Abstract

Implementing the NCEES Model Law on Surveyors and GIS
Track: Surveying
Author(s): Bruce Joffe, Lee Hennes

After 13 months of negotiation, representatives from five Surveyor and two GIS professional organizations reached agreement on the legal responsibilities of professional surveyors with respect to GIS. Eighteen months later, the NCEES officially changed its Model Law accordingly. In order to implement these changes, each state will have to modify its own laws regulating professional licensure of surveyors. Discuss this opportunity to clarify your state’s law, and learn and what you can do to help.
