ArcGIS for Utilities & Telecommunications

Addressing key business objectives

Asset Management	Planning & Analysis	Field Mobility	Operational Awareness	Stakeholder Engagement							
Collect, Organize, & Manage Data	Transform Data Into Actionable Information	Get Information Into and Out of the Field	Disseminate Information Where and When it is Needed	Get Feedback and Make Informed Decisions							
	ArcGIS Integrated Web GIS Platform										

ArcGIS Spatially Enables Utility Workflows

Infusing mapping, analysis, data management, and collaboration

Core characteristics

Attributes of the solution

- Fully supported by Esri
- Continues to be developed
- Open sourced on Github
- Free download

Configures the ArcGIS Platform for a electric distribution utility
