

# Industry, Academia, and GIS Curriculum Development

Alexandra Wasko, Western Land Services

Dr. Thomas Mueller, California University of Pennsylvania

# Abstract

- **In the Geospatial technology field, there is a symbiotic relationship between industry and academia. This presentation will examine the relationship formed between Western Land Services and a geospatial professor at California University of Pennsylvania (Cal U) in order to create a new oil and gas specific GIS course. It will focus on particular discussions and curriculum issues found during this process, including the sharing of materials**
