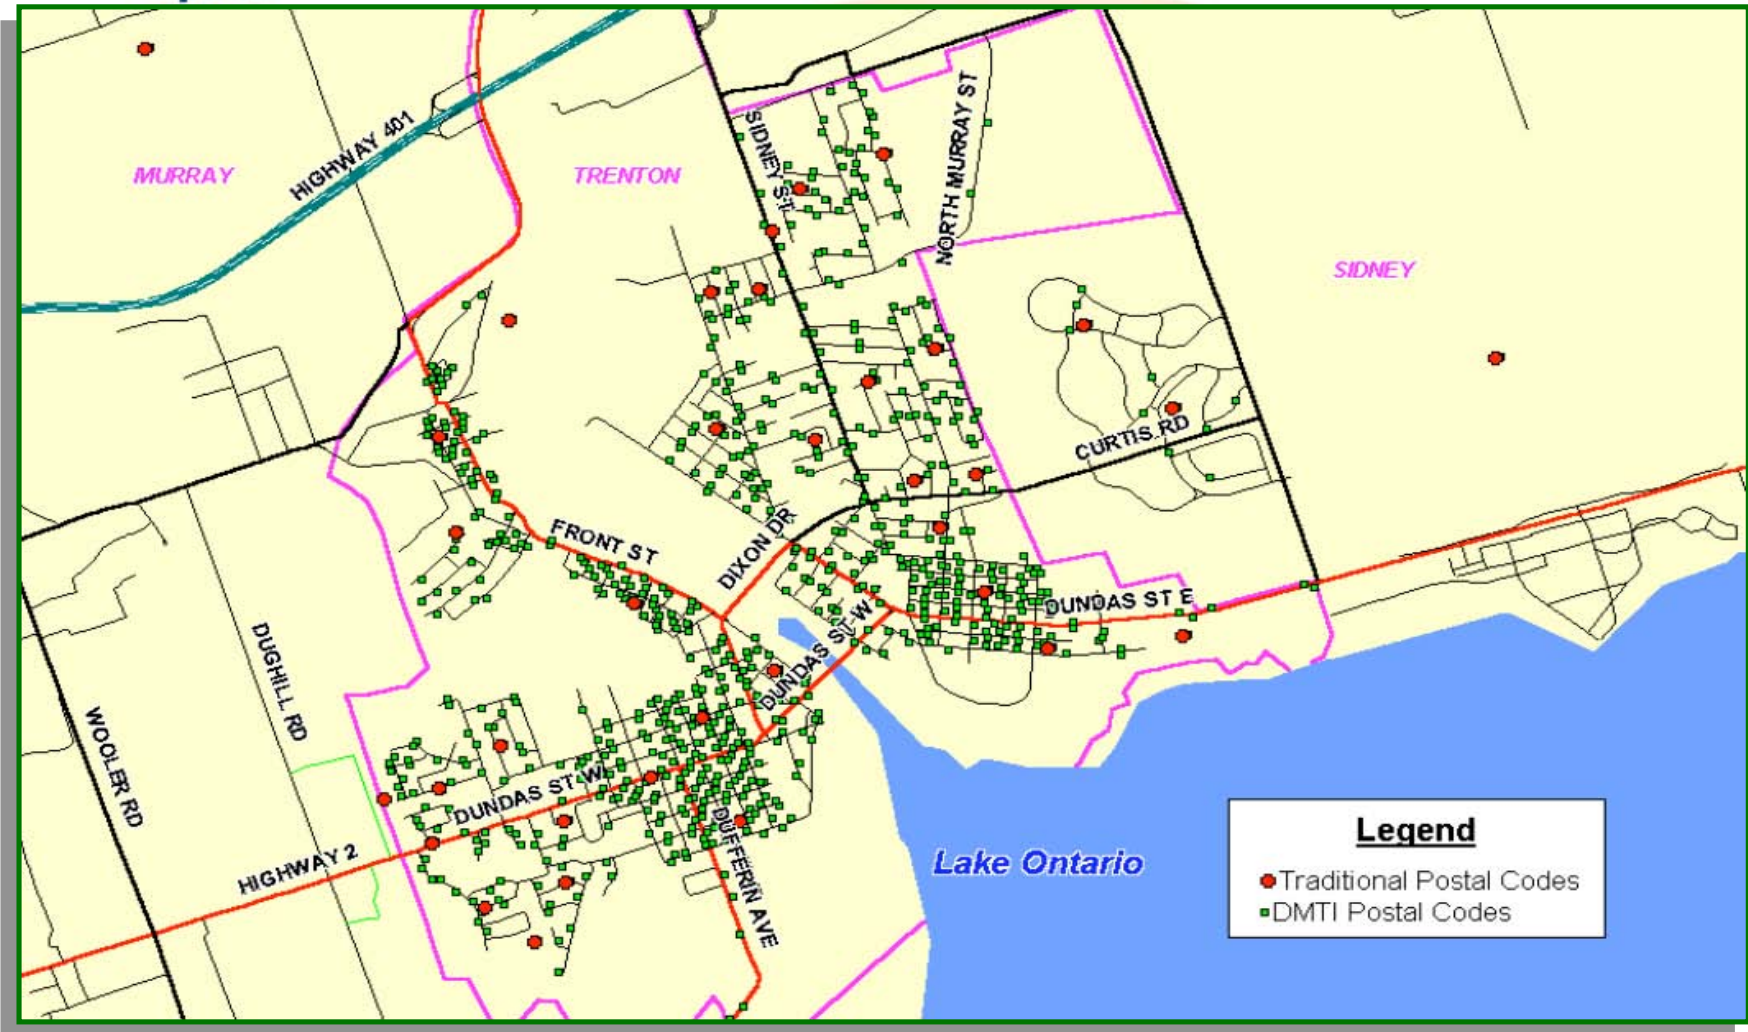

## View Demographic Trends ...

# Postal Geography

really  
smart  
spatial  
solutions™

## Enhanced Points of Interest

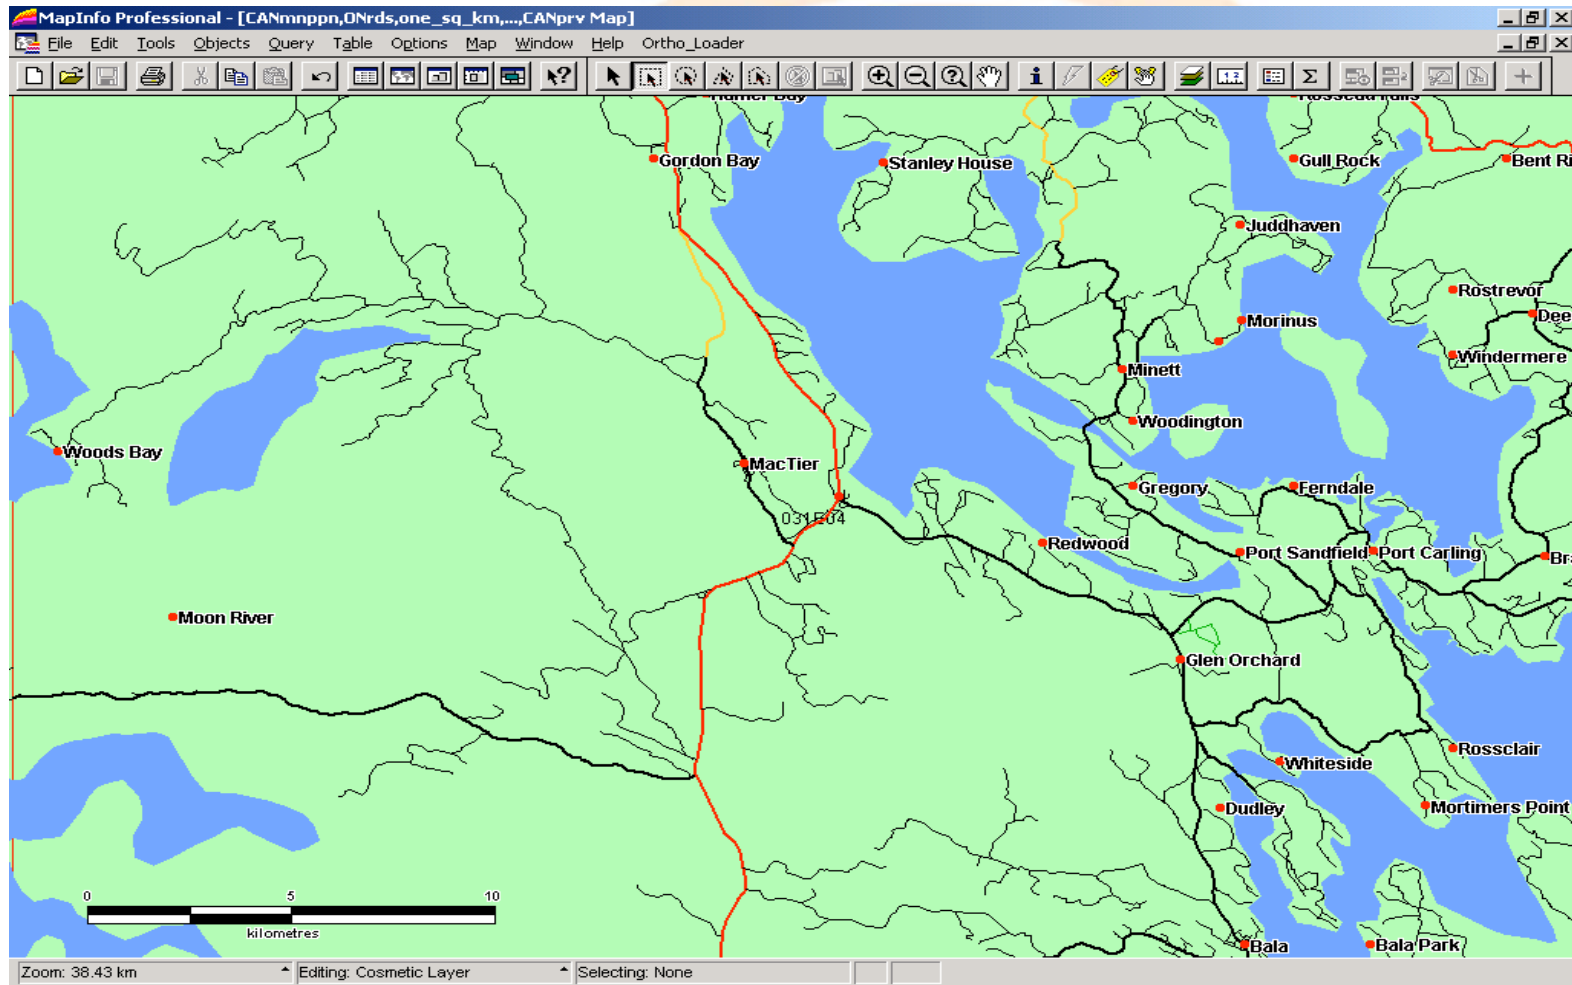

really  
smart  
spatial  
solutions™

- Nearly 1 million Canadian business and recreational points of interest
- Business name, address, city, province, postal code  
telephone number
- Standard Industry Classification (SIC) code
- Coordinate location (X, Y)
- Geocode and attribute precision code

# CanMap® Water

really  
smart  
spatial  
solutions™

## SMART Quotes

- “The DMTI Spatial initiative to provide high-quality geospatial data to post-secondary institutions across Canada is a groundbreaking achievement for GIS education in this country. Faculty and students will benefit from the best Canadian geospatial data available anywhere. This agreement will most likely be a model for many other educational initiatives to benefit from GIS education in North America”, said Marcel A.J. Fortin, John P. Robarts Library, University of Toronto.

## SMART Uses

really  
smart  
spatial  
solutions™

- Teaching
- Research
- Publishing
- Internet
