

Esri International User Conference | San Diego, CA Technical Workshops | July 12, 2011

# ArcGIS for Land Records: An Introduction

Larry Young
Scott Oppmann

## Agenda

- Introduction
- The Land Records Community
- Land Records Maps and Apps
- ArcGIS for Local Government System
- What's Next
- Your Feedback

## **ArcGIS for Local Government**

A product for Esri's local government customers

- A series of useful maps and apps focused on local government work
  - Organized into modules
  - Extensible, configurable
  - A foundation for Partner solutions
- Participation in the online community
  - Best Practices / Implementation Support
- Esri Services and Partner offerings
  - Help implement, sustain and enhance
- One ArcGIS product for local government
  - Freely available for individual customer and ELA engagements

Mobile Apps

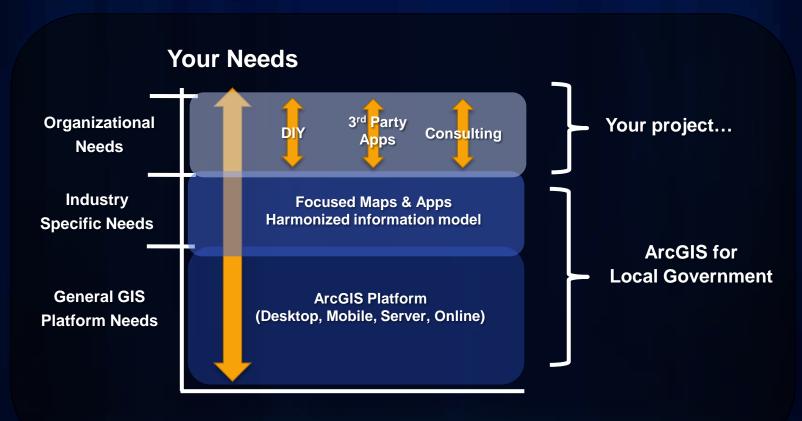

#### **Our Mission**

Help you increase the value of GIS in your organization

- Make it easier to deploy ArcGIS
  - Deliver applications quickly throughout your organization
  - Stay current with future releases / avoid legacy technology
  - Create a platform of geospatial data that can be leveraged by many
- Address common constraints in local government
  - Size and skills of staff
  - Budget and time available to implement
- Empower the community to contribute
  - Users
  - Partners

## **ArcGIS for Local Government**

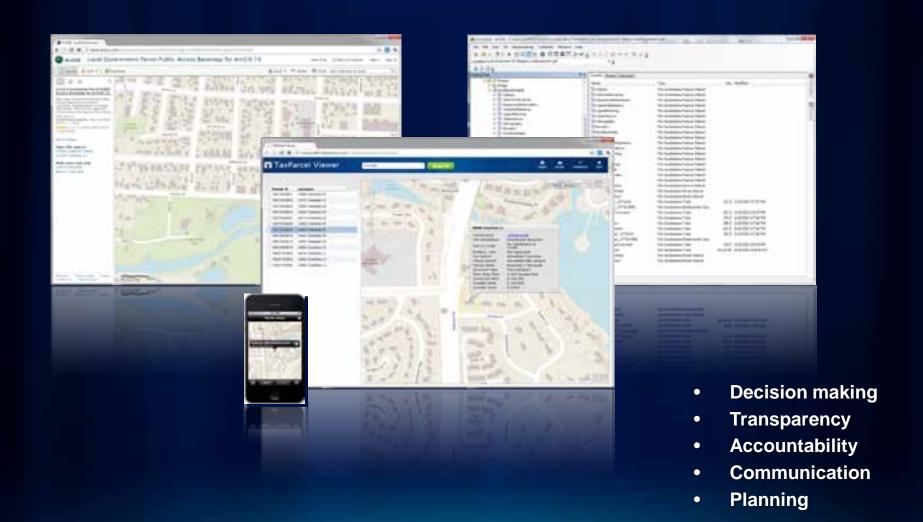

Changing the way you deploy GIS

...reducing time, risk and cost so GIS is easier to deploy and maintain

## **ArcGIS for Local Government**

Empowering a local government through a common ArcGIS system

....desktop, web and mobile apps with meaningful maps and layers supported by single information model

