ArcGIS Urban: An Introduction

Brooks Patrick and Lisa Staehli
Our Cities Are Facing Massive Challenges
Our Cities Are Facing Massive Challenges
Visualize Projects Citywide

Visualize, track, and review development projects throughout their lifecycle.
Improve Planning Productivity

Streamline the creation and sharing of zoning and land use plans directly in the web browser, in 3D.
Increase Transparency and Understanding

Report on citywide performance indicators and disseminate trends to public and private stakeholders.
Better Engagement

1-click publishing and dialogue keeps your stakeholders informed and involved.

ArcGIS Urban: An Introduction

- March 14th, 2019 9:00 – 10:00 AM PST
- After registering, you will receive a confirmation email containing information about joining the webinar.

Training at APA NPC

Join us in downtown San Francisco to learn how ArcGIS Urban can help you model zoning codes and produce better plans in this series of APA educational sessions:

- Saturday, April 13 | 4:15 – 5:30PM PST
- Sunday, April 14 | 4:15 – 5:30PM PST
- Monday, April 15 | 4:15 – 5:30PM PST
