

What's New in Business Analyst Online and ESRI Data Offerings

Jim Herries
GeolInfo Summit
April 24, 2007

Background

- MS Geography 1995 Ohio State
- 12 years at ESRI
- 9 years Professional Services
- Some programming, lots of cartography, project management and proposal writing
- 3 years Product Management
- Solely focused on business applications of GIS technology – how GIS helps run a business

Business Analyst Online

What is Business Analyst Online?

- Business Analyst Online puts demographics, consumer data, business data, imagery and maps at your fingertips to aid critical business decisions.
- Two reasons to talk about it
 - It is here, now, for you to use
 - Augment your data
 - Augment your GIS
 - free subscription...
 - It is just an example of what can be done

Who uses Business Analyst Online?

- More than 15,000 organizations since 2002
- Real Estate
- Retail and Restaurants
- Economic Development
- City/County officials
- Federal Government
- Banks and credit unions
- Insurance agencies
- Advertising agencies
- Marketing groups
- Franchise organizations

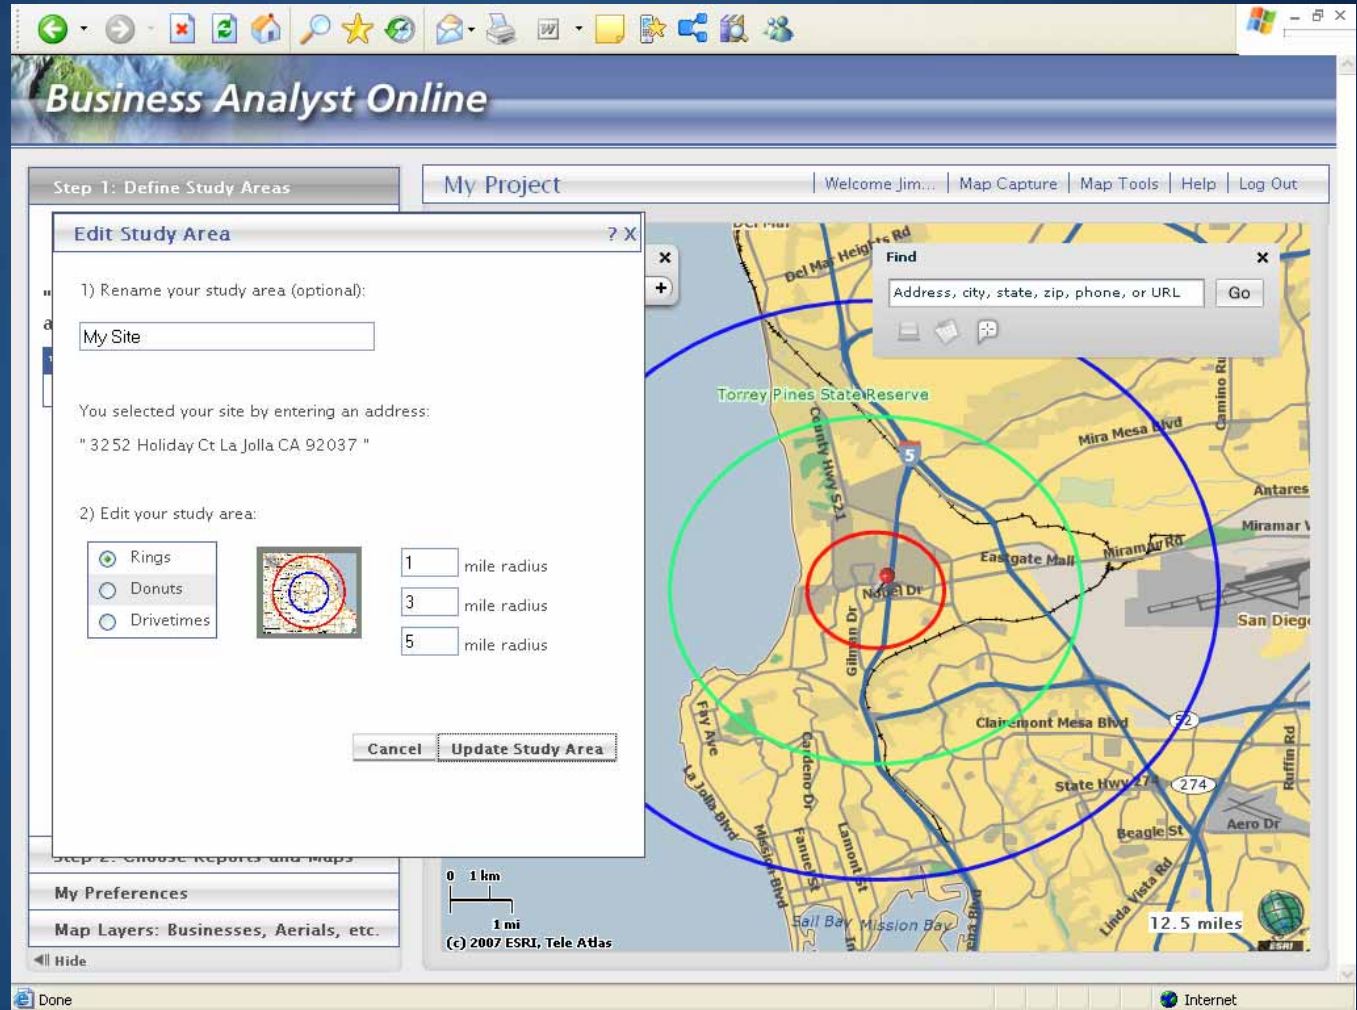

Features & Benefits

- Overall Benefits

- Fast access to small area demographic, consumer and business information
- High-quality report and map documentation to support your projects
- Ease of use
- Zero training required
- Software required: a web browser
