Esri Impact Map for Superstorm Sandy

A collection of dynamic maps showing impacted counties provided by FEMA with Esri demographic data.
Select a demographic map using the tabs. Click any county to view demographic information.

Over 64 Years Age | Home Ownership | Median Home Value | Household Income | Diversity

Local Impact & Population Older Than 64- Copy

Click the map to see which percentage of the population is over 64 years old and explore age breakdowns in the affected area.

For more information about this data click here.

Comparing unemployment and population change reveals regional patterns

Despite recent signs of recovery, unemployment remains a major national issue. How do patterns of unemployment relate to regional changes in population?

A story map

esri

UNEMPLOYMENT | POPULATION CHANGE | RELATIONSHIP

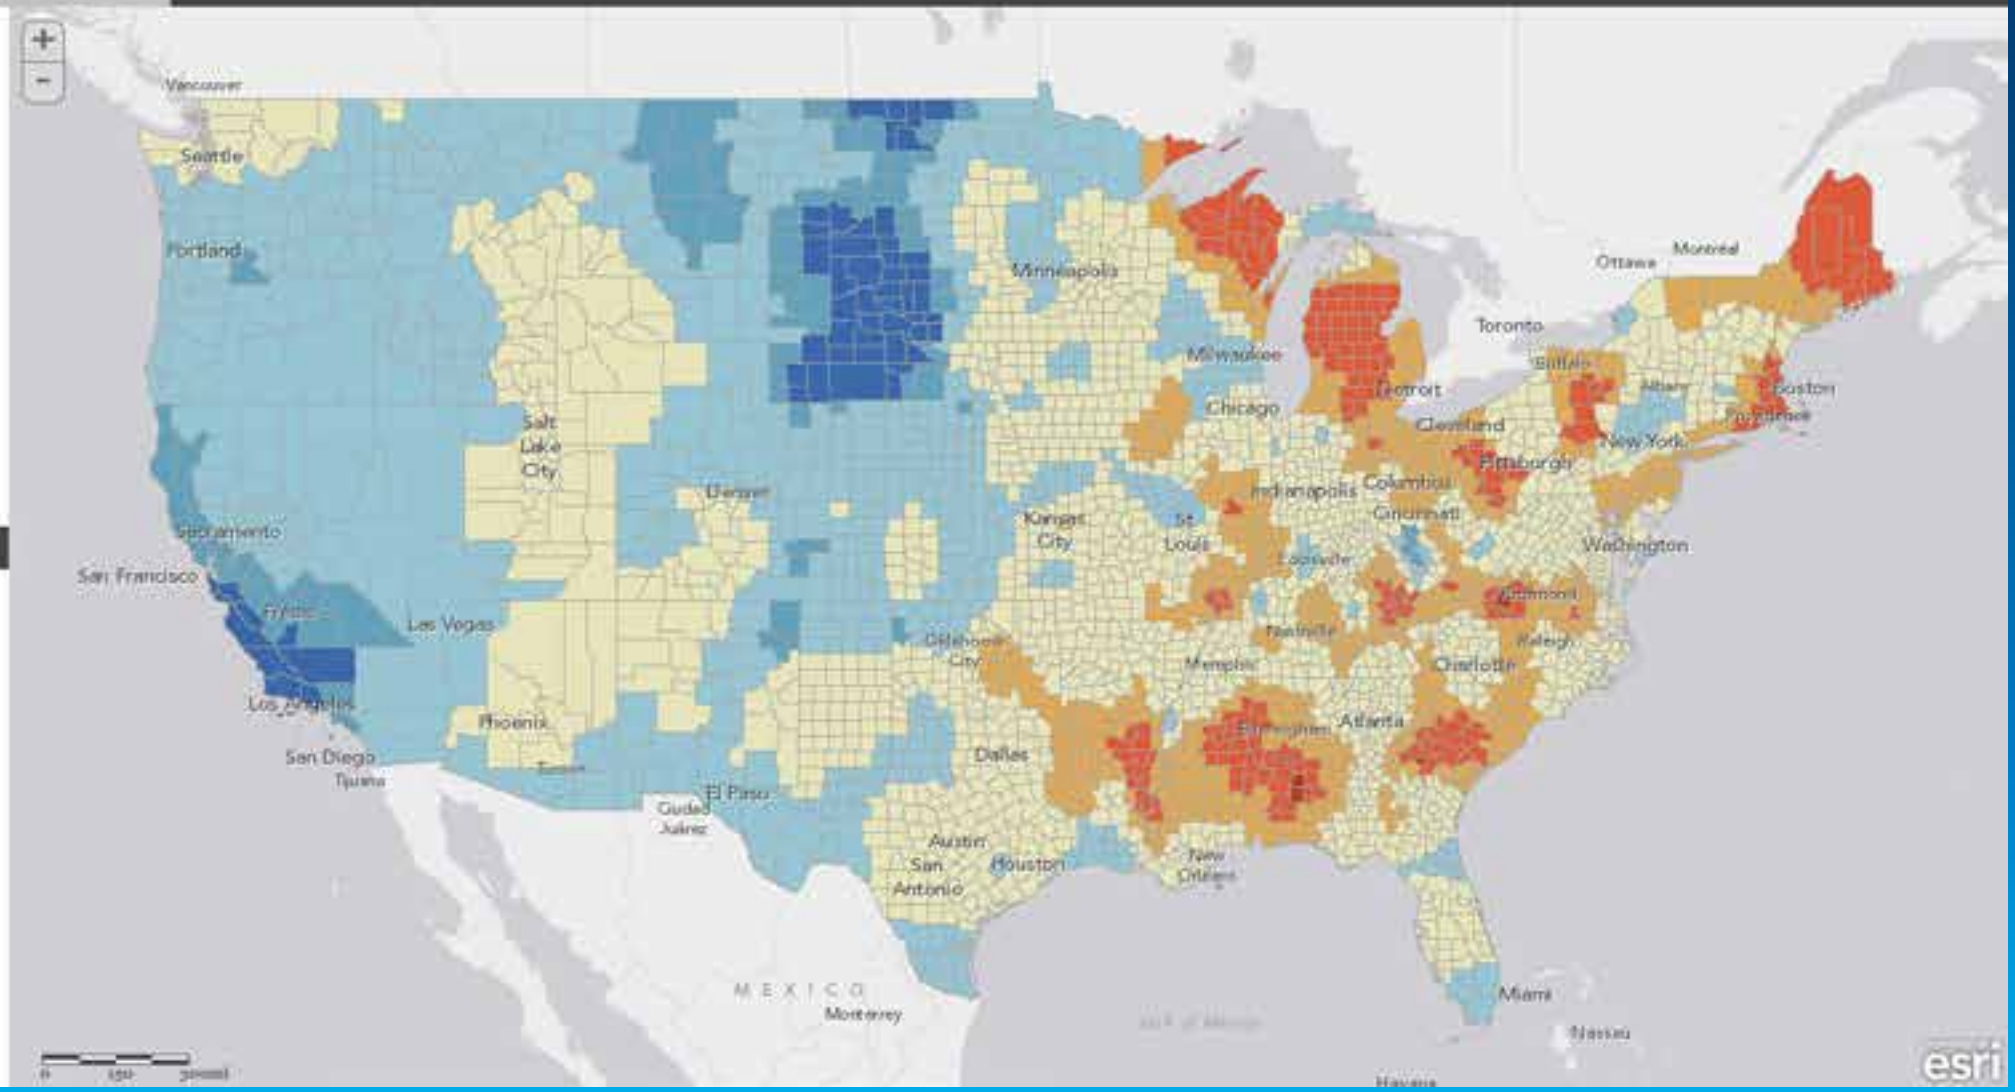
Relationship of unemployment to population change

The analysis shows that in some parts of the country, population and unemployment tend to parallel each other (blue)...

- **The Great Plains:** Declining population and low unemployment.
- **Coastal California:** Increasing populations and high unemployment.

...while in others, they tend to run in opposition (red).

- **Deep South, Rust Belt, and Upper Midwest:** Static or decreasing populations and high unemployment



LEGEND

Relationship of unemployment to population change

Correlation of unemployment to population change is:

- strongly negative
- negative
- weakly negative
- weak
- weakly positive
- positive
- strongly positive

Access to basic health care is inadequate in many parts of the U.S.

