

Esri International User Conference | San Diego, CA
Technical Workshops | Thursday 10:40am

Using ArcGIS Map Services in Microstation

Jeff Reinhart

Agenda

- **ArcGIS Server**
- **Image Server Extension**
- **How workflow can save time and money**
- **Demonstration**
- **Conclusions**

Esri Map services

Microstation consumes any Map Service

- Must be WMS enabled

Content in Map Service

- Feature Classes
- Raster
- SDE
- **Mosaic datasets (Imagery)**

Image Services

ArcGIS Imagery Solution

ArcGIS Server and Image Server Extension

- Process images
- Create Image Mosaics
- Create and Publish WMS services

Imagery managed by Desktop

- Metadata
- Create additional Mosaics
- Publish only what needed

ArcGIS as a System

Imagery available to all clients

- ArcGIS desktop
- Web Maps and Apps
- Mobile
- ArcGIS for AutoCAD
- **Microstation**

Microstation as a client

- consumes WMS natively
- No additional plug-ins
- Reduced workload on IT staff

Microstation Versions

Supported Versions

First supported in *V8 XM (08.09.03) - Manually*

V8i (8.11) - Use Raster Manager

WMS

Creates a xWMS connection file

Supported header formats

- jpg, png, bmp, and gif

DeKalb County Board

Fulton County Dept. of Health and Wellness/District 3, Unit 2, 04

Map Services in Microstation

Technical details

Publish WMS as Version 1.1.1

Best success if you change to PNG for image format

Seed file Units

- Feet
- Meters

How to blog post

• <http://blogs.esri.com/dev/blogs/arcgisserver/archive/2010/04/26/connecting-to-arcgis-server-from-micrystation.aspx>

Conclusion

- **Microstation as a client of ArcGIS Server**
- **Advantages of image Mosaics**
- **Can save your organization time and money**
