Opioid overdose deaths surge in 2015

33,000

A PRESCRIPTION FOR ACTION

Local Leadership in Ending the Opioid Crisis

Town hall on the Opioid Epidemic: Leading in a Crisis

The national opioid epidemic has had a long reach, yet the discussion was limited to the media and government officials. So the Seattle King County Alliance for Public Information launched a town hall to discuss how to address the crisis.

NATIONAL ASSOCIATION OF COUNTIES

GIS Integrates Everything

Connecting People, Processes, Things and Data About Them

- Improving Efficiency,
- Collaboration, and
- Communication

System of Engagement

System of Insight

System of Record

Supports Multiple Types of Systems

Helping Organizations Understand . . .
And Be Aware, Alert, and Responsive
Data Sharing and Security Strategy

Public Safety

Executive Offices

Health & Human Services
First Responders and Support Staff
- Enters Naloxone Administrations, Overdoses

Drug Drop-off Staff
- Records and disposes

Human Services
- Analyze Service Availability, and Drop-off

Public H&HS Staff
- Shares Treatment Options

Emergency Room & Medical Examiner
- Enters Toxicology & Deaths

Police Mgmt
- Understands Trends, assigns Patrol and Investigative Resources

Crime Analyst/Admin Staff
- Analyzes Overdoses, Naloxone Admins, Drug Activity

Task Force
- Interprets recent KPI’s
- Informs Elected Officials and Stakeholders of mitigation strategies
- Advocates Grants and Resourcing

Elected Officials & Stakeholders
- Improves Education
- Promotes Treatment
- Ensures Effective Response
- Implements Prevention Strategies

Public Stakeholders
- Advocates Treatment based on Local Understanding
- Partners with Public Safety to report Drug Activity
- Open data reports to State

Health Official
- Analyze and Mitigate Risk, and Promote Treatment

Task Force
- Interprets recent KPI’s
- Informs Elected Officials and Stakeholders of mitigation strategies
- Advocates Grants and Resourcing
Many Local Governments Are Already Doing This

Expanding Their GIS to Support Everyone
Common Objectives in Approaching the Opioid Epidemic

Improving Education
- Educate the Community about the problem with interactive Story Maps

Accessible Treatment
- Web mapping apps for promoting treatment Options

Effective Response
- Track Naloxone Deployments
- Citizen Reporting of Drug Tips

Successful Prevention
- Apps to collect and measure Drug Drop-Box activity
- Apps to Monitor and Coordinate the Strategy

Partners and Stakeholders
- First Responders
- Executives
- Public Health Professionals
- Analysts
- Citizens
Solutions to jumpstart your deployment
http://solutions.arcgis.com/local-government/health/opioid/

Tackle Opioid Epidemic
A collection of maps and apps used by public health and safety agencies to communicate the severity of the opioid epidemic, promote treatment alternatives, and understand the effectiveness of response activities.

Educate the Community
Opioid Awareness Maps can be used by public health and safety staff to produce overdose and death maps that communicate the severity of the opioid epidemic.

Track Naloxone Deployments
Naloxone Deployment Reporters can be used by public safety staff to identify where naloxone was used to treat an opioid overdose during an emergency incident.

Get Started
Learn how to leverage your geographic information and the ArcGIS Platform to improve government activities and enhance services delivered to the general public.

Online Mapping Platform
Our ArcGIS Online model implementation will help you organize your geographic information and promote collaboration in your organization.