## **Five Common Business Patterns**

Asset Management Planning & Analysis

Field Mobility Operational Awareness

Citizen Engagement

## Land Records

Managing and distributing authoritative GIS data

Transforming data into actionable information

Getting information into and out of the field

Providing information on the health of an organization

Communicating directly with stakeholders and enlisting their participation

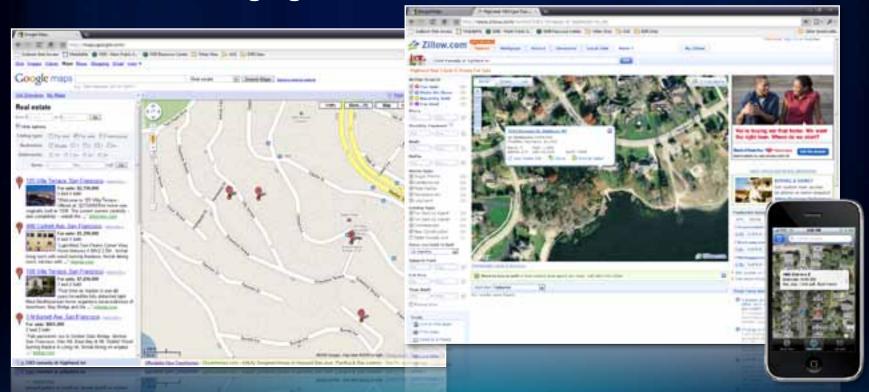

# **GIS for Land Records**

- Statutory responsibility to inventory legal records and value land
- Used in many vital government operations
  - Assessment and Taxation, Land Use, Infrastructure, Deeds and Documents

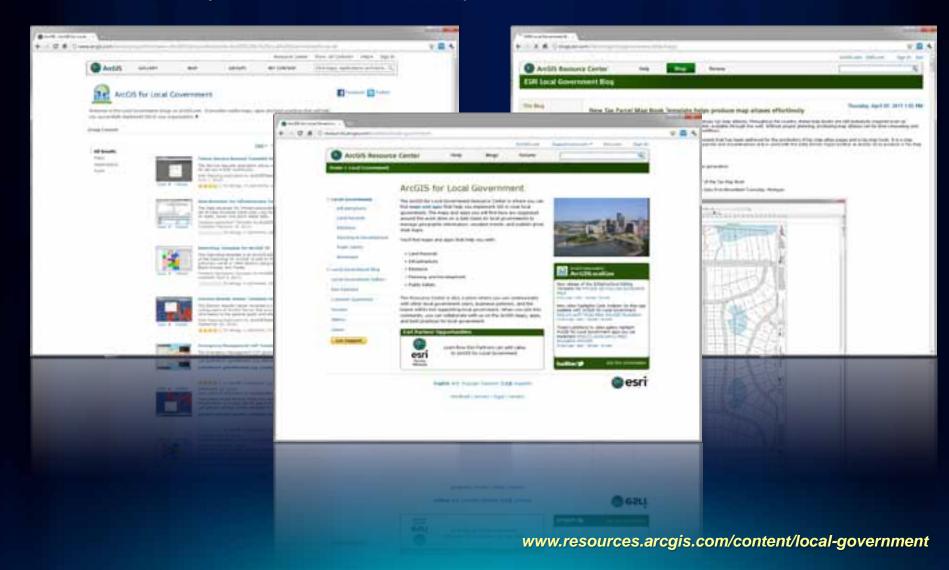

# **Evolving Land Records Requirements**

- Historically, land records information has been used internally by local governments
  - And under valued and under utilized by more public audiences
- But that is changing.....

