

DEVELOPER SUMMIT

March 10–13

Jazz up your iOS Apps

Gagandeep Singh

WELCOME

Overview

Make your apps more **Attractive, Lively and Stylish**

Jazz up the Navigation

Jazz up the UI

Jazz up the UX

Jazz up the Navigation

Jazz up the Navigation

Tab Bar

Side Bar

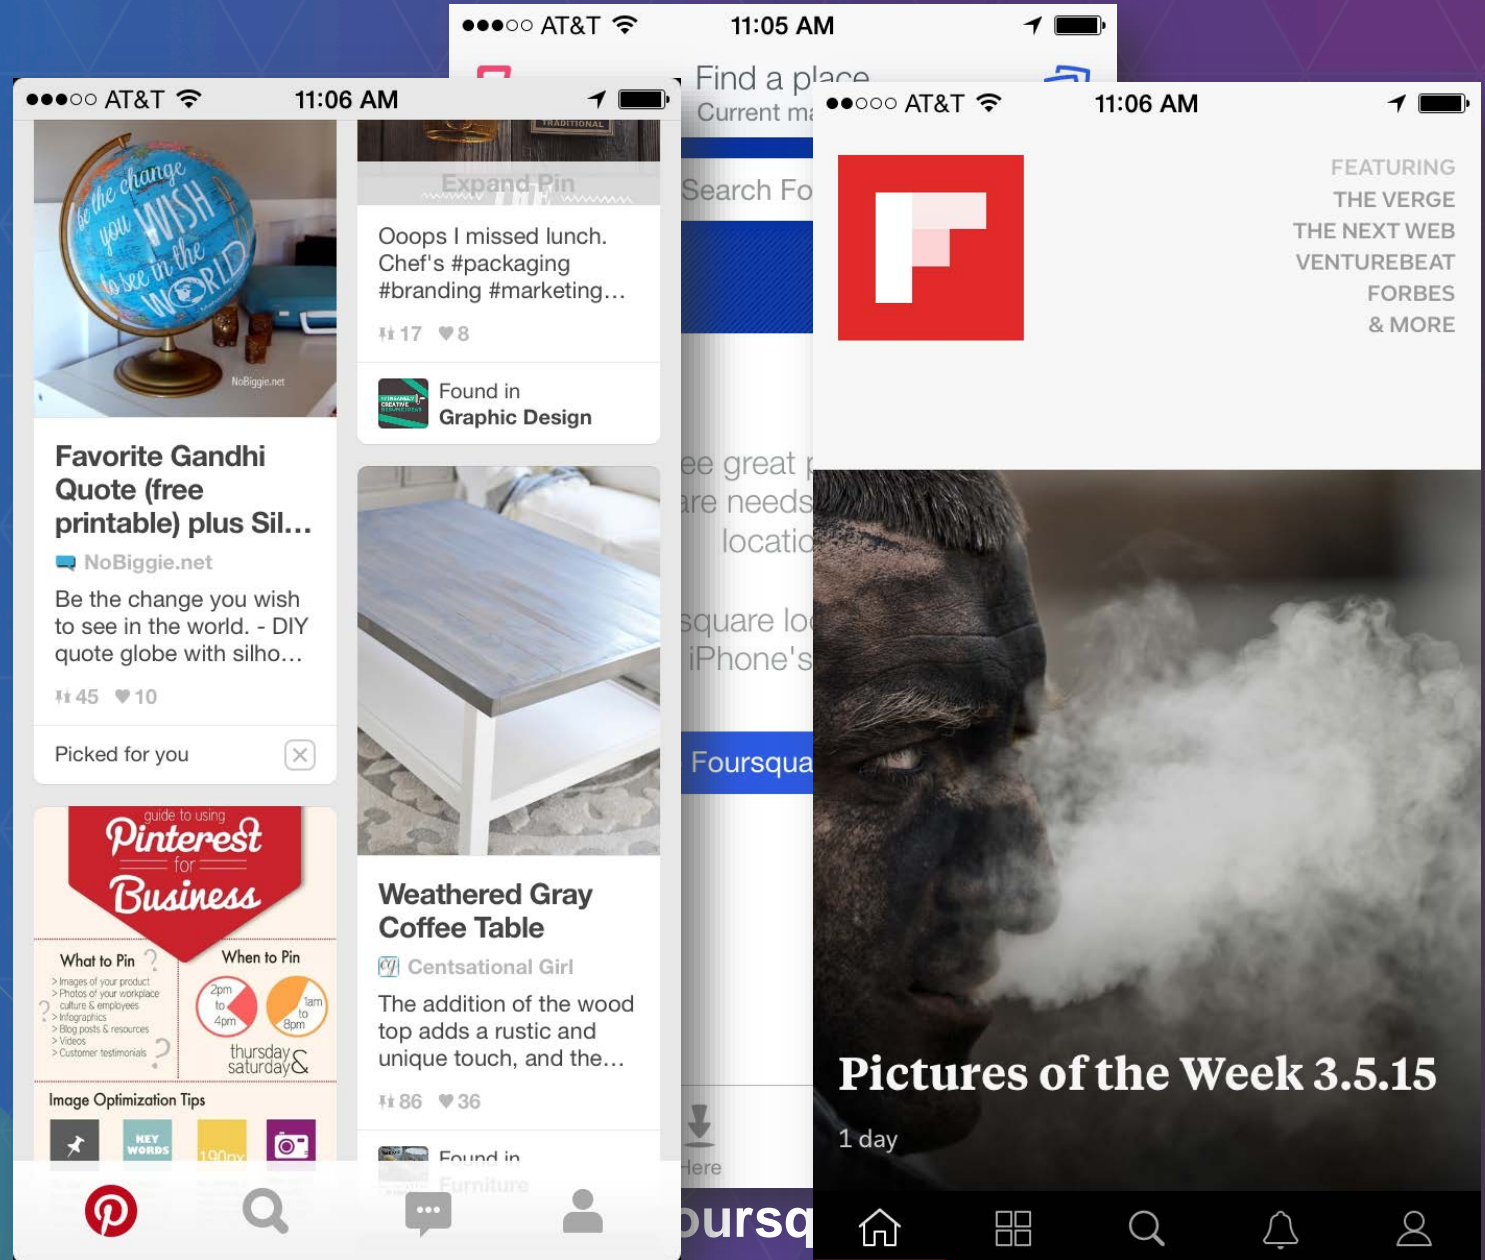

Horizontal Scroll

Jazz up the Navigation Tab Bar

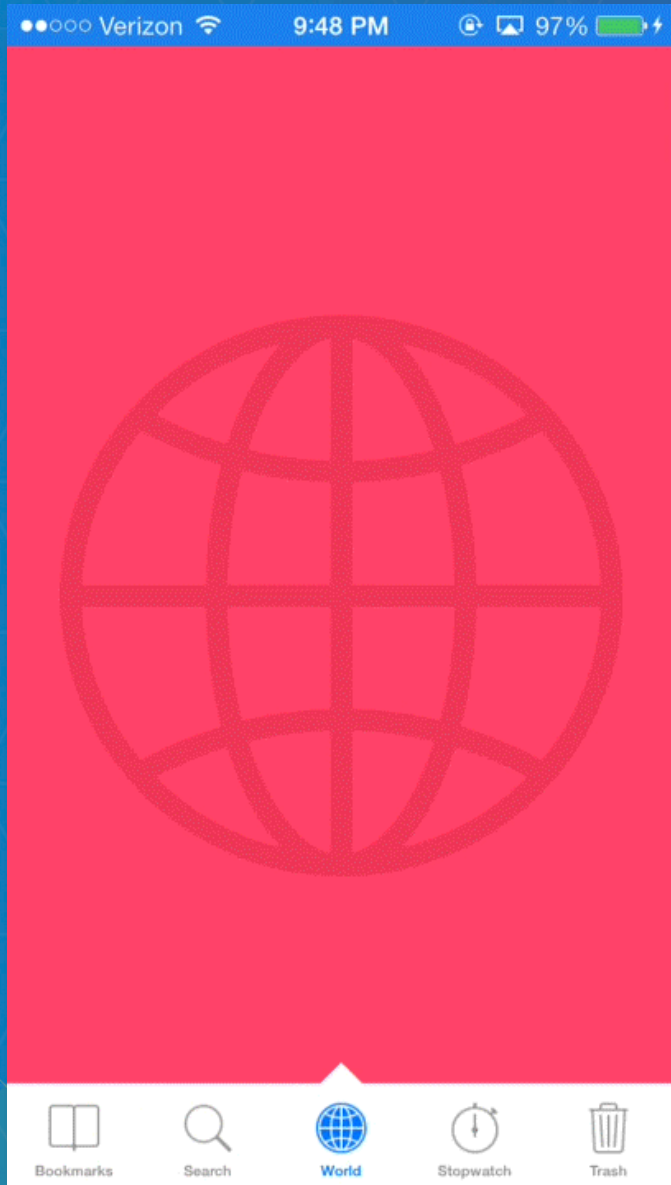

- Most commonly used
- Provides a more focused experience
- Visible all the time
- Easy to Access