These county maps present two ways of examining a fundamental public health challenge. To the left of the slider bar: a look at doctor's offices relative to population. To the right: primary health providers.

A story map

esri

The availability of basic health care varies radically from place to place across the nation.

To the left of the vertical slider bar, counties outlined in orange had no doctor's office in 2009, according to the Census Bureau. Clark County, Mississippi, for example, had a population of over 17,000 but no doctor's office, while Manhattan had a doctor's office for every 500 residents.

The map **to the right** shows the relative availability of primary health care providers by county. Enhanced access to health care is key to improving the health of Americans.

Doctor's office data is from the U.S. Census Bureau's County Business Patterns and Population Estimates programs.

Primary care provider data is from the U.S. Department of Health and Human Services' leading health indicators.

LEGEND

Left side

Counties with no doctor's office

People per doctor's office in 2009

- Very high need
- High need
- Average
- Low need
- Very low need

Right side

Counties with no primary care providers in 2006

People per provider in 2006

Esri U.S. Business Data

What Data does Esri offer for Canada?

Demographic Data for Canada

- Nearly 3,000 variables available
- Data available for 2011, 2013, and 2018
- 162 different tables of data including:
  - Age
  - Marital Status
  - Education
  - Mother Tongue
  - Income
  - Occupation
  - Daytime Population
  - Expenditures
  - Housing

What International Data does Esri offer?

Global Demographic Data

- Around 100 variables per country
  - Population and Population per Mill
  - Average Household Size
  - Total Households
  - Purchasing Power
  - Age (15-Year Age Groups)
  - Gender
  - Consumer Spending
  - Income
  - Household Type
  - Marital Status
  - Education

NLM Environmental Health Portal

Alert: TOXMAP beta will be down for maintenance Wednesday 25-December from 8-10 AM

Two Ways to Explore Toxic Chemicals in Your Community

TOXMAP *classic*

TOXMAP classic provides an Advanced Search, allows you to save your search results, and lets you build custom regions to focus your search. No new features are planned.

TOXMAP *beta*

The **TOXMAP beta** has an improved map appearance and interactive capabilities. It also has improved U.S. Census layers and availability by Census Tract, additional and updated datasets, and remains in active development.

Note: both versions of TOXMAP open in new windows - please disable pop-up blockers.

TOXNET is a part of the TOXNET family of databases on toxicology, hazardous chemicals, environmental health, and toxic releases.