## **Land Records Community**

An online community where Land Records users and partners can collaborate

#### ArcGIS 10

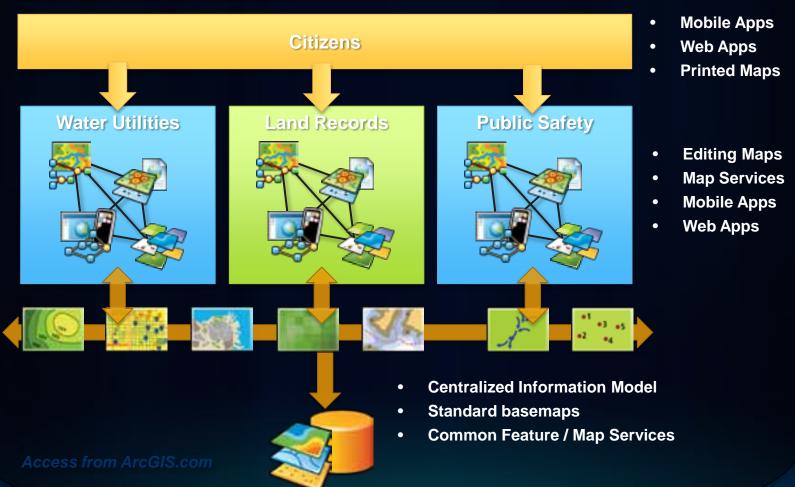

#### Foundation for Land Records Solution

- Parcel management tools in core
  - Fully supported and incrementally enhanced
- Optimized data model for parcel management
  - Streamlines parcel editing workflows
  - Improves data integrity
  - Allows you to improve positional accuracy over time
- Maps and Apps that extend core ArcGIS platform
- Service packages that help you implement solution

## **A System View**

Deploying ArcGIS for Local Government

Access from Maps and Apps website

### **Local Government Information Model**

- Supports maps and apps
  - Known local government requirements
  - Easy to adopt and extend
- Fully documented
  - Features, layers and packages
- Central repository, organized around thematic content and logical permission model
- Organized access/maintenance patterns
  - GDB replication, layers and services
- Safe FME support (coming this summer)

# **Implementing ArcGIS for Local Government**

Getting started is quite easy

**Identify business priorities** 

**Identify business requirements** 

Migrate data to information model

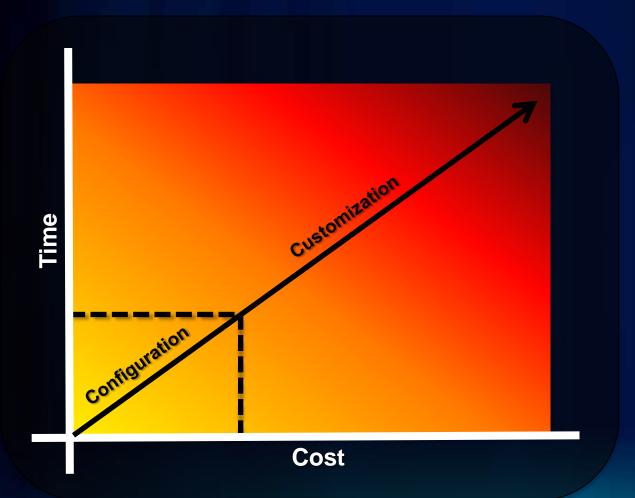

**Publish your Maps** 

Configure and deploy the apps

# **Configure vs. Customize**

Reduce cost, time and risk

#### **Benefits**

- Implement quickly
- Easy to add new features
- Simple to maintain
- Easy to extend

## What's Next

Additional maps and apps

- Public Works / Water Utilities
  - Stormwater Assessment
- Planning & Development
  - Address Maintenance
- Land Records
  - Operations Dashboard
  - Tax Parcel Viewer (v.2)
- Public Safety
  - Flood Response / Management

#### What's Next

Productizing the ArcGIS for Local Government system

- Quarterly release schedule
- Online Help documentation
- On-premise offering
  - Simple to install and configure
- Cloud offering
  - Synchronized w/ 10.1 Release
- Complimentary Partner offerings
  - ArcGIS for Local Government Partner Specialty

## **Summary**

- Our Goals
  - Deliver a "land records GIS" that enables your success
  - Evolve and grow the collection of apps
  - Provide a platform for partners to deploy their solutions
- We want your participation and involvement
  - Download the maps and apps
  - Provide feedback on existing content
  - Identify opportunities for new content

## Other Sessions @ UC

#### **Tuesday**

3:15 - 4:30 - ArcGIS for Land Records - Parcel Maintenance Solution
An introduction to the Esri's Parcel Maintenance solution at ArcGIS 10

#### Wednesday

- 8:30 9:45 ArcGIS for Land Records Implementation Examples

  An overview of the implementations by the Cities of Calgary and Denver
- 10:15 11:30 ArcGIS for Land Records Migrating Your Data

  An introduction to the Parcel Fabric data model and data migration strategies
- 1:30 2:45 ArcGIS for Land Records Configuring

  How to configure the ArcGIS for Local Government land records maps and apps
- 4:05 4:25 ArcGIS for Land Records Improving Data Quality

  An introduction to a set of ArcGIS Desktop Parcel Editor tools to improve parcel accuracy

#### <u>Friday</u>

9:00 - 10:15 - ArcGIS for Local Government – An Introduction (Second Offering)
An introduction to the ArcGIS for Local Government maps and apps