- Example Apps :
Foursquare, Pinterest, Flipboard

Pinterest

Flipboard

M13InfiniteTabBar

RAMAnimatedTabBarController

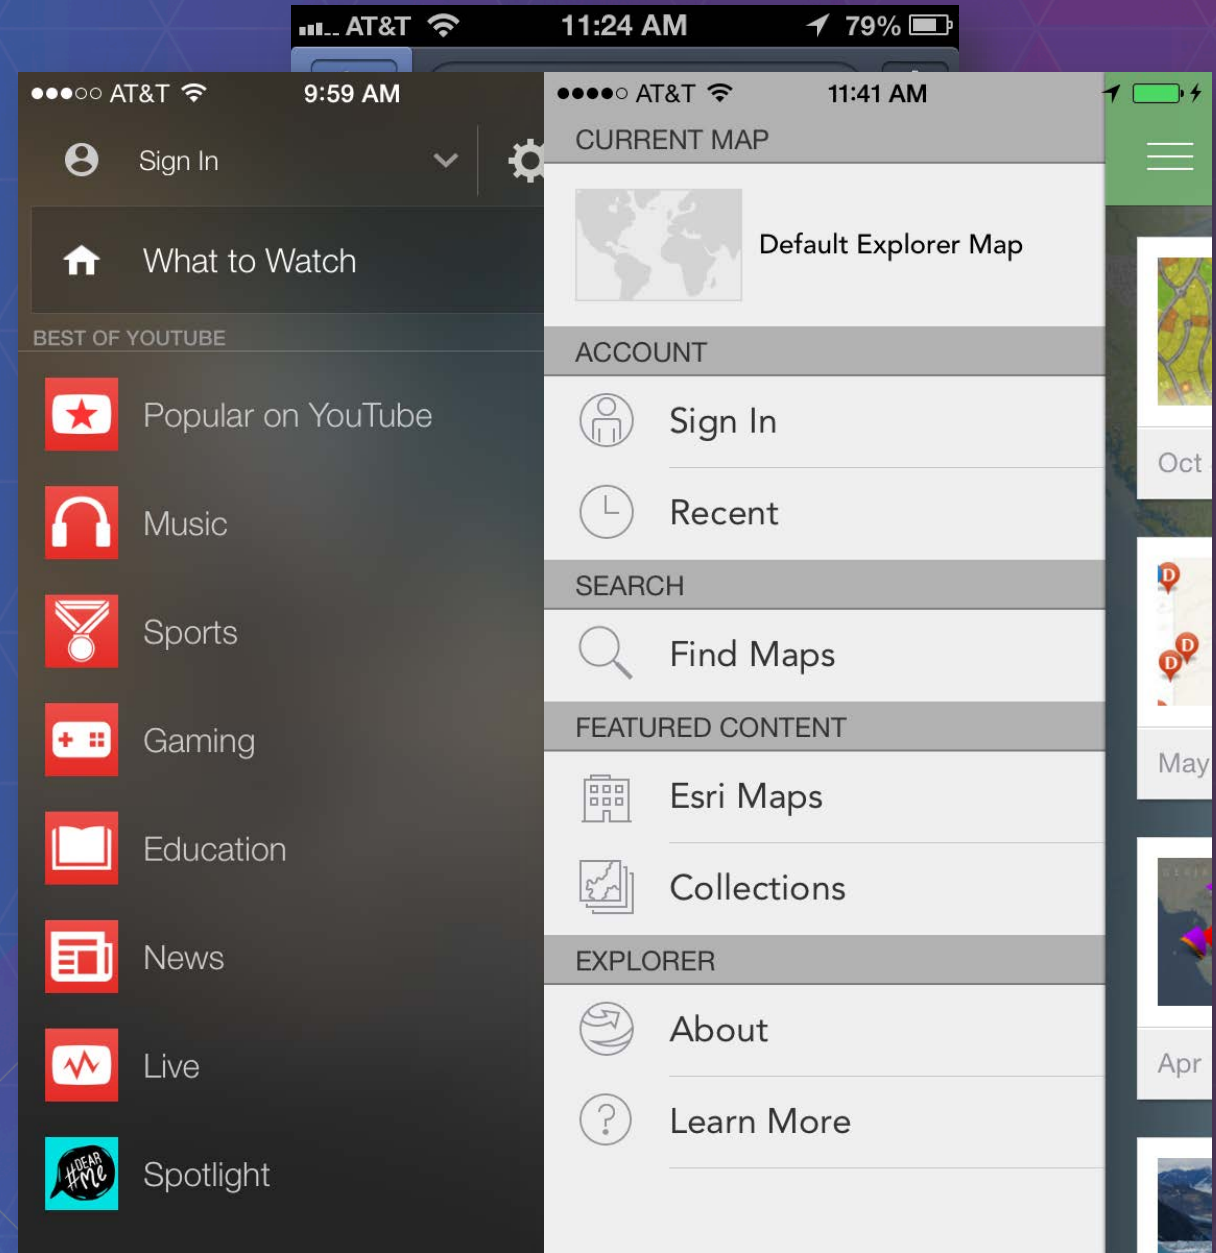

AdaptiveTabBar

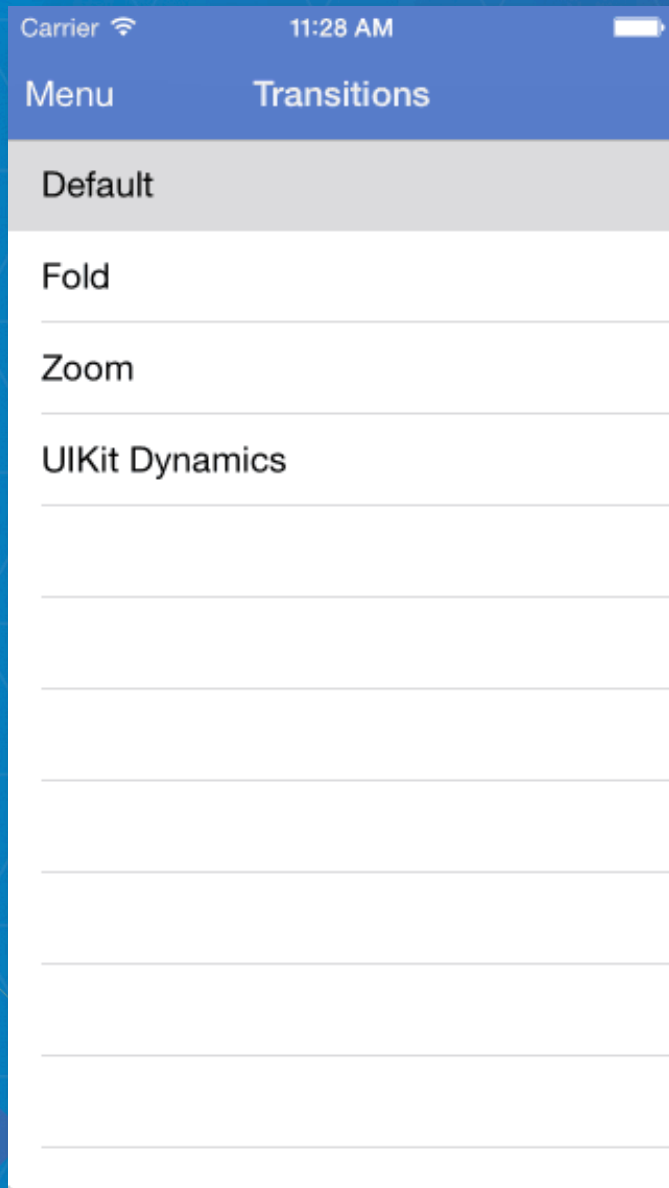

Jazz up the Navigation Side Bar

- aka Burger Menu, Side Menus, Slide Out Menus
- First seen in the Facebook App
- More real estate
- A menu that can grow
- Example Apps:
Facebook, YouTube, Explorer for ArcGIS