- Intranet

## SMART Data On The Web ...

really  
smart  
spatial  
solutions™

- Campus Locations
- Building & Department Locations
- Routing
- Special Studies

## SMART Data Departmental Users

really  
smart  
spatial  
solutions™

- **Geography**
- **Urban Planning**
- **Transportation**
- **Business Administration**
- **Biology**
- **Environmental Programs**
- **Social Working**

## SMART Data Departmental Users cont'd

really  
smart  
spatial  
solutions™

- Criminology
- Security and Defence
- Recreation
- Engineering

## SMART: Fostering GIS Centres of Excellence

really  
smart  
spatial  
solutions™

- **Benefits**

- Excellent Value
- Access to comprehensive national geographic data sets
- Data currency assured with annual updates
- License extends to all departments within the academic institution..no need to worry about number of seats
- Terrific teaching tool
- Canadian based research and analysis

## SMART: Fostering GIS Centres of Excellence

really  
smart  
spatial  
solutions™

- **Benefits cont'd**
  - Reduces number of disparate data sources eliminating time, money & effort
  - Permits development of non-commercial web based services in support of academic programs

## The Great Canadian Mapping Challenge

really  
smart  
spatial  
solutions™

- **DMTI Spatial Scholarship Program**
  - September 2003-April 2004
  - Multi-disciplinary
  - SMART Program Participants
  - Submission based on use of DMTI Spatial in support of analysis across disciplines
  - Awards announced in June 2004
  - Review Panel

## The Great Canadian Mapping Challenge (cont'd)

- **Awards:**
  - Total of \$10,000 to be awarded
  
- **Under Graduate Prizes**
  - First prize                   \$3000
  - Second prize                 \$2500
  - Third prize                    \$2000
  
- **Graduate Prize**
  - Single Award                 \$2500

## SMART Quotes

- "We are excited by this innovative collaboration with DMTI Spatial to provide Canadian geospatial data to educators and students. Using these current Canadian datasets will provide a meaningful and relevant context in which to learn geographic techniques and issues. This is an excellent example of how private industry can partner with educational institutions to mutual benefit.", stated Lynn Moorman, Department of Geography, University of Calgary.

