

Reading Building Information Modeling (BIM) Data into ArcGIS

July 13, 2014

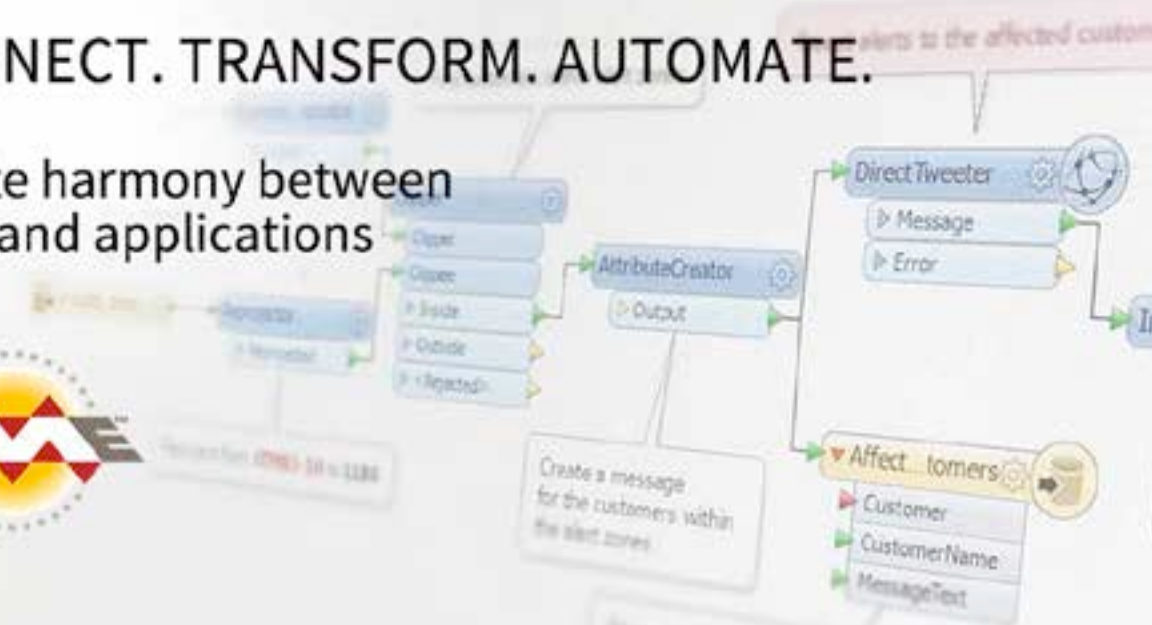

SAFE SOFTWARE

What we do

CONNECT. TRANSFORM. AUTOMATE.

Create harmony between
data and applications

Data Interoperability Extension

Why we do what we do

- § Data should be free to use wherever, whenever and however it's needed.
- § Information shouldn't be chained up inside systems, applications, or formats.
- § Time is better spent making decisions than fighting with data.

20 years of FME formats

An explosion of formats!

Always more  Always faster.

1

Why extract info from BIM?

Visualization

2

Why extract info from BIM?

Routing

3

Why extract info from BIM?