YouTube

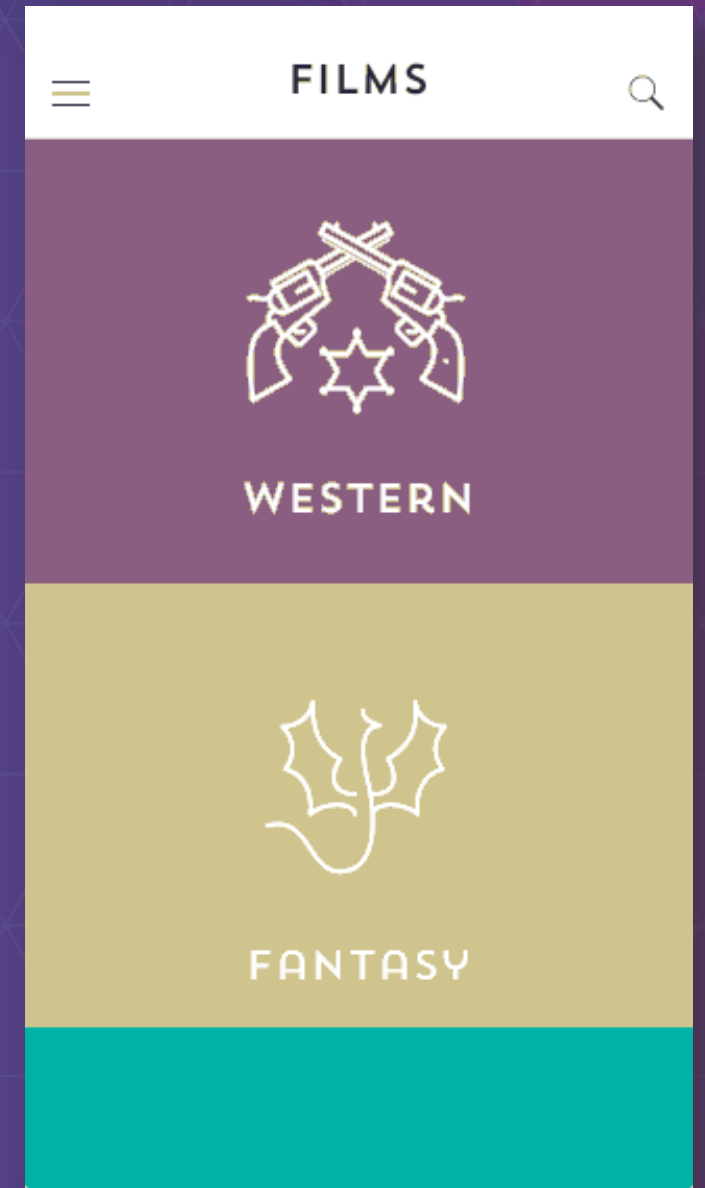

Explorer

[EC SlidingViewController](#)

[RE SideMenu](#)

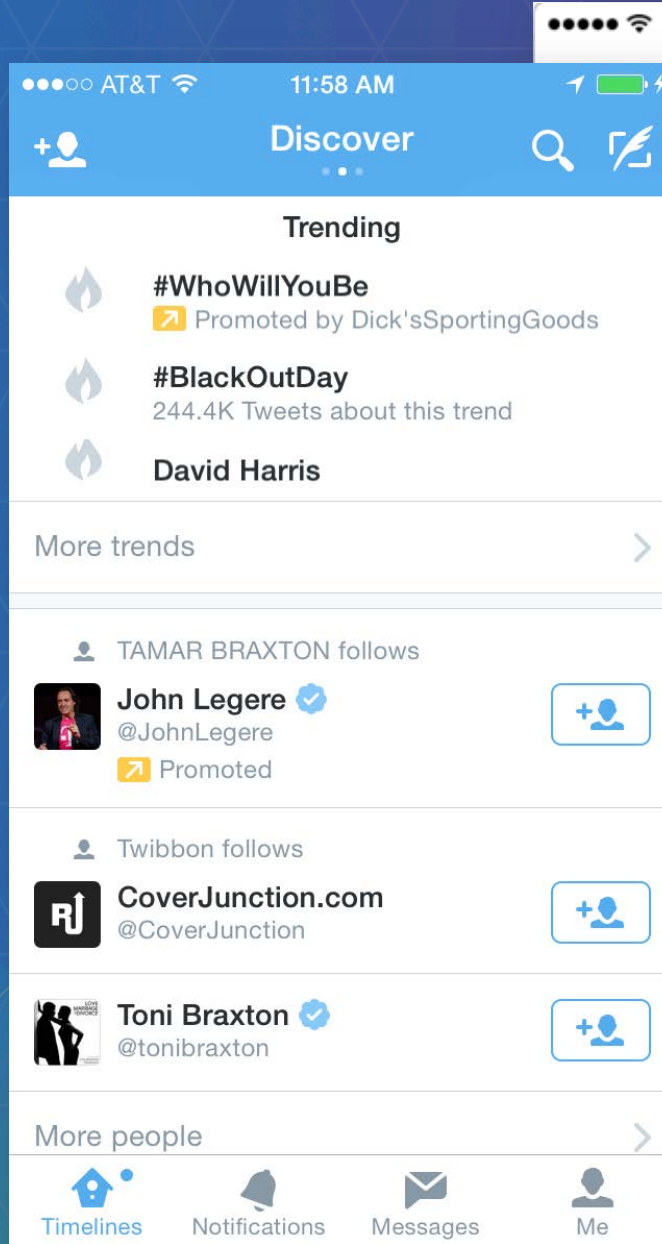

[Side-Menu.iOS](#)