## SMART Benefits: DMTI Spatial

really  
smart  
spatial  
solutions™

- “It was the SMART thing for DMTI to do...”
  - Builds Partnerships ([www.carpooling.ca](http://www.carpooling.ca))
  - Seeding for the future
  - Great “branding” strategy
  - Cost effective
  - GIS product ready recruits
  - Great Visibility
  - Great Press
  - GEOCONSORTIUM-L@LISTSERV.UTORONTO.CA
  - Giving Back!

## Fear Factor

really  
smart  
spatial  
solutions™

- Commercialization
- Pilfering
- Perception
- *“Based on TRUST...we are confident in the system that is in place!”*

## Other DMTI Spatial Educational Programs

really  
smart  
spatial  
solutions™

- ESRI K-12 Program
- ArcCanada 3.0
- Sir Sanford Fleming GIS Program
- COGS Award
- SMART™ USA

## ESRI K-12 Program

### Local Data Set

- Provides an education license for the 'classroom'
- Classroom = all machines within school and a copy for the teacher's home computer
- License managed by the teacher (usually geography)
- Cost: \$250 per classroom. (Update @ \$250)

## ESRI K-12 Program (cont'd)

really  
smart  
spatial  
solutions™

### Local Data Set

- 10x10 km box centred on school location
- Rural schools can chose a box in an urban area
- Products provided:
  - CanMap® Street File
  - 1996 Census Tables for use with EA file
  - Enhanced Points of Interest File including Health Care, Education, Accommodations

ESRI ArcCanada

really  
smart  
spatial  
solutions™

## The Schools and Libraries Edition:

- CD ROM focusing on Canada at the national and provincial level
- Sold in conjunction with ESRI Canada education programs

**ESRI ArcCanada**  
(cont'd)

## **DMTI Data:**

- **Hydrography**
- **Time Zone**
- **Area Code**
- **Provincial Border**
- **International Border**
- **Highways**
- **Major Cities**
- **Middle Cities**
- **Municipality**
- **Regional Municipality**
- **FSA Centroids**
- **Rail**
- **National Parks**
- **Provincial Parks**
- **Indian Reserves**

## Sir Sandford Fleming

- **Student Research Project Credit Course:**
  - Demonstrate how GeoPinpoint™ (geocoding software), CanMap® RouteLogistics (routing data) and Enhanced Points of Interest can be used in conjunction with ArcIMS to create a Risk Assessment tool
- **DMTI Benefits:**
  - An example of a tool how are data can be used by clients to coordinate procedures and emergency services in the event of a “disaster”

## Sir Sandford Fleming (cont'd)

really  
smart  
spatial  
solutions™

- The tool will:
  - Geocode an incident (i.e. gas leak)
  - Determine what Emergency zone the incident has occurred in
  - Provide type and density of population
  - Buffer incident and determine what “features” are effected by the incident (i.e. gas leak and schools near by)
  - Create a report describing features that are effected by the incident and show maps

## COGS Award

- **Centre for Geographic Sciences in Nova Scotia**
  - Two awards:
  - **Best Analytical Major Project in Business Geographics \$150**
  - **Best Standing in the Advanced Location Analysis Course \$100**

## SMART USA

- Launch September 2003
- Same principles as SMART™ Canada
- In partnership with University of Toronto
- Cost \$3500 US Enterprise Wide
- Fewer data sets due to Government of Canada royalty requirements
  - CanMap Streetfiles, CanMap Route Logistics, GeoPinpoint, Enhanced Points of Interest, CanMap Rail, CanMap Parks, Enhanced Postal Code File, Canadian Atlas Map Bundle, Forward Sortation Areas

## SMART Quotes

- “The DMTI Spatial data will, without a doubt, be an excellent and most used series of files for our users and will do much to improve the overall satisfaction of the user community - the thousands of researchers and students across Canada. On behalf of all members, and our users, thank you for this initiative.”, stated James Boxall, Killam Library, Dalhousie University, Ex-president, ACMLA.

## Giving Back

- **SMART Program**
- **Disaster Relief Support**
  - **SARS, West Nile, Ice Storm & Manitoba Flood**
- **Charity Assistance Program**
- **Local GIS (Local Government Information Sharing)**

## Other DMTI Spatial Programs

really  
smart  
spatial  
solutions™

- CanGMS
- ProvGMS
- GovGMS
- National Security

## SMART Quotes

“The consortia purchase of the five DMTI Spatial national products is a ground-breaking initiative.

This is the first time in Canada that a commercial geospatial data provider has recognized the critical importance of affordable access to their data products to support the rapid development of GIS teaching and research in Canadian post-secondary institutions.

DMTI Spatial is to be commended for making these valuable resources available to the Canadian education sector.”

**Grace Welch, President  
Association of Canadian Map Libraries and Archives**
