Exploring New Functionality in the ArcGIS Enterprise portal

Marley Geddes & Katy Nesbitt
Outline

• Overview of ArcGIS Enterprise
• What’s new in Enterprise portal
  - Content management
  - Mapping and visualization
  - Customizing the portal
  - Sharing content
• Questions
ArcGIS Enterprise is a full-featured mapping, analytics and data management platform that runs on infrastructure you control, enabling you to visualize, interpret, and act upon your location-based data.
Components of ArcGIS Enterprise

What’s new in the ArcGIS Enterprise Portal

- Content Management
- Mapping and Visualization
- Website Look & Feel

Sharing content
- Distributed Collaboration
- ArcGIS Enterprise Sites
What is Distributed Collaboration?

- A way to establish a trusted, collaborative environment with others to share data quickly, easily and repeatedly
- Uses the existing, familiar group sharing model to send content
- Can be established between ArcGIS Enterprise portals and with ArcGIS Online
- Make your data discoverable across systems
What’s New in Distributed Collaboration?

- Collaboration with ArcGIS Online
- Sharing apps built off of Web AppBuilder or from configurable app templates
- Automatic and ‘on-demand’ synchronization
Common use cases

“I have multiple Enterprise deployments and I want each of them to contribute their data to a central portal.”

“I want to manage my data in a central portal and share the authoritative source with other deployments.”

“I want to maintain my data in ArcGIS Enterprise and share it to ArcGIS Online for visibility and scalability with the public.”
Distributed Collaboration with ArcGIS Enterprise

- Date, time: Thurs 12th, 11:15-12:00pm
- Location: SDCC Demo Theater 05 (Here!)
Other sessions

- **ArcGIS Enterprise: Living Atlas**
  - Date, time: Tues 10\(^{th}\), 1:15-2:00pm
  - Location: SDCC Demo Theater 05 (Here!)

- **ArcGIS Enterprise Security: Threat Mitigation and Prevention**
  - Date, time: Tues 10\(^{th}\), 1:00-2:00pm (Hurry!)
  - Location: SDCC Room 16 B

- **ArcGIS Enterprise: An Introduction to Administration**
  - Date, time: Tues 10, 2:30 - 3:30pm
  - Location: SDCC Room 05 B

- **ArcGIS Enterprise: Advanced Topics in Administration**
  - Date, time: Wed 11, 2:30 – 3:30pm
  - Location: SDCC Room 17 A
Other sessions

- **ArcGIS Enterprise Security: Securing Content**
  - Date, time: Thurs 12th, 8:30-9:30am
  - Location: SDCC room 17 A

- **ArcGIS Enterprise: High Availability and Disaster Recovery**
  - Date, time: Thurs 12th, 8:30-9:30am
  - SDCC – Room 17 A

- **Distributed Collaboration with ArcGIS Enterprise**
  - Date, time: Thurs 12th, 11:15-12:00pm
  - Location: SDCC Demo Theater 05

- **What’s New in ArcGIS Enterprise**
  - Date, time: Thurs 12th, 1:00-2:00pm
  - Location: SDCC Room 33 A/B
Questions?
Please Take Our Survey on the App

1. Download the Esri Events app and find your event.
2. Select the session you attended.
3. Select the Feedback tab.
4. Complete answers and select “Submit”.