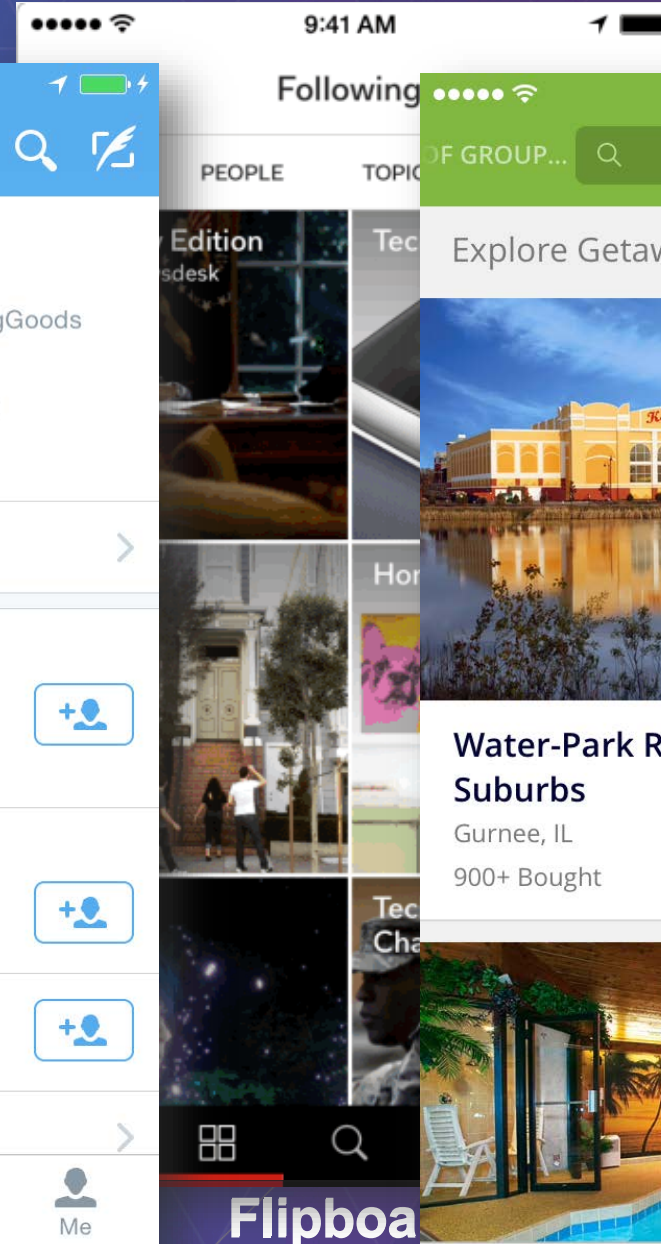

Jazz up the Navigation Horizontal Scroll

- Intuitive
- Different ways to interact
- Different versions

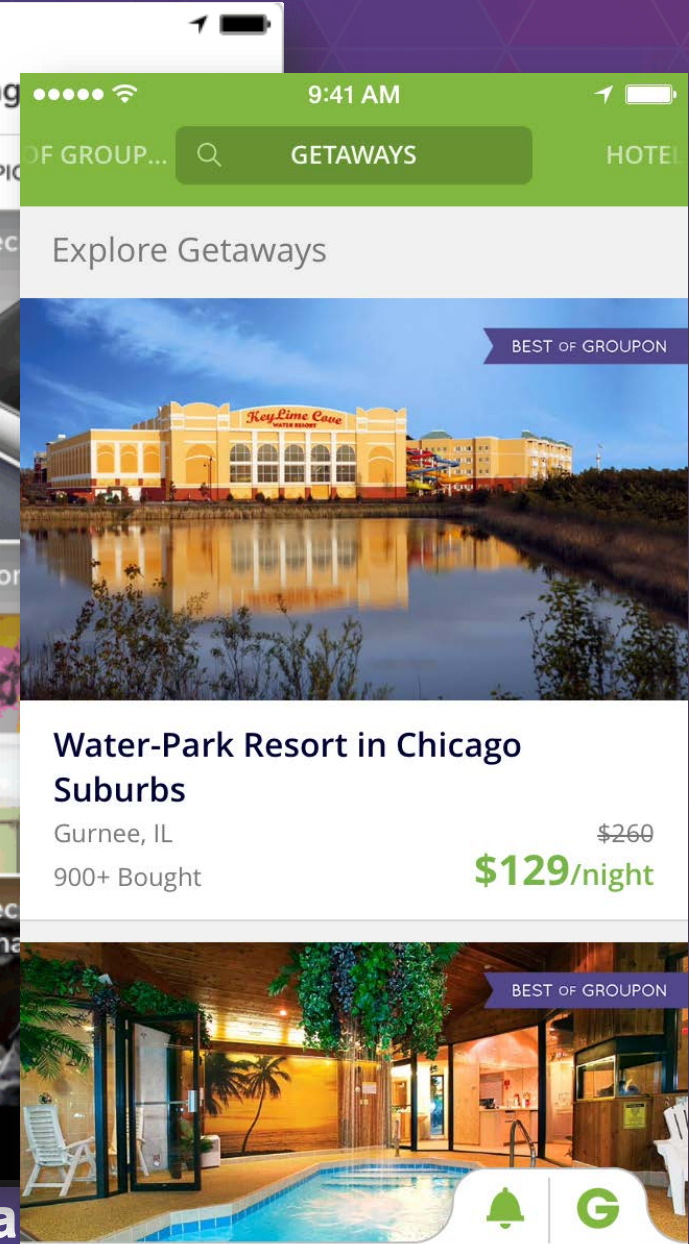

- Example Apps:
Groupon, Flipboard, Twitter

