WESTFIELD UNVEILS NEW COMMUNICATION TOOLS FOR NEW YEAR

Westfield, N- One local municipality IsIfYlng to make 11 easier for residents and businesses to stay informed in the coming year.

The city of Westfield is unveiling three new interactive maps designed to help residents track snow plowing, road projects and economic development.

This winter, residents can tog onto Westfield's home page (www.westfieldin.gov) and track snow andice removal during winter weather events Via aninteractive map.

our interactive maps are one of the most powerful tools at our disposal to deliver information; said Public Works Director Ken Alexander. "By creating processes within our snow removal team, we have effectively aeated reaHime information to share witn our residents."

Residents can also stay up-to-date on road projects year-round by clicking on the Road Projects" tab ound on Westfield's homepage. Theinteradive map provides r e a tlme updates on infrastructure projects that w11 affect residents, such as road closures.bne restrictions and roundabout construction. The map also includes projected start and end dates for projects so residents can make accommodabOns in their travel routes.

Westfield's economic development team is a so p ohing in.

we are always looking for ways to provide better information to support and encourage Westfield's robust economte development environment," Economic anc! Community Development Director Matt Skelton said.

Development projects can be found., the 'What's happening here?' tab found on the department's home page. The interactive map allows residents and businesses to view developer requests, proposed sites, acreage information and contact information for p4anners assjgned to the project.

•rhe development world does not dock in at 8 a.m. and out at 5 p.m. It just makes sense to have the City's mformation gateway available whene\ler the community needs : Skelton said.

- September T11ompsoo So when will zones be completed? We are zone 3, but as of 2:00 haven t been done. Buses are about to come through for drop offs•..

t

Brian Koning Setters Run is NOT satisfactory. Doesn't even look like they put the blades down. I think crews were so late that the snow got packed down to a 2" layer of ice. How about a little salt?

Sarah Martin Gunther BlVD was horrible today and there is nothing on this map no color 1sthat nnt a oty road?

Nici Kobrowski I nave a question. When I look at the snow removal mapt it shows that Futch V/a'i 15 plo Jed. :t is, kind of. i "lould really IHe to see the cul-de-5ac given the same cut glass fitlish as the rest of the road instead of one plow do,.;n to the side of n y driveway. J realiie cul-de-sac are the last to be plowed but whef' the rest of the road is done, you would thin the cul-de-sac could be gi\·en the same sef\1ce.

Snow should h leavm9 th.. area within th=>next *tew* hours . Currently about 3 1nchH s on tl1e ground. A full push will qm around 9am to addreu al subd1111s1on5, The snow map will be utJhzl!d todiy. It can be found on the home page of our webs te (www.'2stfr£ld.1ngov). Keep In mind the p1tsh st:drts at 9, and lfle map *may* not show any progress for an hour or so after that. T nks for your pati''llCE' and dnve safely!
