

Raising the Value of a Local Government GIS Using a GIS-Centric Work Order and Permitting System

Justin Cure, GISP, CGCIO - City of Longview
Jeremy White - Cityworks

Agenda

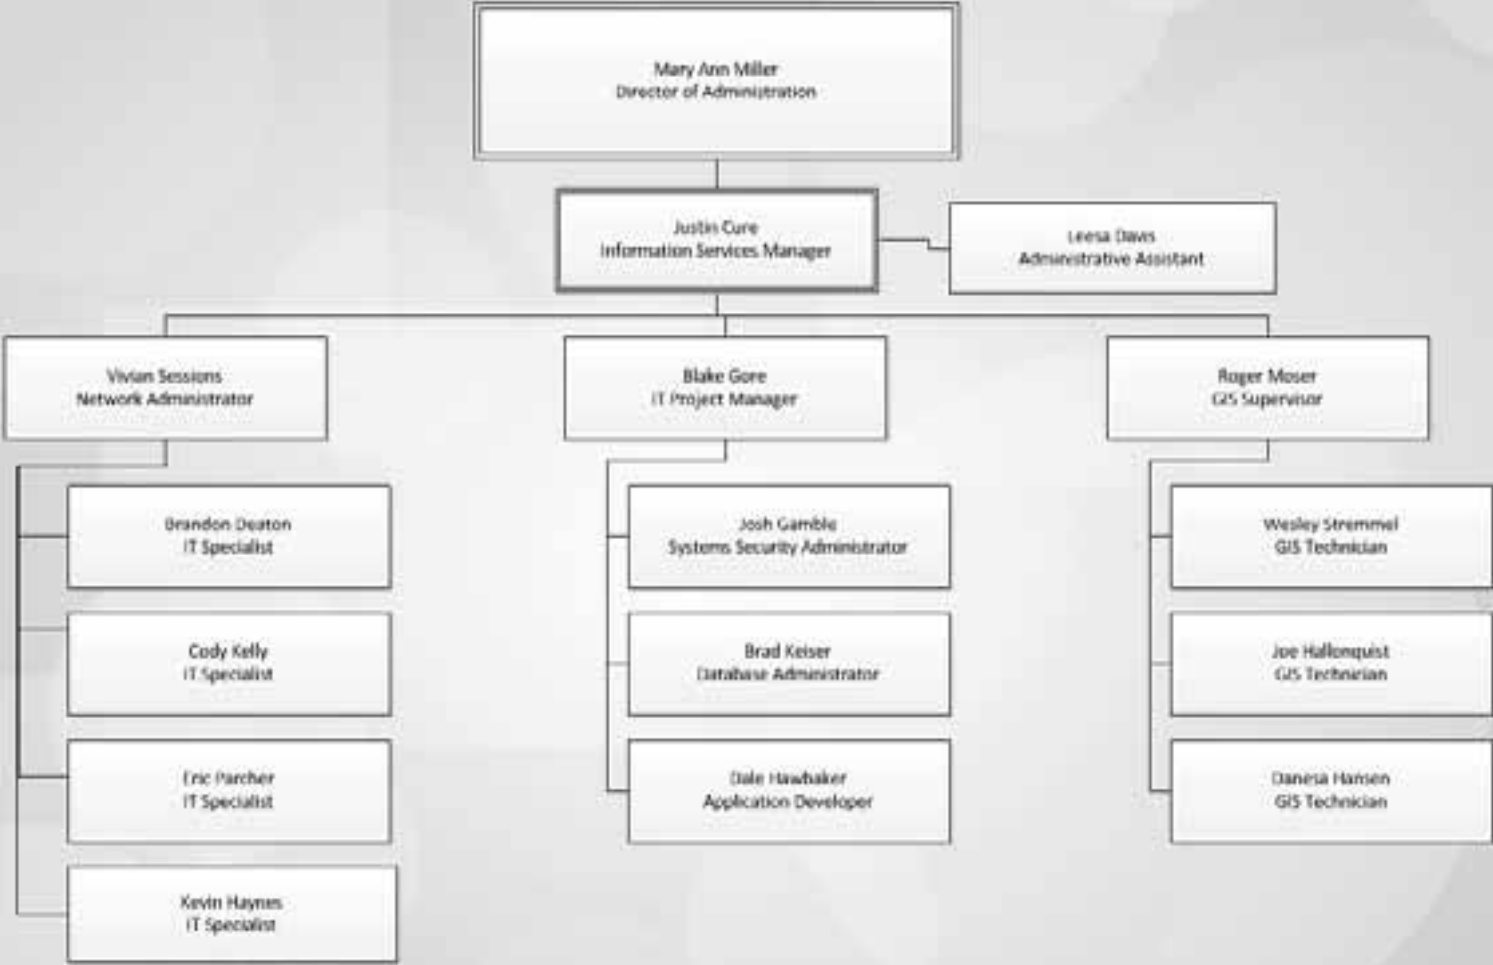

- Overview
- Public Works
- Cityworks
- Warehouse, Community Services, Wastewater Treatment Plant, Sanitation, Water Treatment Plants
- Engineering, Planning & Zoning, and Building Inspections
- Cityworks Hosted Environment
- CompassCom and CitySend
- What's Next?

City of Longview, Texas

Information Services Division

Longview GIS

- Established 2005
 - Enterprise GIS
- 6.5 Employees
- 250+ Data Layers
- 9-1-1 Addressing, GPS, Analysis, Training, Web/Mobile Applications
- ELA with ESRI and Cityworks

Geographic Information Systems

Analysis, Custom Mapping & Data Requests
A Geographic Information System (GIS) is an integrated collection of computer software and data used to view and manage information about geographic places, analyze spatial relationships, and model spatial processes. A GIS provides a framework for gathering and organizing spatial data and related information so that it can be displayed and analyzed.

The GIS Division employs state-of-the-art software and hardware for a variety of GIS needs.

Map Application requests