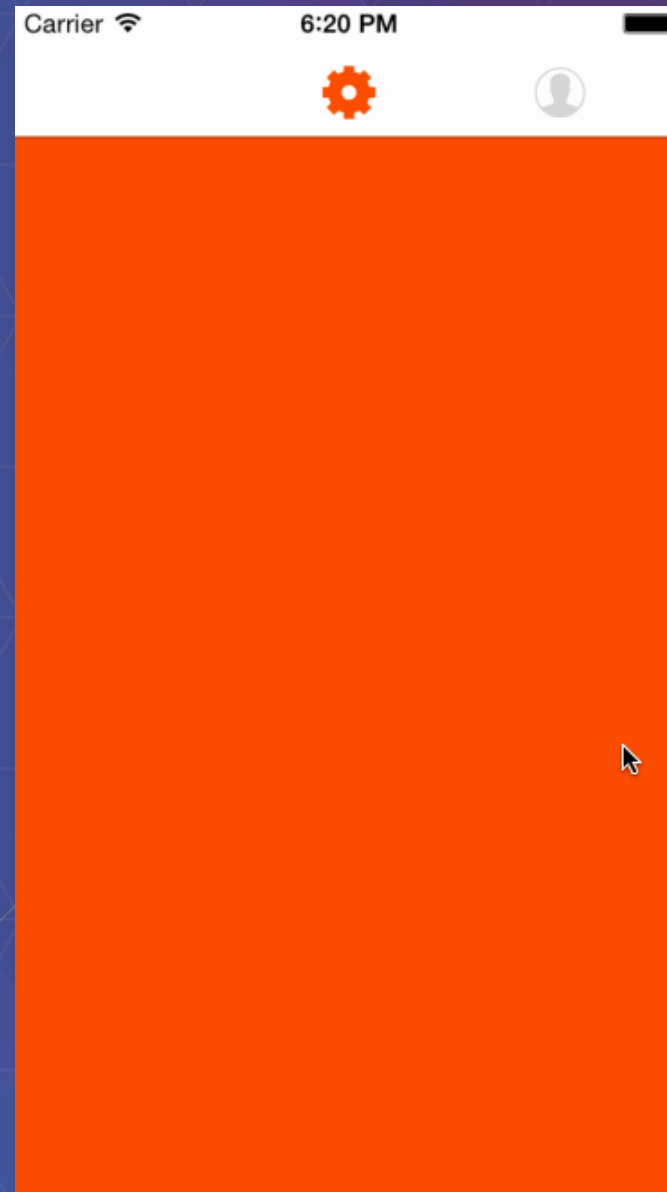

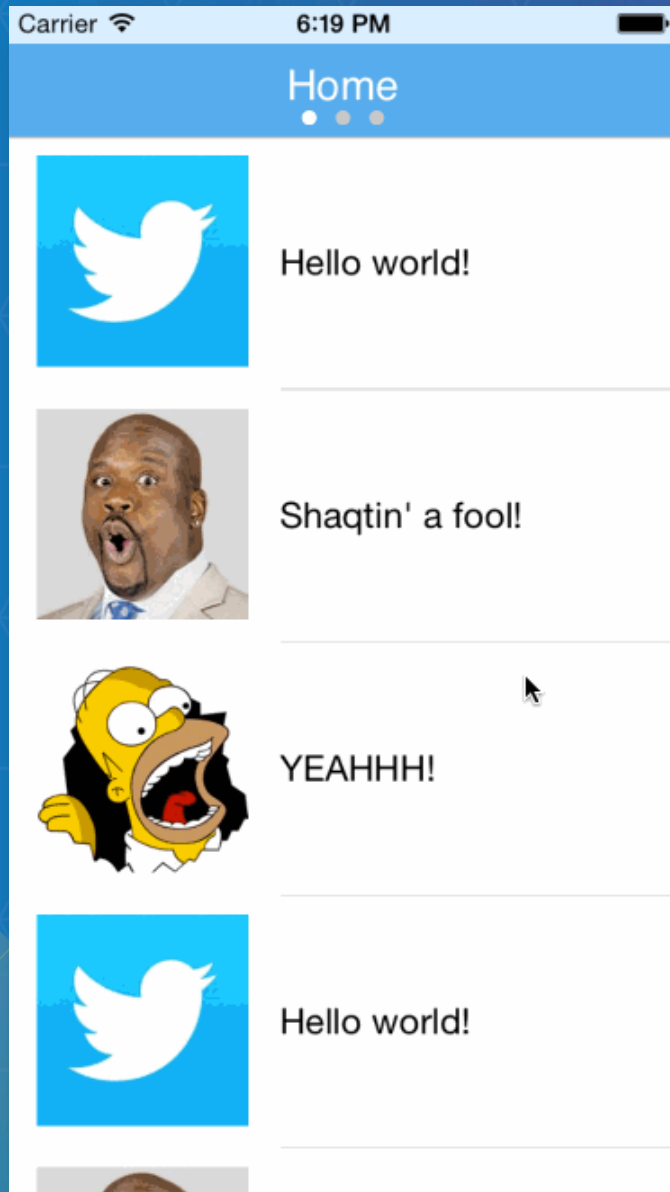

Twitter

Flipboard

Groupon

SLPagingView

Jazz up the UI

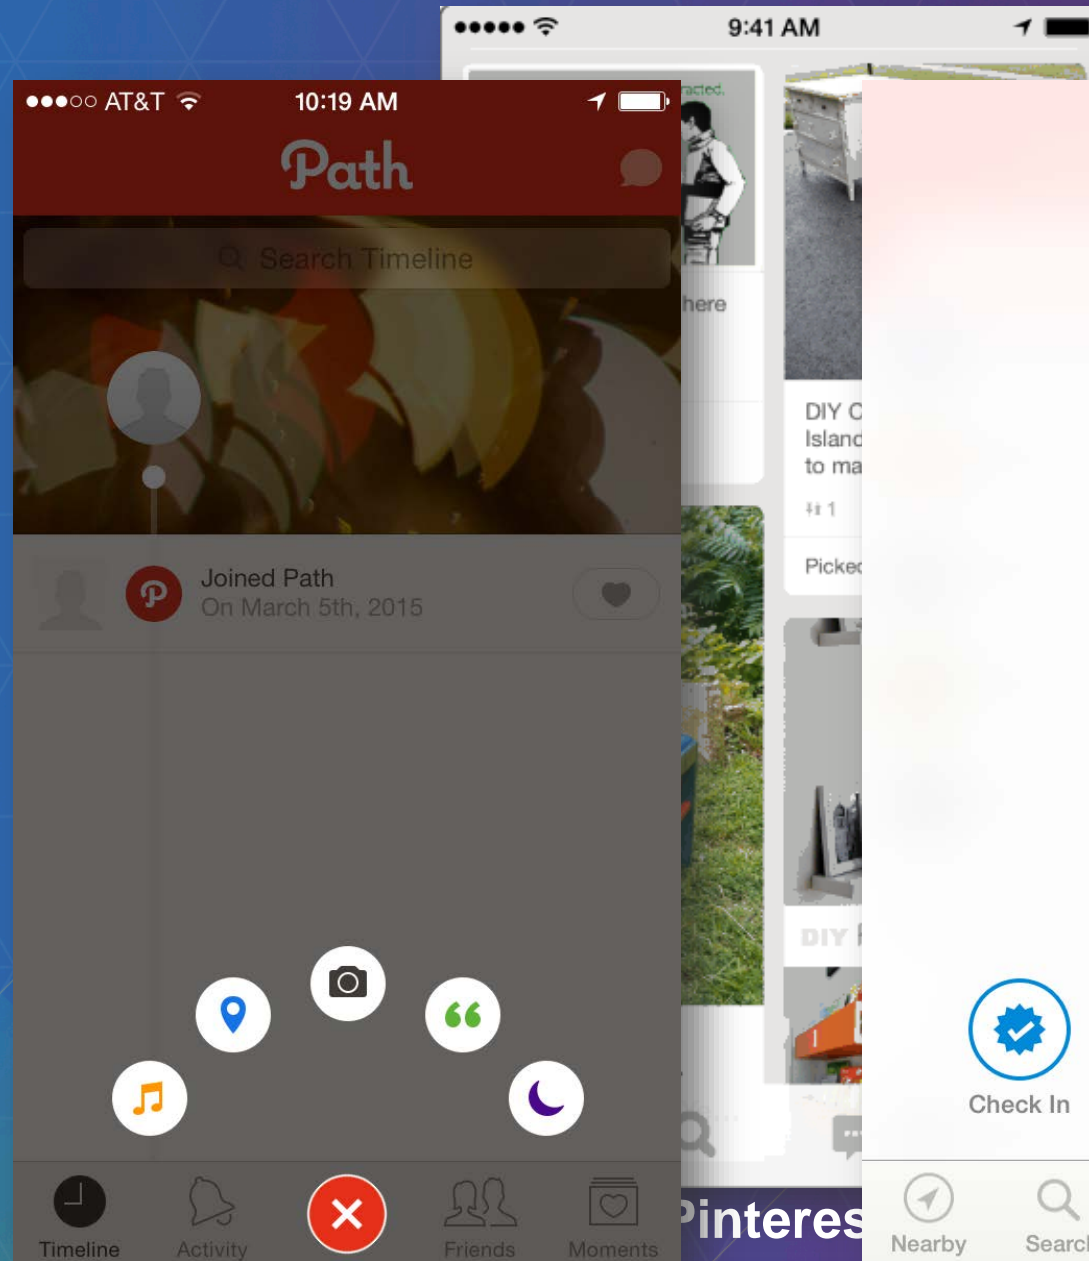

Jazz up the UI

Context Menu

- Expandable Menu
- Cool Animations

- Example Apps:

