

## **Using ArcGIS for Military Planning and Operations**

### **Goals of the workshop**

- Discuss ArcGIS as an Enterprise system for Military Planning and Operations
- Explain the concept of basemaps and operational layers to build and communicate plans
- Demonstrate the use of ArcGIS to create sketches and overlays
- Describe sharing maps and status reports across the web and in mobile devices
- Explain how ArcGIS supports a common situation awareness
- Describe resources available at ArcGIS.com for military users
- Provide recommendations and best practices
- Describe what's coming in 10.1 for Defense and Intelligence

### **Major topics covered**

- How ArcGIS supports military users at all levels
- How ArcGIS supports a common situation awareness
- Demonstration of creating sketches and overlays for planning
- Demonstration of sharing maps with mobile devices and online
- Recommendations and resources
- Overview of what's coming in 10.1

### **Related Workshops**

- Wednesday, 8:30-9:45, room 26A: Introduction to ArcGIS for Defense and Intelligence
- Wednesday, 10:15-11:30, room 26A: Using ArcGIS for Intelligence Analysis
- Wednesday, 12:00-1:00, room 26A: Creating Basemaps for Defense and Intelligence
- Wednesday, 3:15-4:30, room 26A: Using Imagery for Intelligence Analysis