Analysis, custom mapping & data requests can be provided as requested. Several existing maps also exist to meet your needs.

9-1-1 Addressing
With the advent of automated computer-controlled emergency services (9-1-1 systems) it has made it important that proper

crucial component of the Emergency Service System is a comprehensive, accurate, and sequential addressing system. The GIS Division enforces the City ordinance on addressing.

Global Positioning System
A Global Positioning System (GPS) is a system of radio-emitting and receiving satellites used for determining positions on the Earth. The GIS Division has the hardware and knowledge to assist in GPS data collection.

Software
The GIS Division has many types of software based on your needs. We hold an enterprise license agreement (ELA) with ESRI and CityWorks. The ESRI ELA gives us access to almost all of ESRI's software and extensions. We also support the WebMap Interactive for employees and citizens. This custom web mapping application allows you to search, view, measure, and print property related information and other map layers.

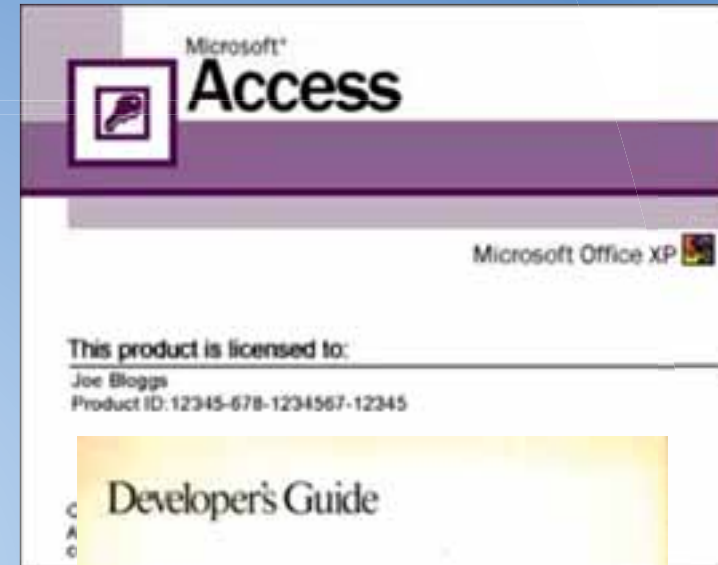

Training
The GIS Division employs an ESRI Certified Trainer who is authorized to teach ArcGIS Desktop 1, 9 & 10. In addition the division offers training on the WebMap Interactive, CityWorks, GPS & more.