Pinterest, Path, Yelp

Path

Yelp

GHContextMenu

VLDContextSheet

Jazz up the UI

Drop Down Menu

- Use instead of UIPickerView
- Nice Animations

UIPickerView

IGLDropDownMenu

Jazz up the UI

Custom TextField

- Save on Labels
- More real estate
- Less Auto Layout Constraints

Username

Password

Login

JVFloatLabeledTextField

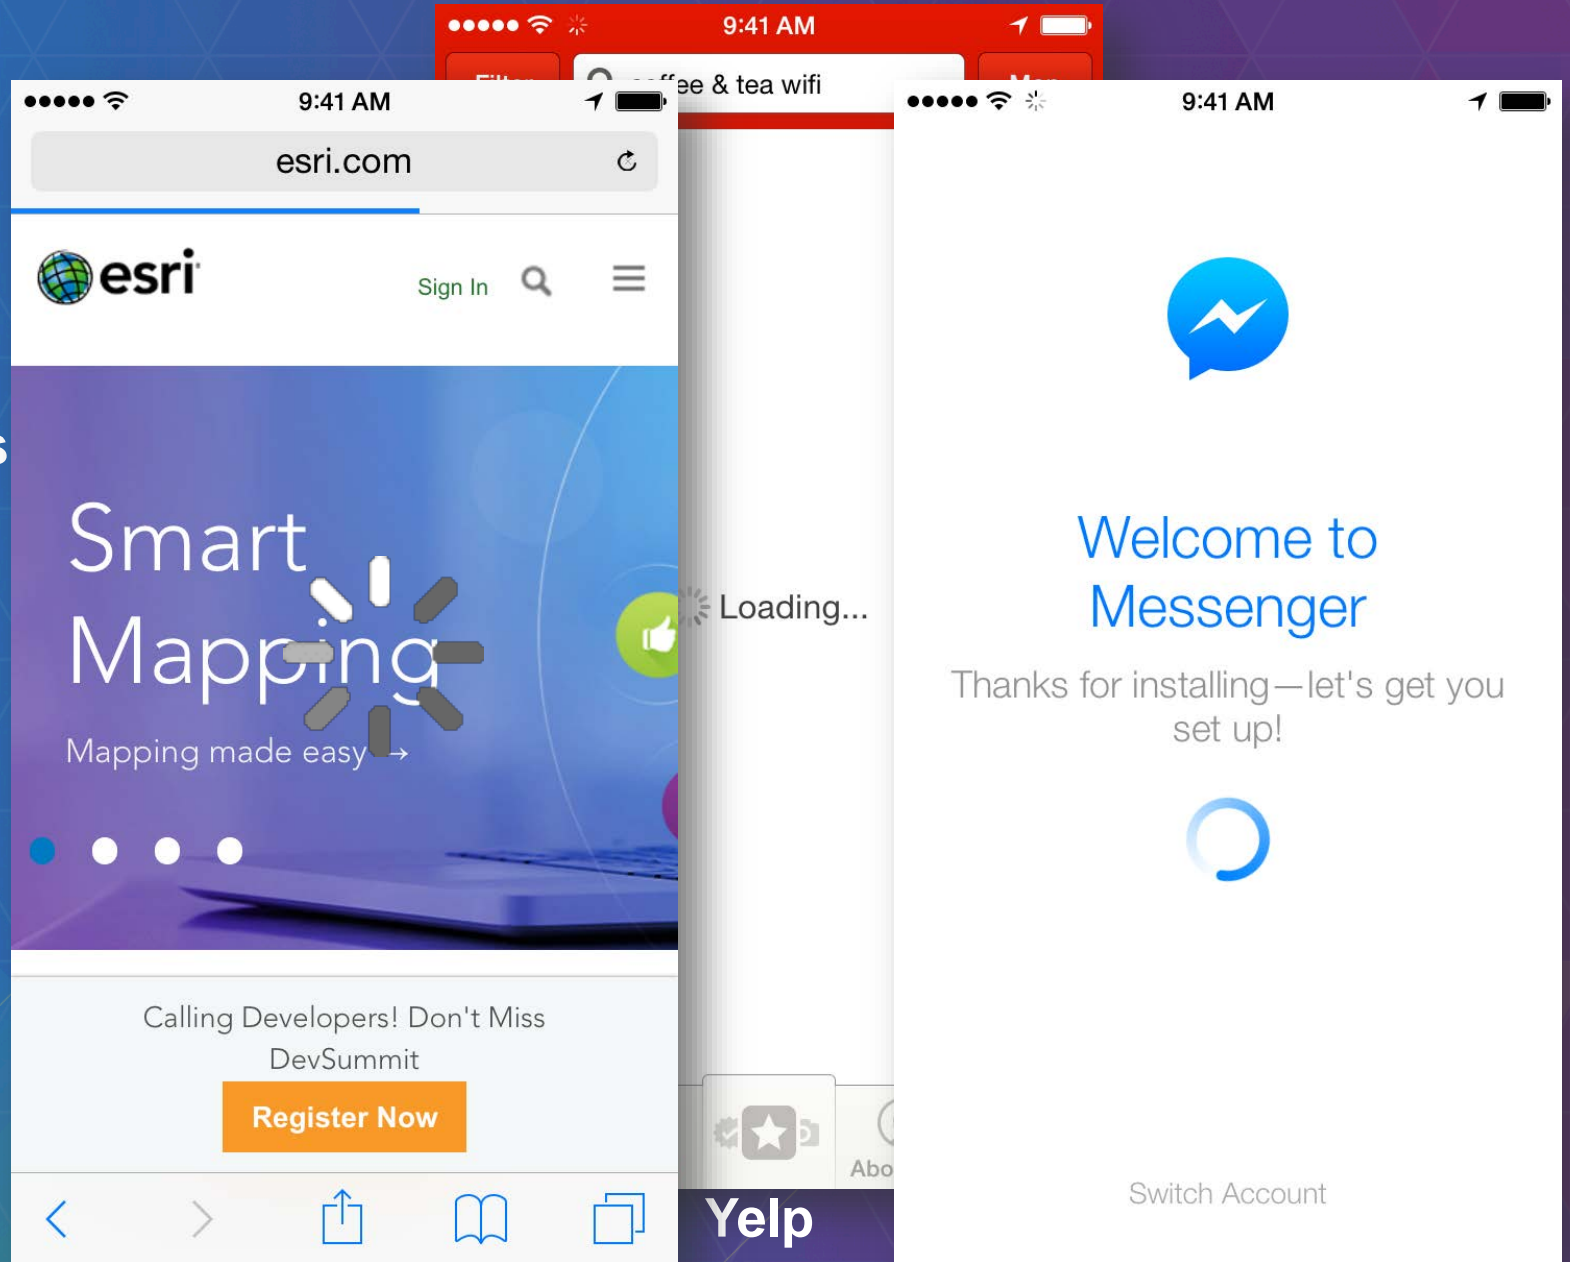

Jazz up the UX