- Works with OS/browser security features, not around them

Ease of use

- Step 1: Identify your site, development zone or market area

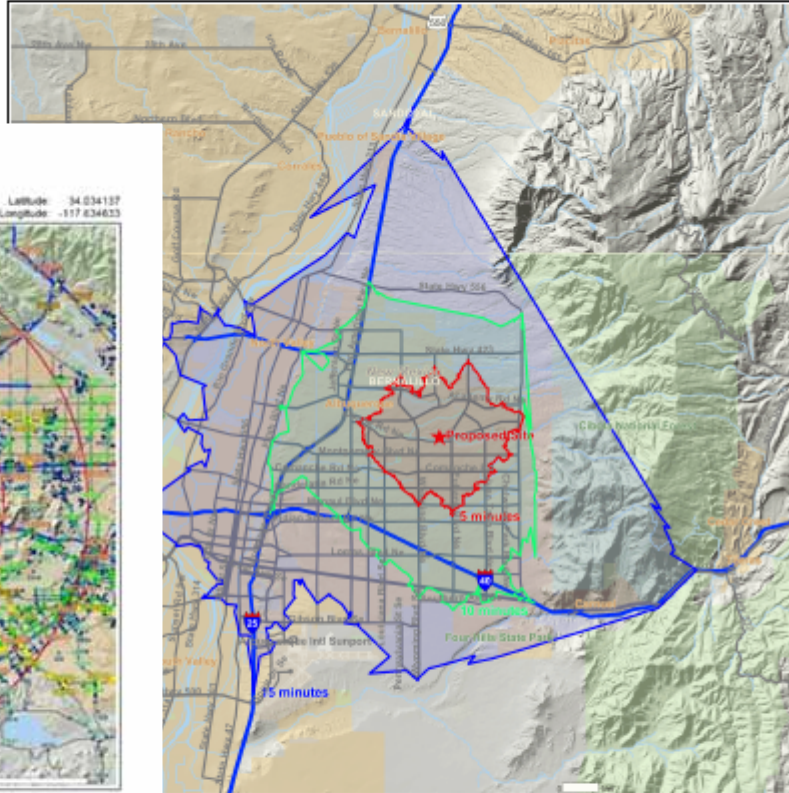

- Step 2: View your reports and maps

Proposed Site
9200 Spain Rd NE
Albuquerque, NM 87111

Hardcopy Reports and Maps

- Presentation-quality
- Easily inserted into presentation packages
- Excel format allows:
 - Integration with other data
 - Copy/paste charts and data into other documents
- PDF format allows:
 - Fast output in a format optimized for printing
 - Copy/paste maps into other documents

Who Uses Business Analyst Online?

- Real Estate professionals, retailers and restaurateurs use BAO to
 - Analyze trade areas
 - Evaluate competitors
 - Identify new store locations
 - Target direct mail
 - Find new customers
 - Reveal untapped markets
- Example: Pulte Homes
 - Wants to better understand current and predicted residential development patterns
 - Use BAO to build their case

Who Uses Business Analyst Online?

- Economic development professionals use BAO to
 - Analyze development zones
 - Evaluate available properties and sites
 - Identify new store locations
 - Reveal labor force characteristics
 - Put the local area in the best light
- Example: County of San Bernardino
 - Wants to attract a high tech medical research facility
 - Use BAO to build their case