Staff
The staff in the GIS Division have over 100 years of knowledge and experience to offer you. We hold many certifications and degrees as well as having several Certified GIS Professionals on staff. We strive to meet our customers needs as quickly and accurately as possible.

Warehouse

- Quickbooks
 - Inventory
 - Invoices
 - Suppliers
 - Reports
- Storeroom

Community Services

- Parks Operations
 - MainTrac
- Parks Recreation
 - MainTrac
- Building Maintenance
- Activity Complex

Wastewater Treatment Plant

- Antero
- No GIS

Wastewater Treatment Plant

Sanitation

- Animal Removal
- Bulky Items
- Missed Garbage

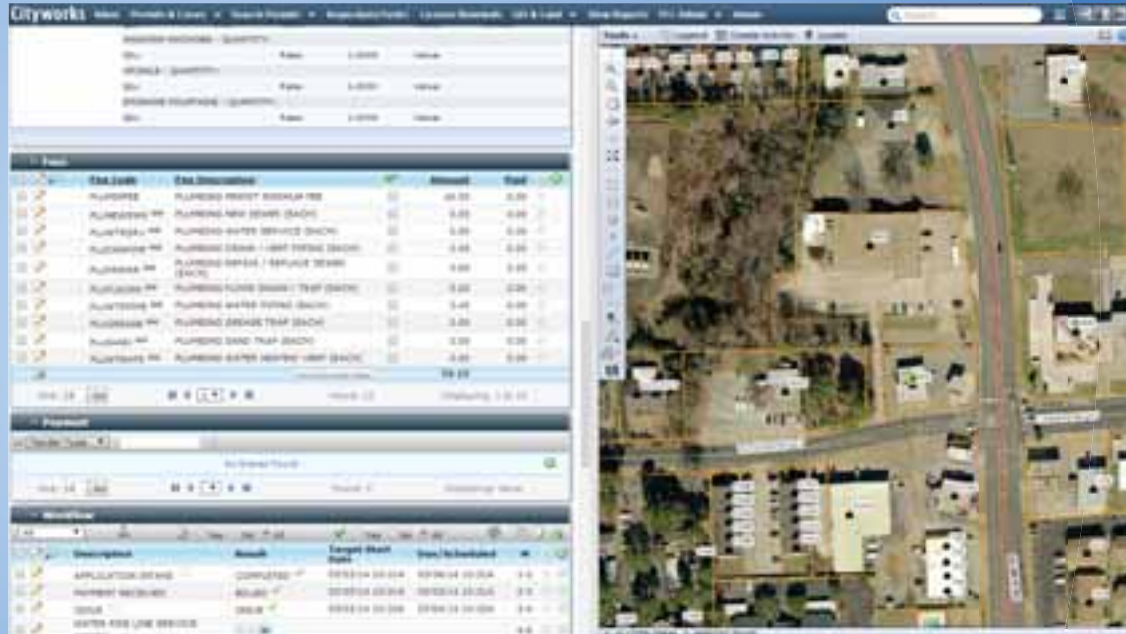

Water Treatment Plants

- 3 Water Treatments Plants
- No GIS

Engineering, Planning & Zoning, and Building Inspections

- PLL
 - Permits
 - Inspections
 - Contractor Registrations
 - Workflows
 - Fees and Payments