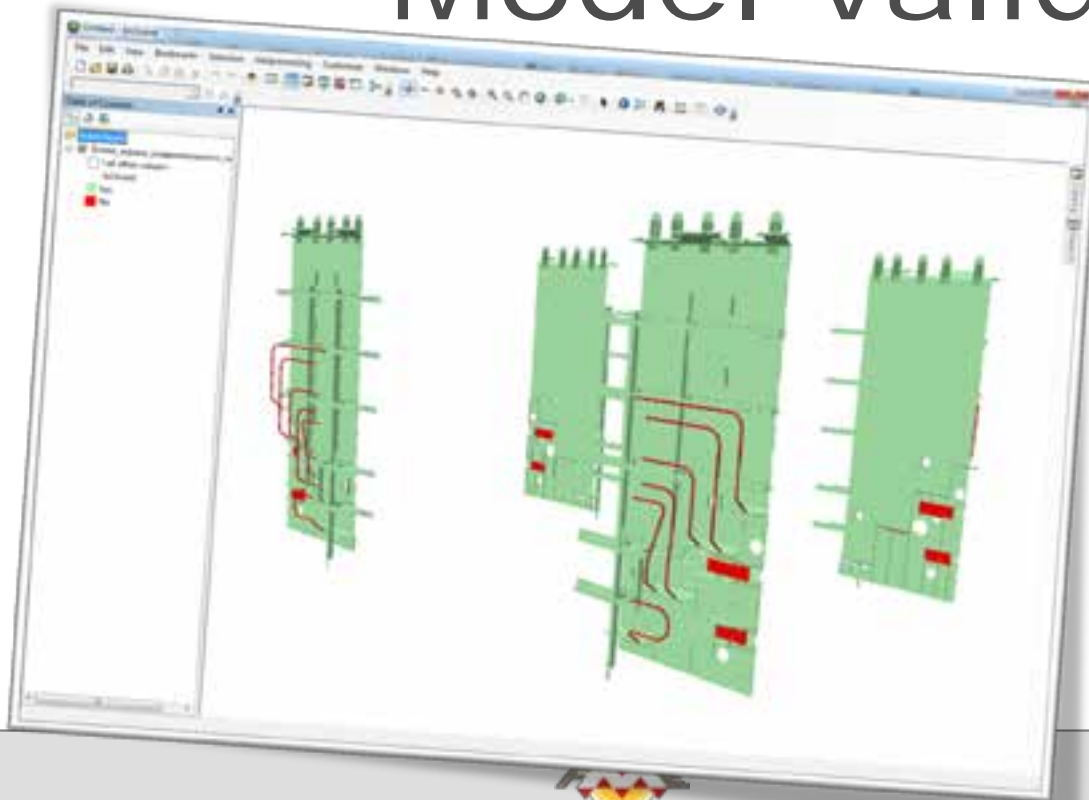

Manage spaces

4

Why extract info from BIM?

Model validation

HOK Scenarios

- § Model checking
- § Hierarchical DWG export
- § Intelligent PDF export
- § Enterprise wide sharing

