

Community Risk Reduction Leadership Program

John Bonney Alchemy Management Solutions
16th July 2014

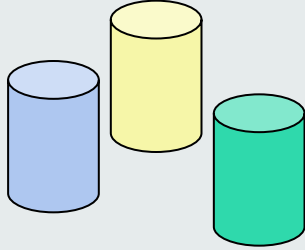

Community Risk Reduction(CRR)

The Experience of the UK Fire Service

- Centrally and locally driven change
- Focus on Risk
- Fundamental cultural shift
- Significant resistance
- Widespread Benefits
 - All Fires -68%
 - Arson -74%
 - Structure Fires -48%
 - AFDs -40%
 - Lowest Fire Deaths for over 50 years
 - Proving our worth

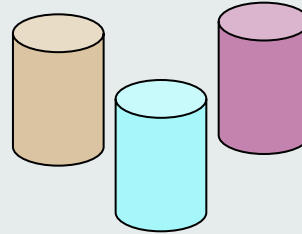

Community Risk Reduction

What we know

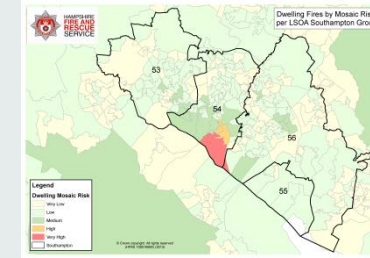

Incident data
Fire investigation reports
Fire safety infringements

What others know

Lifestyle data
Health indicators:
- Substance abuse
- Mental health issues
- Vulnerability
Crime reporting ASB

What this tells us

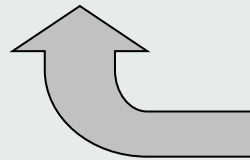

Correlation between:
- Lifestyle and incidents
- Health and fire risk

Plan and deploy

Evaluate
and learn!

Protection

Where?
How?
When?

Prevention

How The Program Works

Key Elements

- Five Selected Fire Departments
- Teams of up to 5 delegates
- CRR and data approach as Organizational Change
- Working Methods
- Building a Community of Practice

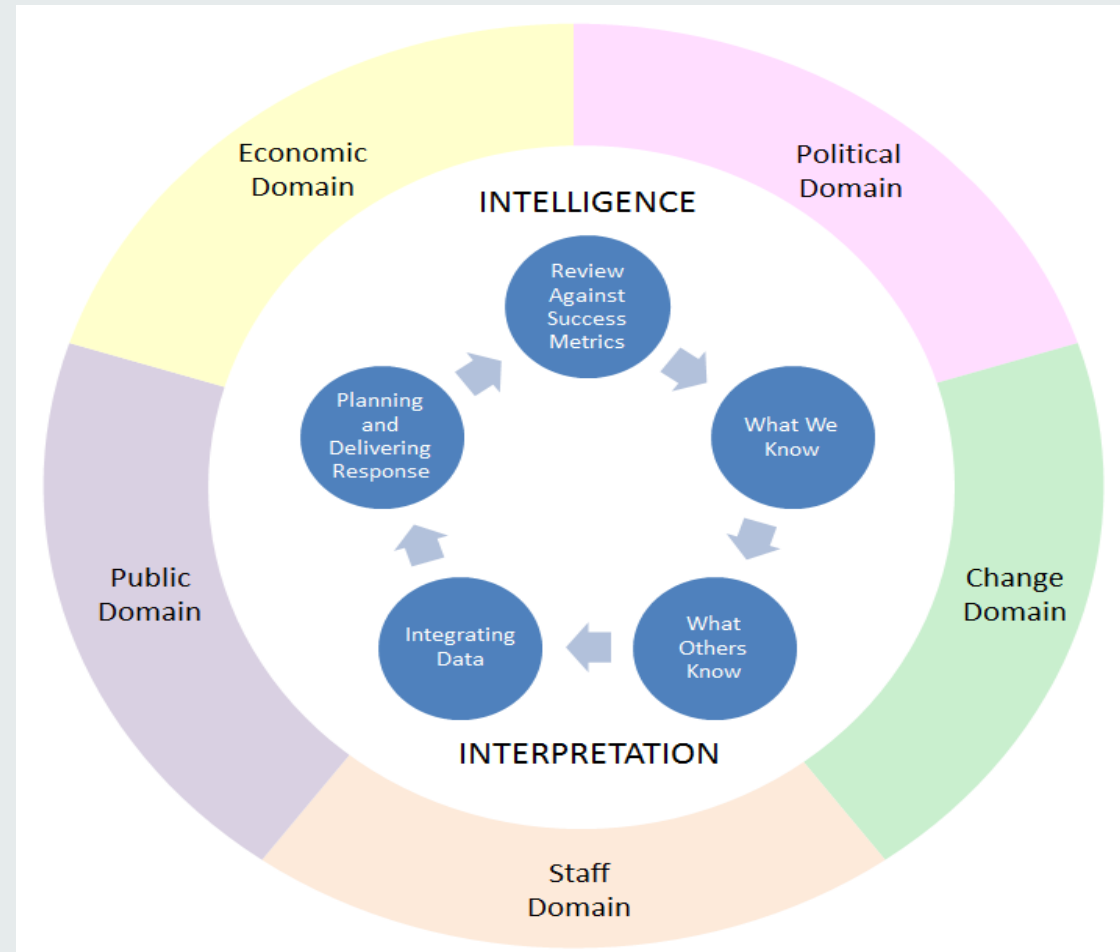

The Program- Workshop#1

Emerging Issues

- Power of the Strategic –Analytical axis
- Cultural Shift (Position vs Knowledge- Response vs Risk)
- Understanding intent before unpacking the box
- CRR and Transformational Change
- Developing a Practitioner Model “Acuity”

Acuity – The Expanded Model