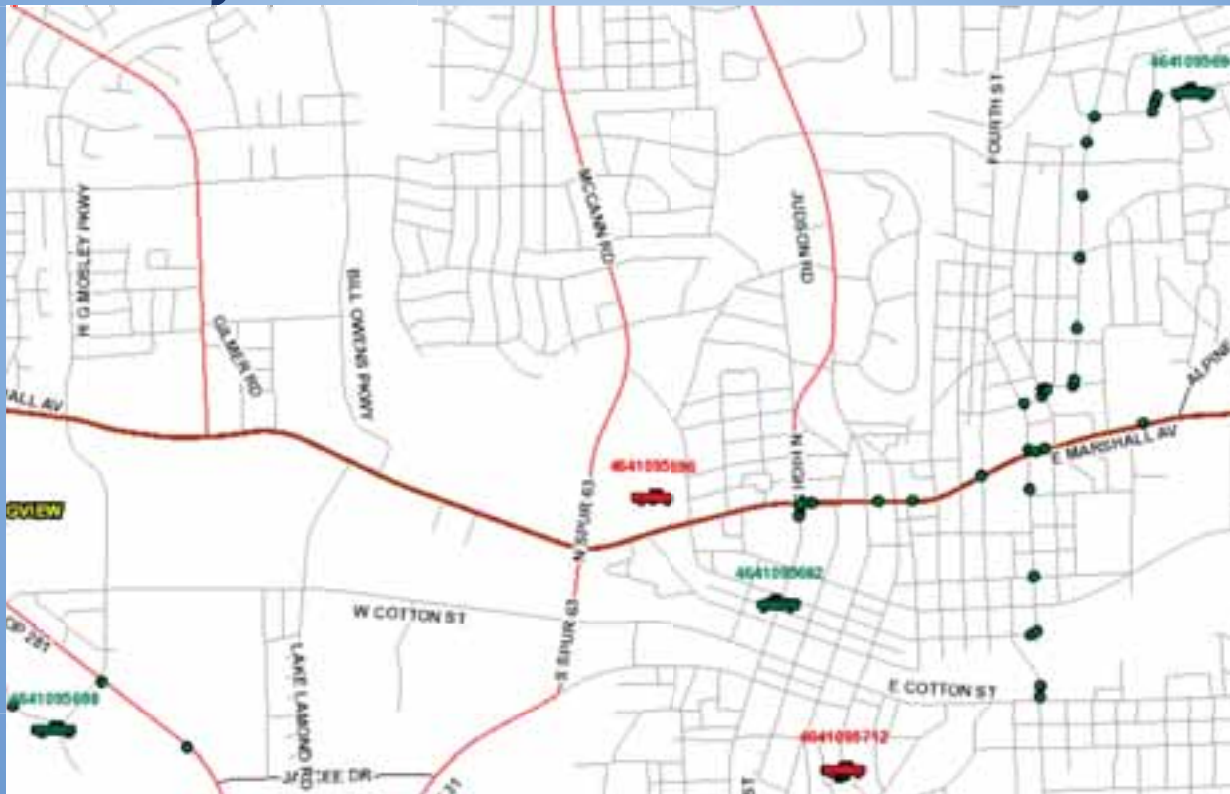

Cityworks Hosted Environment

- Cityworks 2013 SP1
 - AMS & PLL
 - Cloud hosted on Amazon cloud
 - Supported by NTB Associates, Inc.
 - ArcGIS Server 10.1
- 2013 Cityworks Exemplary User Award

CompassCom AVL

- Parks
 - 25 Trucks, Tractors, Garbage Truck, and Delivery Vans

CitySend

- Citizen Reporting Application
 - Powered by CitySourced
 - Tightly Integrated with Cityworks
 - 2013 Texas Association of Government IT Manager's Excellence Award Winner

What's Next?

- Restaurant Inspections, Code Enforcement, Animal Control, Vector Control
- Increased Field Implementation
- Web Permitting Application / Inspection Requests
- SCADA, Industrial Pre-Treatment?

Summary

- 3 Departments
 - 19 Divisions
- 11 Softwares/Databases Eliminated
- Citizens
- GIS is Part of Daily Activities