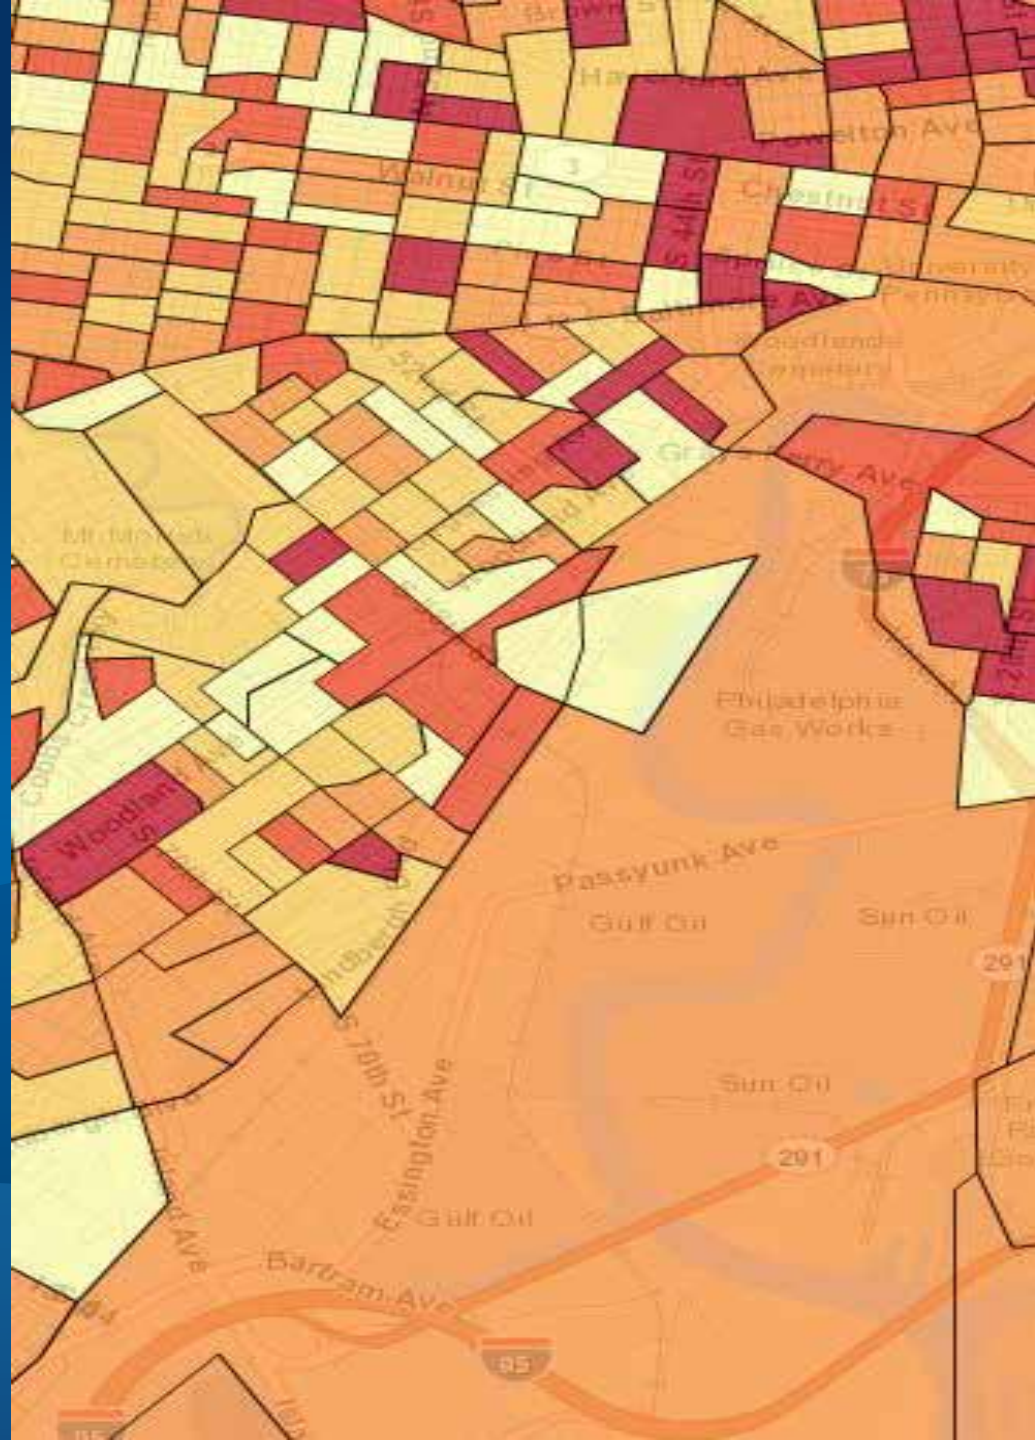
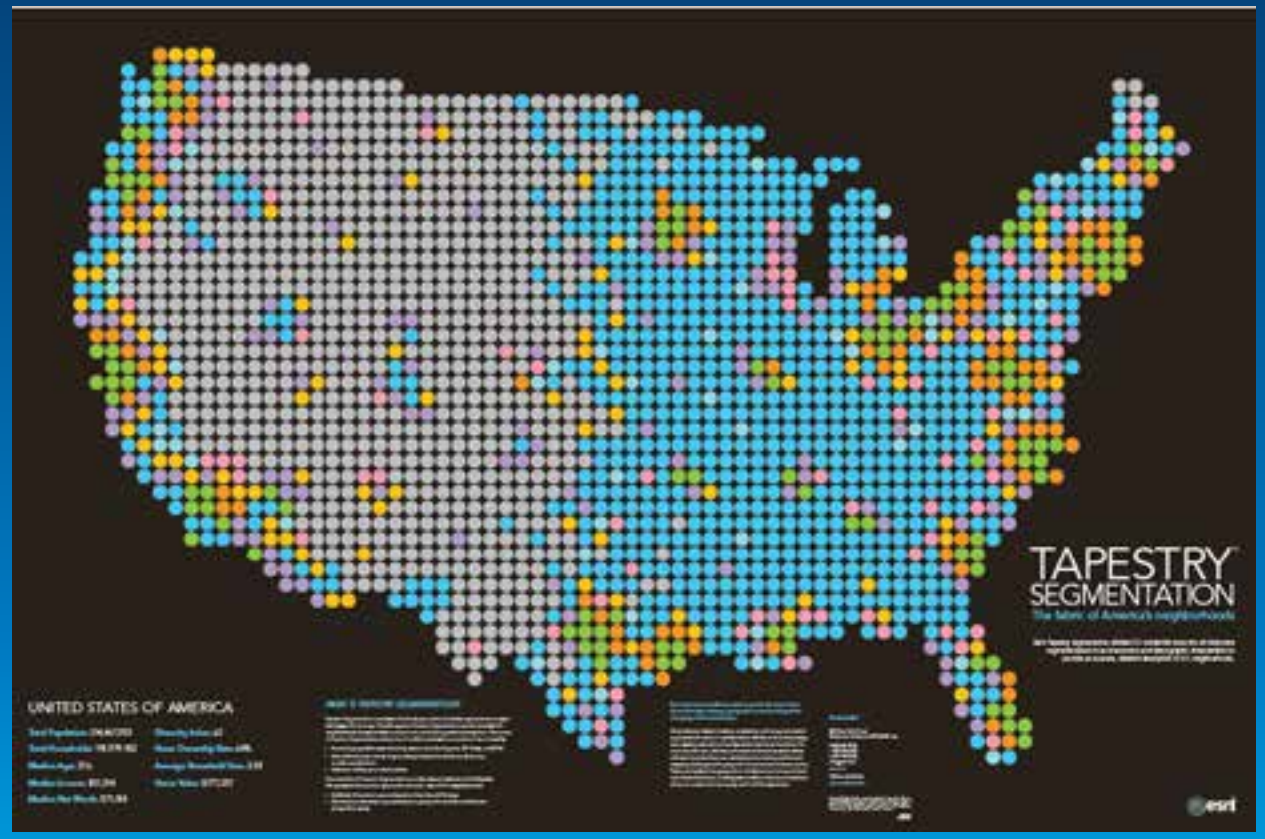
What's new in 2014?



