Benefits

- Baseline data available and agreed to
- Identification of gaps
- Recognition of data users and formats
- Detection of data sources and partners
- Relationships formed and strengthened

Challenges

- Data availability
- Discrepancies to overcome
- Data sharing
- Cost: financial, time, resources
- Prioritization of preparedness activities

Key Messages

- Preparedness activities identify challenges and permit the time to overcome them
- Collaboration among stakeholders permits data standards to develop and improves data
- Creative solutions lead to data, tools, processes, and relationships that become invaluable other phases of disaster management.
