

ArcGIS 3D Analyst – Sneak peek of 10.1

Like all software products, ArcGIS 3D Analyst is always looking to expand its capabilities. This session will provide an insight into the product direction for 3D Analyst in upcoming releases, with a focus on what's coming in 10.1.

The session includes:

- An overview of general 3D GIS trends in the near and long term
- The key enhancements and industries targeted in 10.1
- Demos of 10.1 functionality

All content is based on the 3D capabilities coming with ArcGIS 10.1.