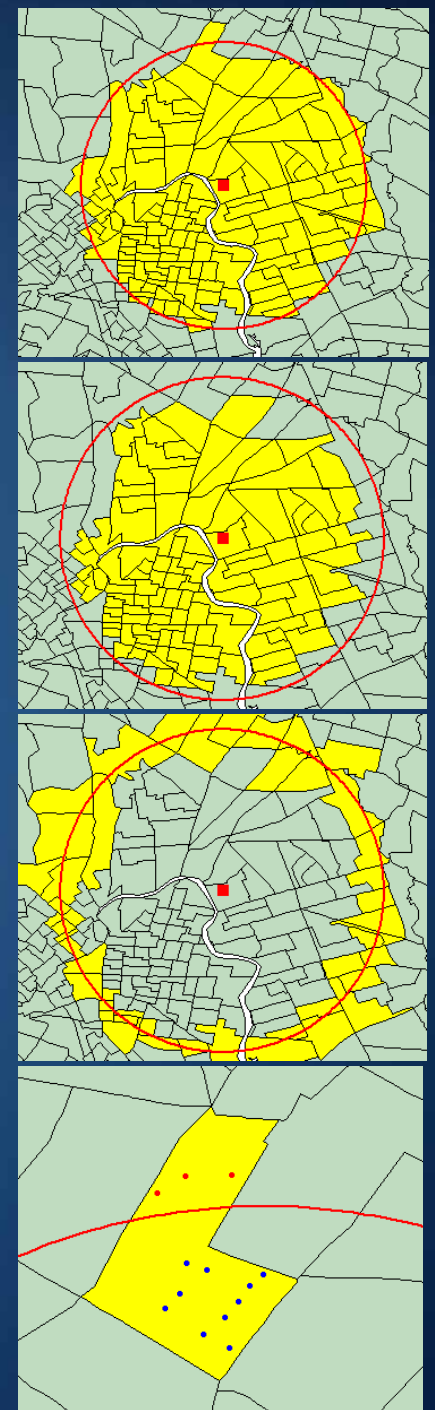

Features & Benefits

- GIS is involved at every step
 - Data collection
 - Estimates and projections
 - QC/QA
 - Map making
 - Study area definitions (rings, drive times)
 - Data aggregation and calculations

Aggregation Methodology

- Block to Block Group apportionment
- 10 of the 13 Blocks for the highlighted Block Group are contained within the trade area.
- The total population for all 13 blocks is equal to 1,000 people.
- The sum of the population for these 10 Blocks is equal to 750 people.
- In this case a score of 0.75 would be assigned to the highlighted Block Group.
- This step is repeated for each one of the highlighted Block Groups

What's new in Business Analyst Online

- New data
- New subscriptions
- New interactive features

2007 Data Updates and Additions

- 2007/2012 ESRI Community demographic updates
 - *All geographies affected*
- Census 2000
 - *Updates to geographies that change (ZIP Codes, DMAs, Congressional Districts, CBSAs)*
- 1990 Data in 2000 Geography
 - *Updates to geographies that change (ZIP Codes, DMAs, Congressional Districts, CBSAs)*

2007 Data Updates and Additions

- 2007 Consumer Expenditure data updates
 - *Update to households plus new consumer survey (2002-2004)*
 - *All geographies affected*
- 2007 Market Potential
 - *Update to population and household counts and update to MRI Doublebase 2005.*
 - *All geographies affected*
- 2007 Tapestry
 - *All geographies affected*

2007 Data Updates and Additions

- 2007 Business Summary data updates
 - *All geographies affected*
- 2006 Retail MarketPlace data update in 2007 geography
 - *Was updated to 2006 in Jan 2007*
 - *Updates to geographies that change (ZIP Codes, DMAs, Congressional Districts, CBSAs)*

2007 Data Updates and Additions

- MPSI Traffic data
 - *Feb. 2007 update*
- DMM Shopping Center data
 - *Jan. 2007 update*
- BAO for Health updates
 - *Data from MMA and Planning 2.0*

Show on Map

Rich clients

- Speed the decision cycle
- Expand exploration by making it fast and fun
- Enable live analysis, benchmarking, comparisons, sharing
- Move past passive viewing (slideshows)
- Move business workflows along
- Contribute to knowledge/awareness
- Contribute to actionable data/information

Why do businesses need this information?

- Populations are changing
- Consumer behaviors are changing
- Companies are changing
- Competition is evolving
- Technology is continually changing

Why is demand for this information growing?

- To look at this information once is helpful, a touchstone
- To monitor this information regularly is management
- To integrate this information into your business strategy is leadership

Because maps are abstract representations of the world, **they are not neutral documents** and must be carefully interpreted.

Know your audience.

Example: Who uses Business Analyst Online?

- The typical user
 - has a specific business problem to research and perhaps solve
 - Needs information from data
 - Is aware of some influences geography is having
 - Presence of competitors
 - Changes in the population
 - Changes in consumer behaviors
- They need answers quickly
- Minimal time for startup or development
- Need a cost-effective solution

What does BAO provide?

- Access to 11,000 measurements of 11 geographies
- More than 65 unique report products
- Five map products (site maps, thematic maps, traffic count maps, shopping center maps, aerial imagery)
- PDF or Excel format for all reports
- Up to 3 rings or drive times per site
- Up to 250 miles per ring
- Up to 60 minute drive times
- Hand-drawn trade areas
- Upload trade areas (shapefiles)

- That's all nice, but what does it get me?
