

# ClimateWise

## Planning for Climate Change

Richard Nauman and Jessica Leonard  
National Center for Conservation Science and Policy

# Species are already responding...

# What does climate change look like?

# How will people respond?

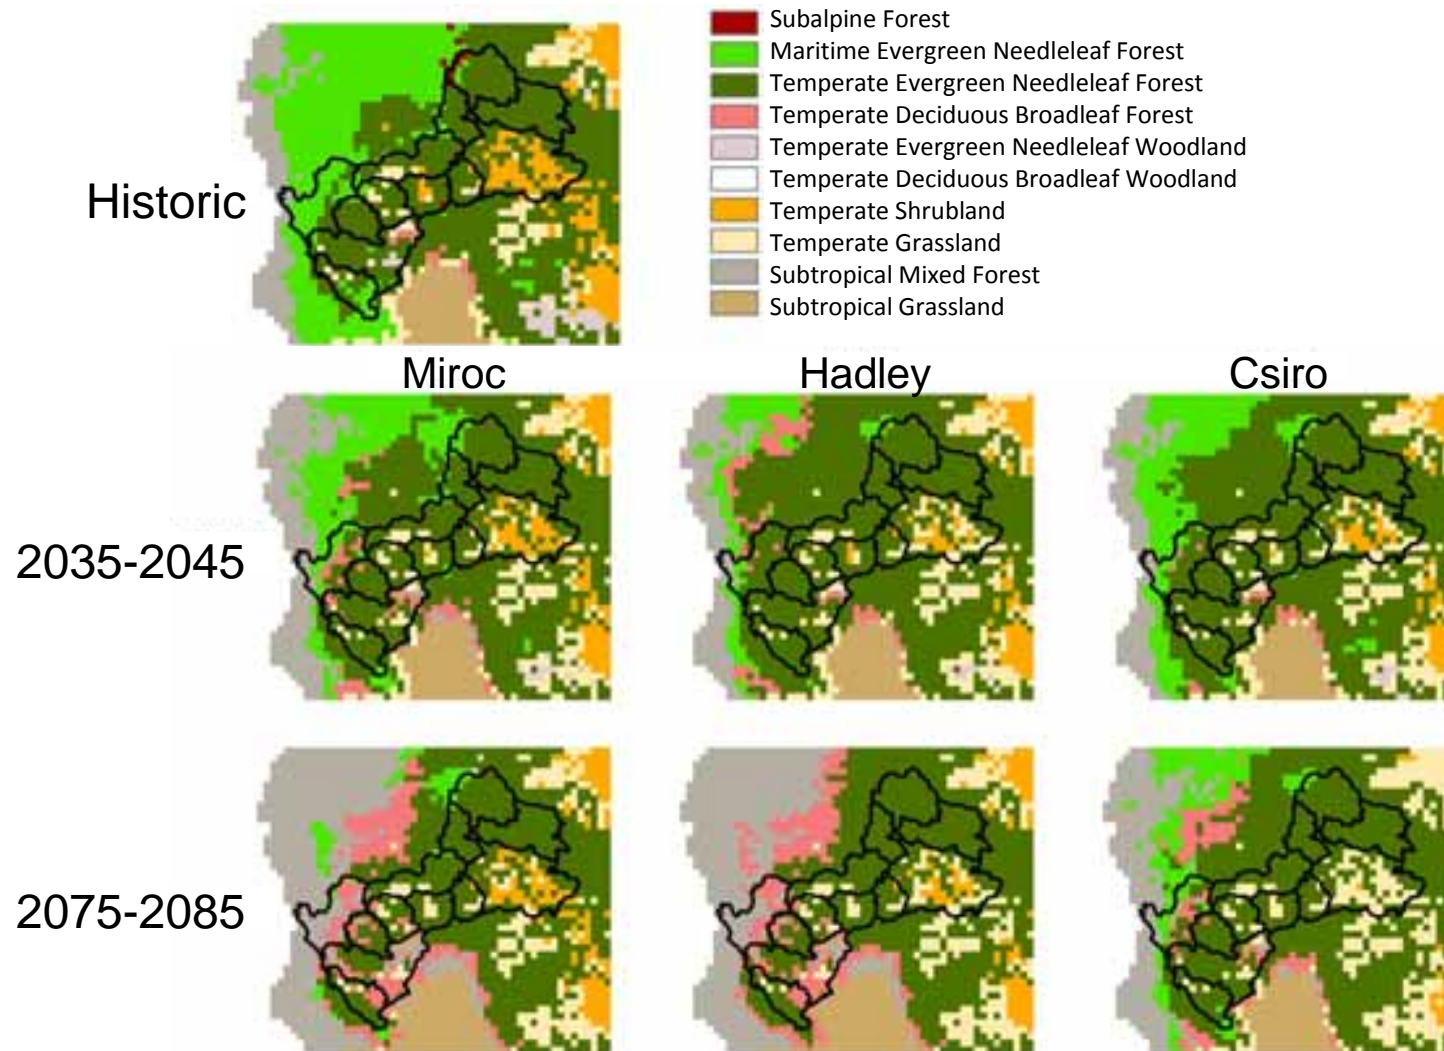

# What is climate change preparation?

# Klamath Basin Vegetation

# Klamath Basin Temperature

# Next Steps

- ❑ Continue automating processes
- ❑ Continue investing in staff skills
- ❑ Build on our standard data package
- ❑ Follow up with mitigation projects

# Thanks!

# Tips and tricks

- ❑ Think about where temporary files are going
- ❑ Invest time up front to design projects
- ❑ Invest in staff
- ❑ Get help – it may be cheaper than struggling
