

Abstract

ITAM Mapper: USAREUR's IMS Solution for Training Area Management

Track: Defense and Intelligence

Author(s): Nathaniel Whelan

The ITAM Mapper is an ArcIMS map server for the U.S. Army Europe Integrated Training Area Management (ITAM) program. The Mapper utilizes both lat/long and UTM map services to display Europe-wide datasets, to include high resolution training area orthoimagery. This is an unclassified SSL/PKI IMS that also includes historical trend analysis "swipe" tool and advanced IMS functionality. The Mapper system architecture includes ArcSDE, Oracle8, IIS, ArcGIS, and an advanced web tracking system.