Jazz up the UX

Activity Indicators

- Providing Feedback
- Background operations status
- Percentage completions

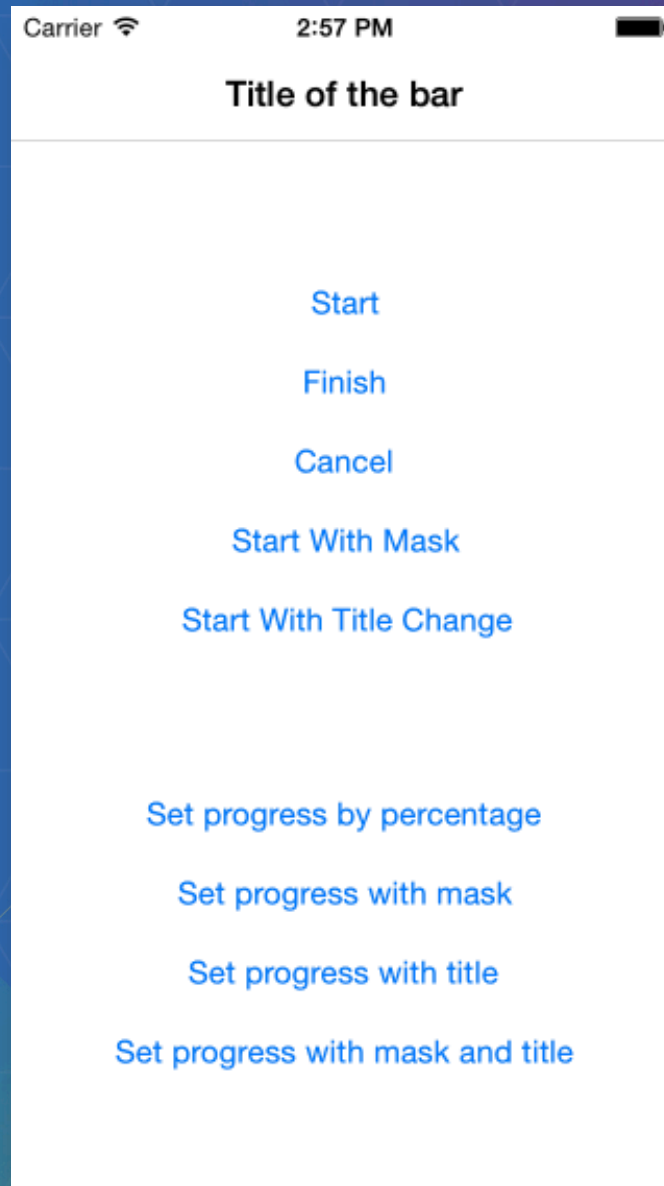

Safari

Yelp

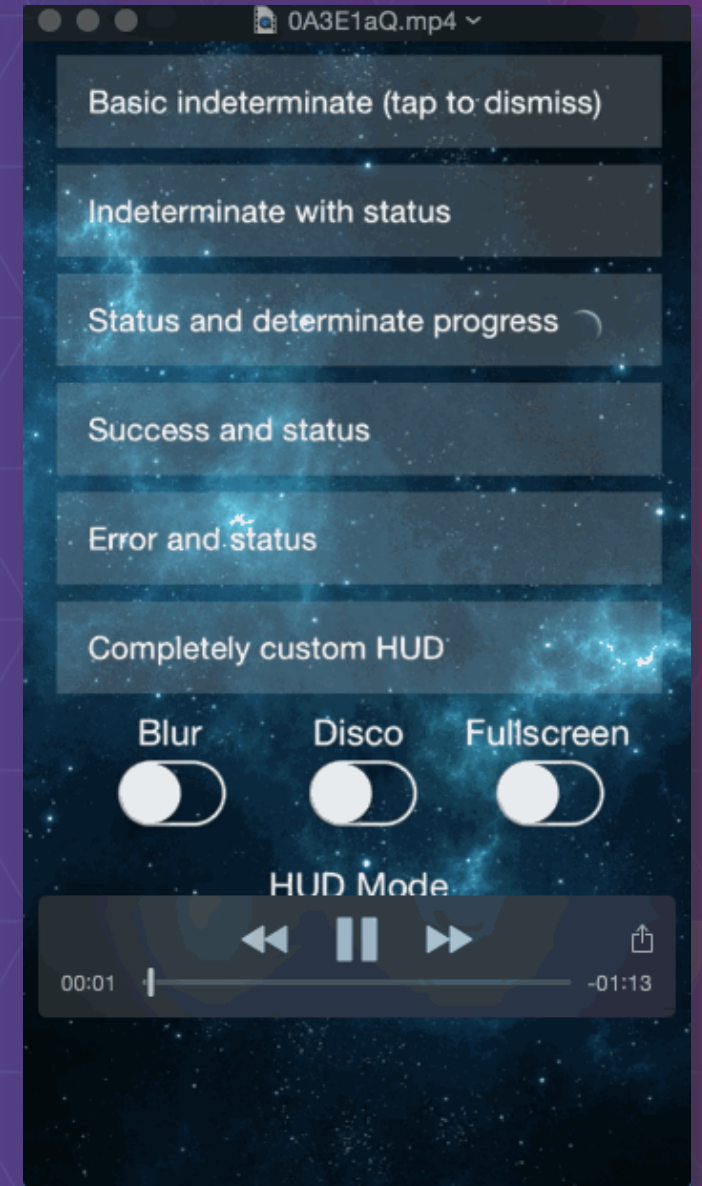

Messenger

SVProgressHUD

SGNavigationProgress

BFRadialWaveHUD

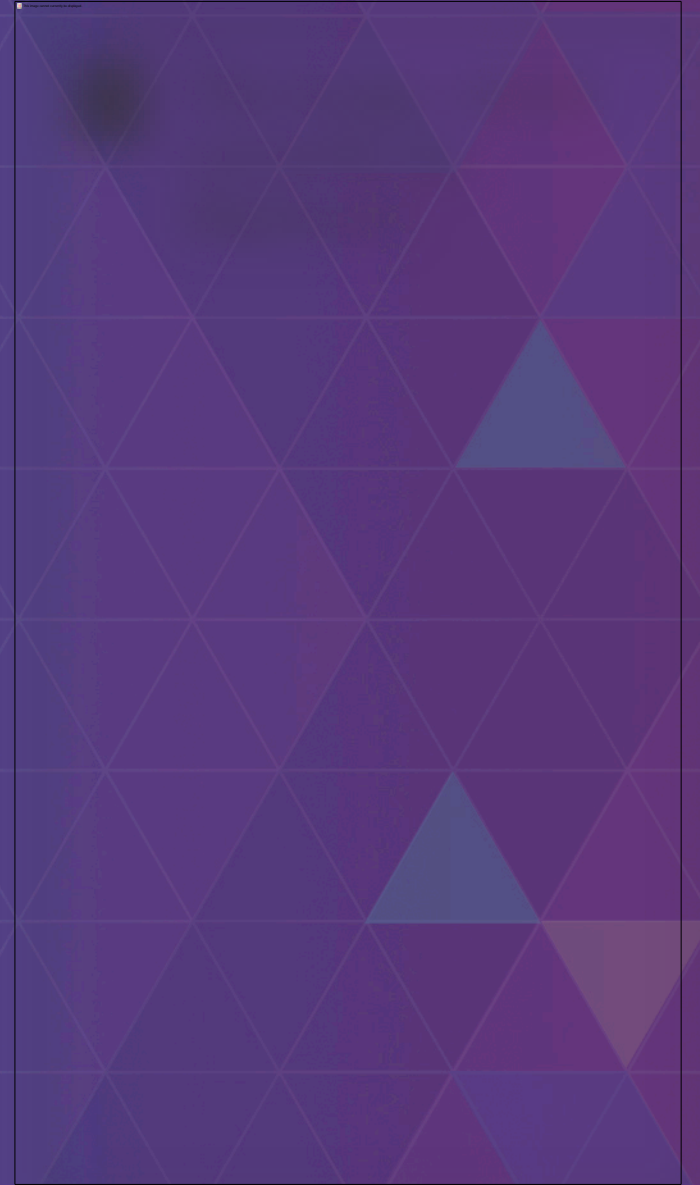

Jazz up the UX

TextField Interaction

