

# DEVELOPER SUMMIT

March 10–13

# Explorer for ArcGIS: Using the App

Sabine Barrera and Mabel Ney

# Agenda

- **Overview of Explorer**
- **Explorer on Android**
- **Explorer on iOS**
- **Q & A**

# Apps

Every Device  
Everyone  
Everywhere

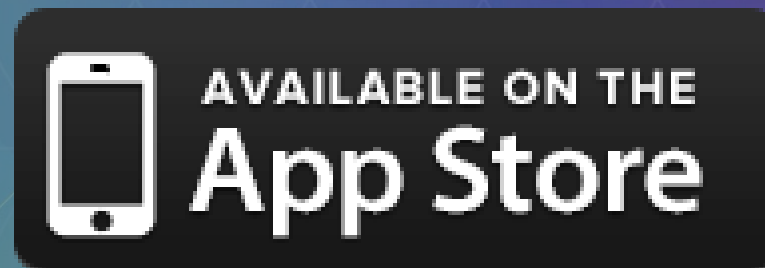

We build Apps

You build Apps

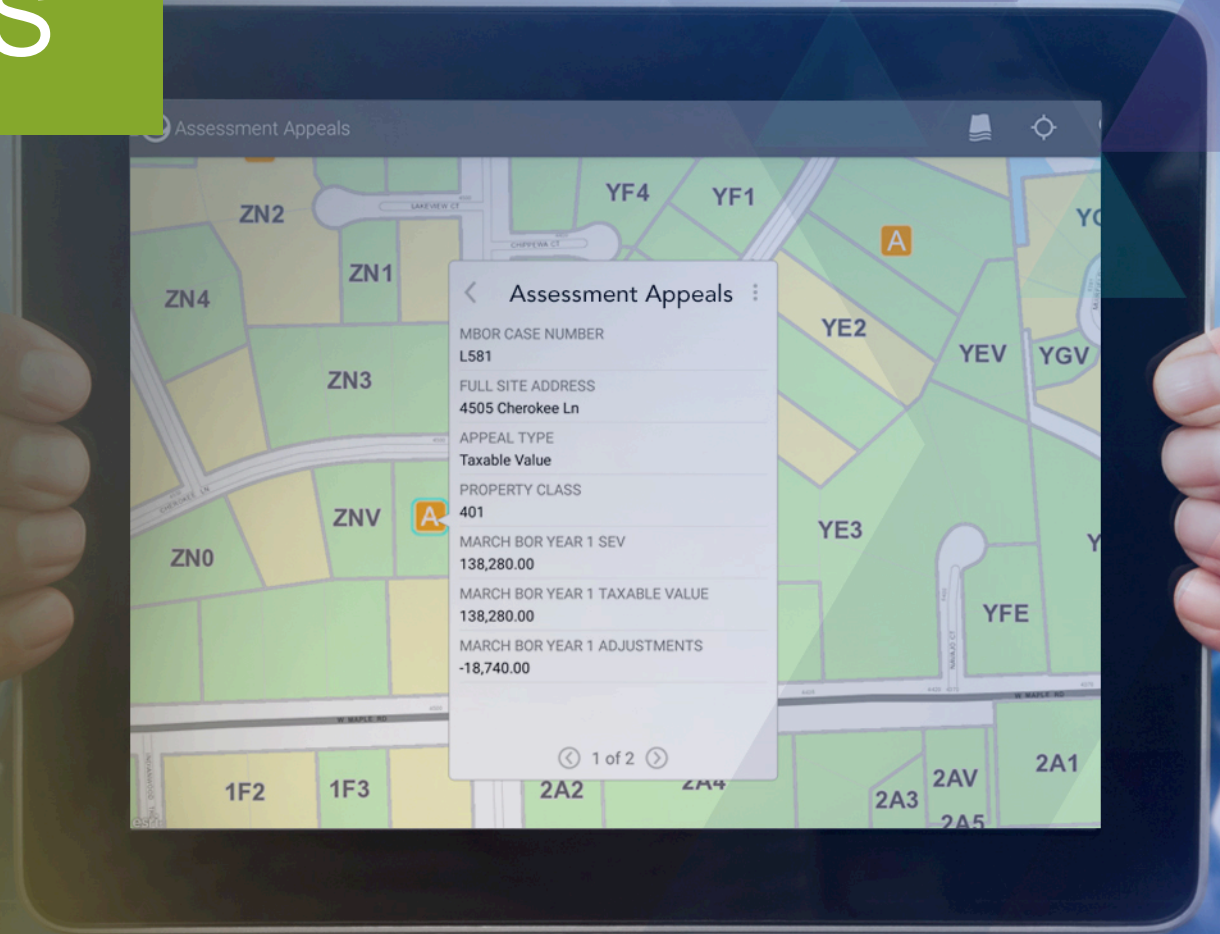

# Explorer is free!

# Explorer for ArcGIS

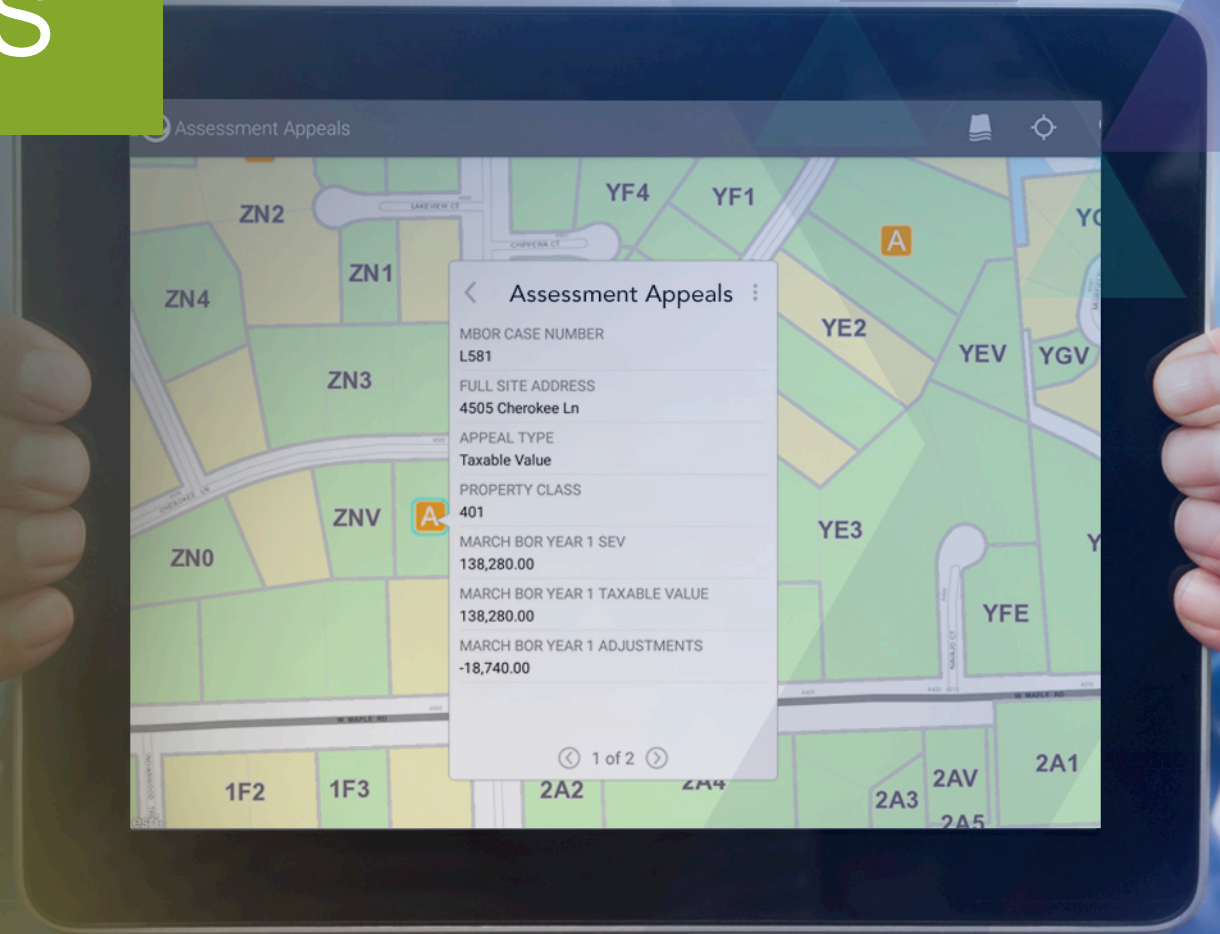

- The platform icebreaker
- Discover, Use and Share maps
- Personalize your ArcGIS experience
- Maps on the go coming soon

# Explorer for ArcGIS

- **Non-GIS Communicators** in your organization who tell stories and brief stakeholders
- **You** can show the power of maps to engage audiences.

# What can you do?

- Intuitively search for places and features.
