New Era Supply Chain Visibility and Tracking

Presented by:
Kevin Bolger, Antonio Cotroneo, and John Hendrickson
TRADITIONAL SUPPLY CHAIN

• Functional information and processes managed in silos
• Lack of visibility in downstream functions to incidents and failures, “ripple effect”
• Results in firefighting and ill-informed decision making
• High operational costs and low service level performance
TODAY’S SUPPLY CHAIN

Complex Network
Digital and Physical
Operates Global and Local
Highly Regulated
KNOW WHAT MATTERS

• Turn On Digital Global Operating Picture
