## Who Is Critigen?

**Critigen is a full-lifecycle spatial systems integrator driving business performance through spatial IT solutions.**

**With global reach, top-tier partnerships and a full-lifecycle approach, Critigen delivers all components of a geospatial program: data collection, spatial processing, analytics and intelligence, application development, and mobile solution development.**

## Who is Critigen?

Critigen's Spatial Enterprise consulting services tie these technology and process components together with business strategies that maximize the value of geospatial information.
