Abstract

Assembling a Multi Agency/County Regional GIS for Homeland Security
Track: Homeland Security
Author(s): Patty Lankey, Leslie Rhegness, Jerry German

The presentation will focus on how several joint committees were formed in Lucas County and Northwest Ohio, accomplishments, and how they are aiding in Homeland Security. The Regional IS/GIS Task Force is charged with determining how GIS/IS will be utilized for Homeland Security. The committee has served as a means to leverage the existing GIS data and to introduce a new group of people to GIS and ESRI products. The Regional GIS Committee was formed to determine what GIS work is being done by the surrounding counties and to combine data in a regional GIS for Homeland Security.