- Simply sketch and share ideas with others.
- Android, iOS and Mac
- 26 languages

# Explorer on Android

Sabine Barrera

# Recap

- Localized
- Presentations
- Fully functioning maps with feature search
- Rich popups
- Sketching and sharing

# Explorer on iOS

Mabel Ney

# Recap

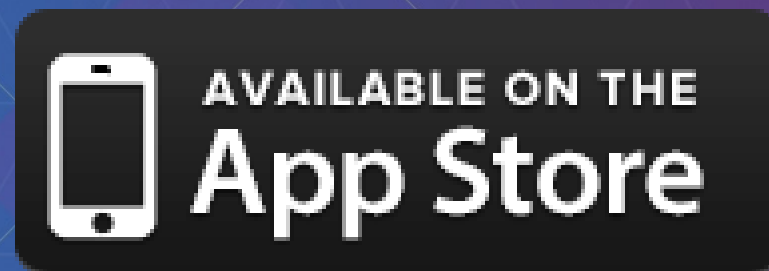

- Localized
- Presentations
- Fully functioning maps with feature search
- Rich popups
- Sketching and sharing
- Measuring
- My Places
- Account Switching
- Time Aware Layers

# What we're working on

- Appframework  
for consistency across apps
- Offline maps  
similar to Collector
- Symbology support for SmartMap renders, military symbols  
and KML

# Learn more

- Explorer for ArcGIS: How we did it today at 4:00
- Come to the Apps booth
- [esri.com/explorer-for-arcgis](https://esri.com/explorer-for-arcgis)

# Thank you!