Tapestry

Next Generation



What's changed?

- Effects of the Great Recession
  - reduced income and asset levels
  - lower home values
  - more subdued growth
- Increasing diversity
- Aging of the population
- New housing patterns from the past decade in evidence - less dense suburban developments that are almost rural

5d

LifeMode Group: GenXurban

Rustbelt Traditions

Household: 2,685,000

Average Household Size: 2.46

Median Age: 31.6

Median Household Income: $49,109

WHO ARE WE?

Rustbelt Traditions are aptly named. Most residents are still living in the same cities in which they grew up, although there are some expatriates that have retired to warmer climates. They do not follow fads or pursue the latest and greatest in product innovations. Although they tend to stick with what they know, they have adapted to [illegible] uncertainty a[illegible]

OUR NEIGHBORHOOD

- Dominant household type: married couples (Index 95), with a slightly higher proportion of single-person households (Index 105) that reflects the aging of the population
- Household size lower at 2.46 (Index 95)
- Housing units are primarily single family

LABOR FORCE

- Education: 66.3% with high school diploma or some college
- Unemployment rate lower at 7.8% (Index 85)
- Labor force participation rate, 67% (Index 103), with more dual earner

5d

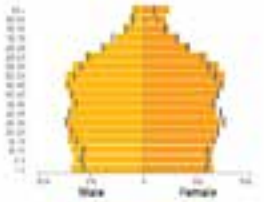
LifeMode Group: GenXurban

Rustbelt Traditions

TAPESTRY SEGMENTATION

AGE BY SEX

Median Age: 31.6 (US: 37.6)



RACE & ETHNICITY

The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

Diversity Index: 44.2 (US: 62.1)