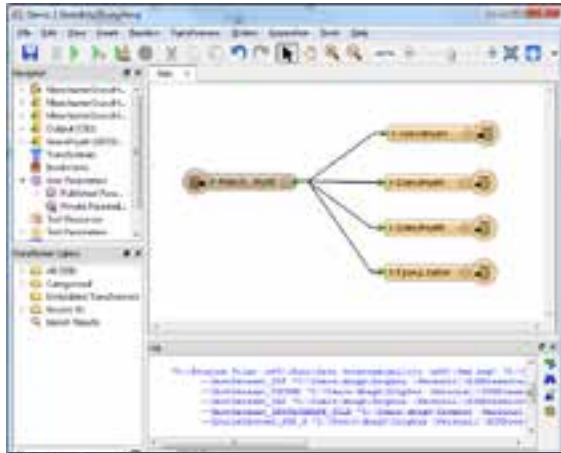

Greg Schleusner
Director of BuildingSMART
Innovation

Christopher Zoog
BuildingSMART team member

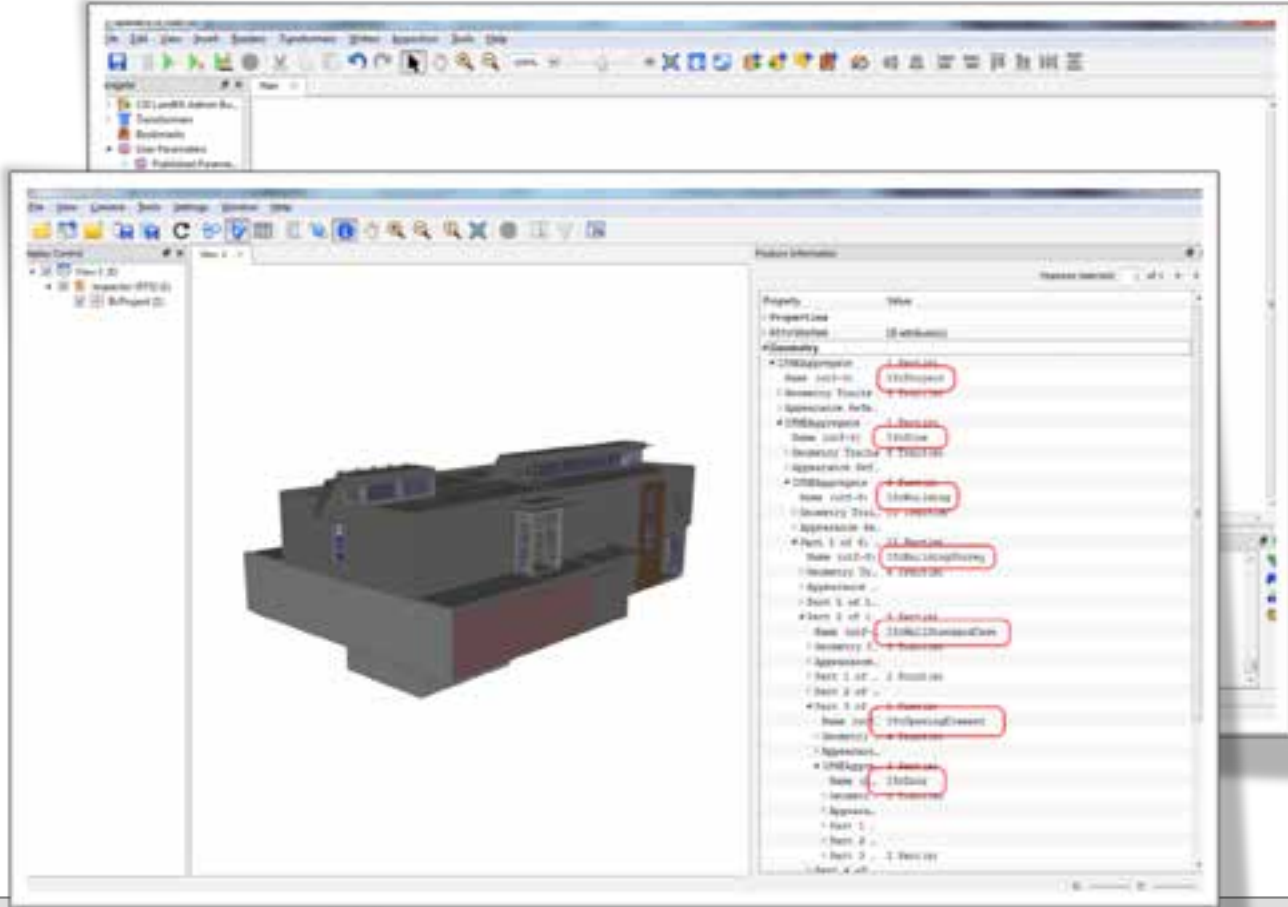

Demo 1: Sketchup to everything

Two reader modes for BIM formats

- With FME 2014
 - § Hierarchical model
 - § GQuery

Demo 2: Texture Update

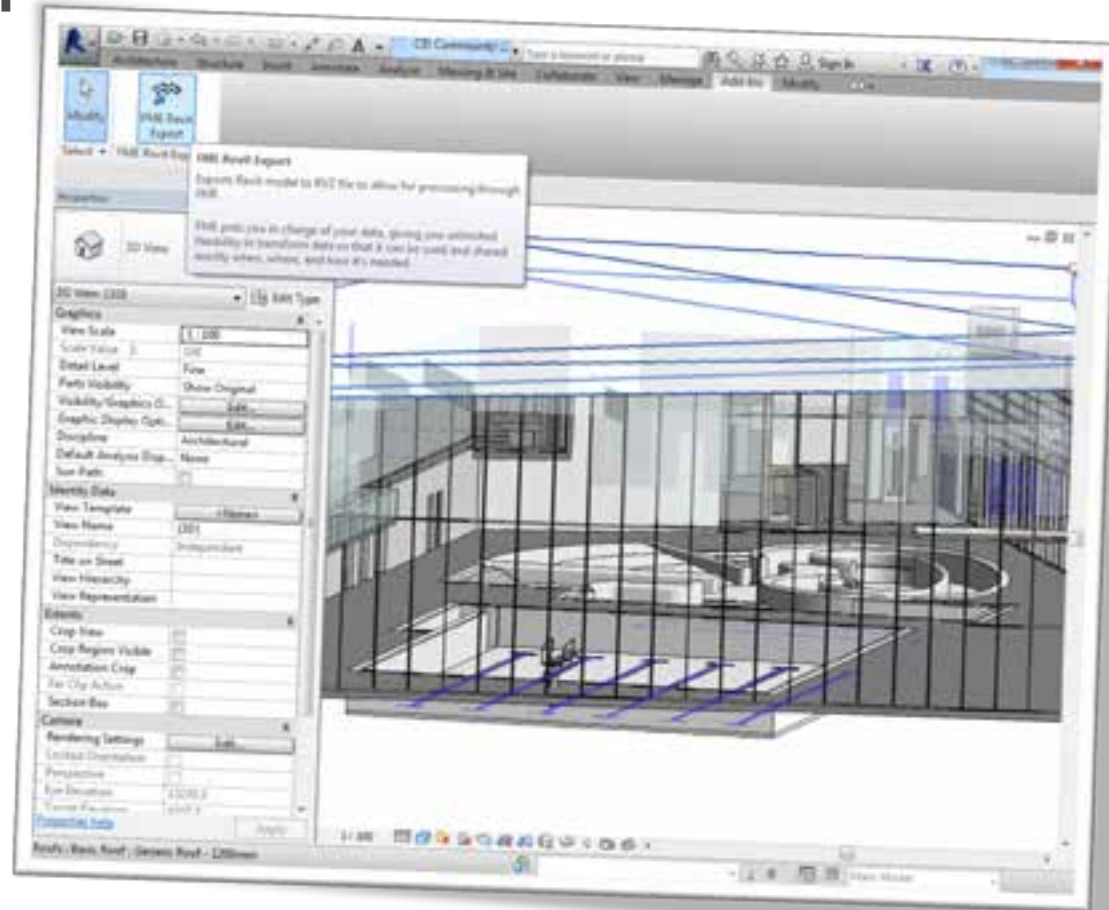

Revit Exporter

§ Comes with
FME 2014 or higher
(64-bit)

OR

§ Standalone version:
www.safe.com/revit

Demo 3:

Revit Spaces to Geodatabase

Demo 5:

Revit floorplans directly into ArcGIS and PDF

What's next?

- § IFC Reading Improvements
- § IFC Writing
- § Minecraft Writing