- Animate text field when keyboard appears

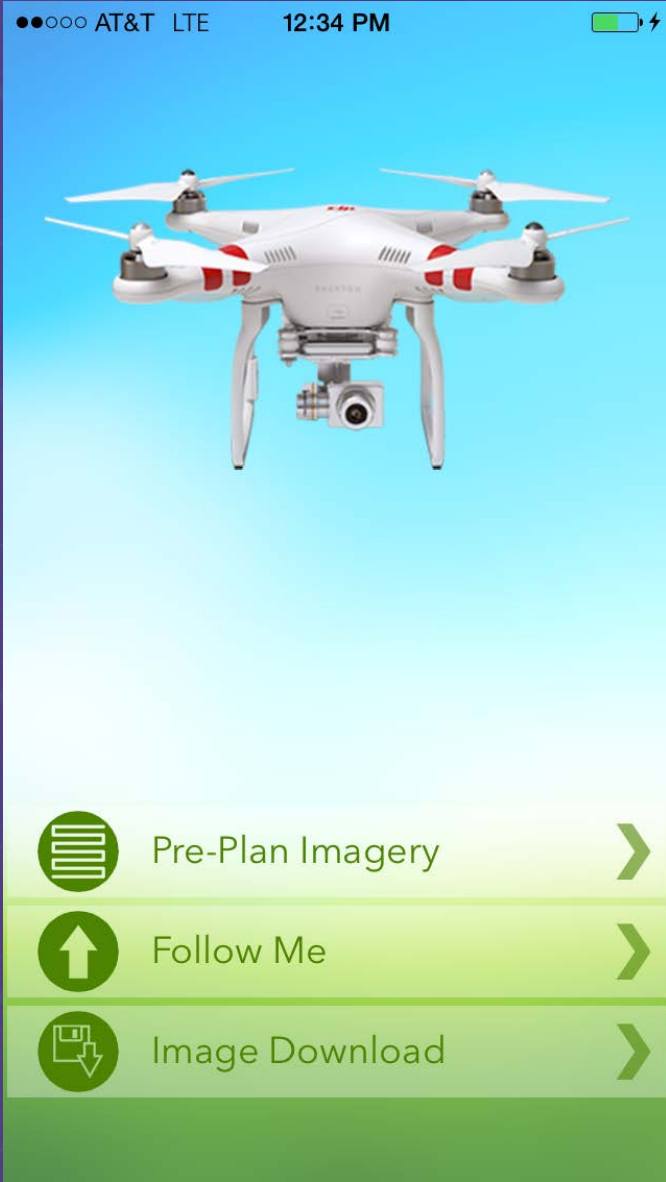

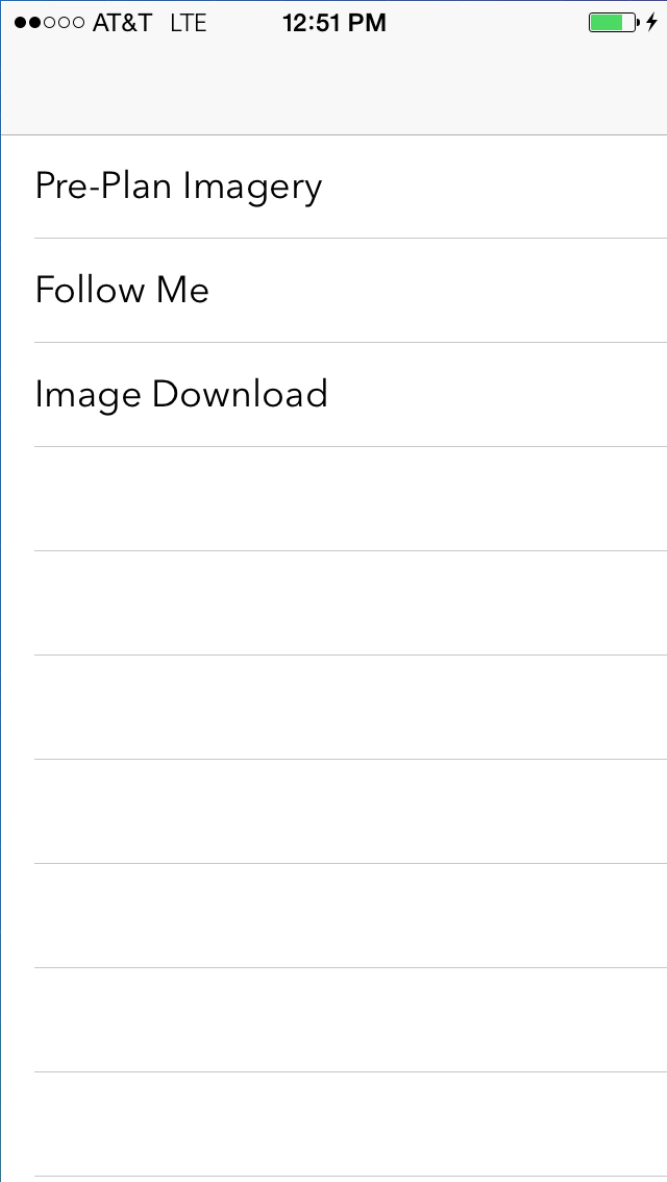

TPKeyboardAvoiding

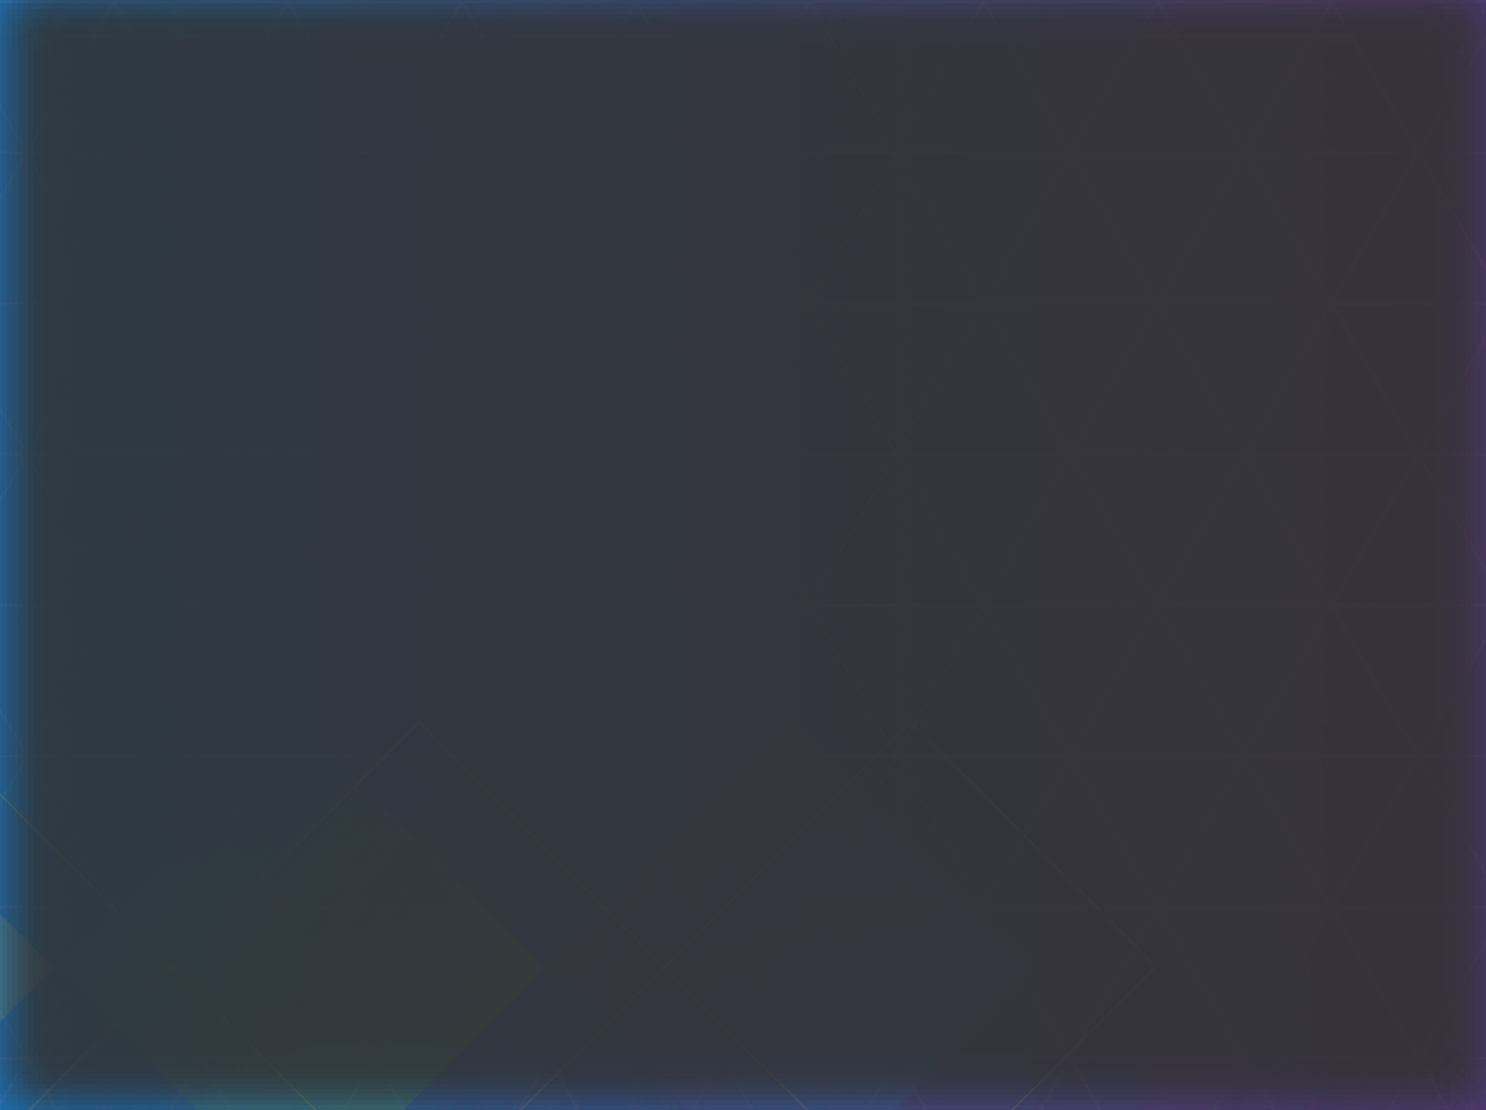

More ways to Jazz up...

- **Colors**
- **Images**
- **Animations**
- **Content**

Drone app

DoPH app

Summary

- Only some of the options out there
- Use them, fork them
- Food for thought
- Simply get inspired
