Agenda

- Suite of Apps
- Platforms and Devices
- Who Is It For
- What Can You Do
- Q & A

What is Explorer for ArcGIS?

Apps

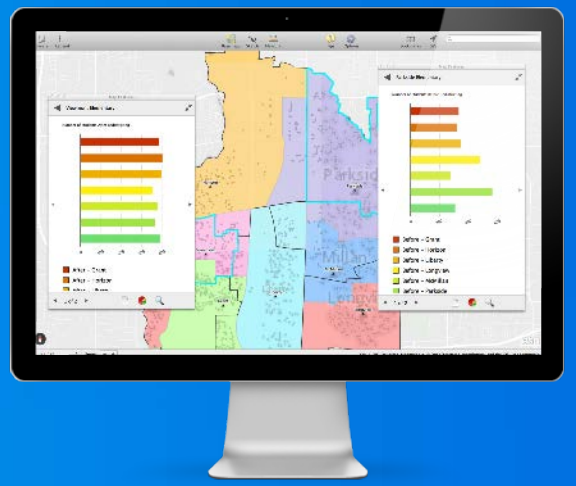
We build Apps

You build Apps

Apps for Everyone a suite of easy to use apps that work on any device, anywhere, anytime

Explorer for ArcGIS

- **Cross platform app for devices**
  - Phones, Tablets, Desktops
  - Apple
    - iOS – iPhone, iPad
    - Mac OS X
  - Android

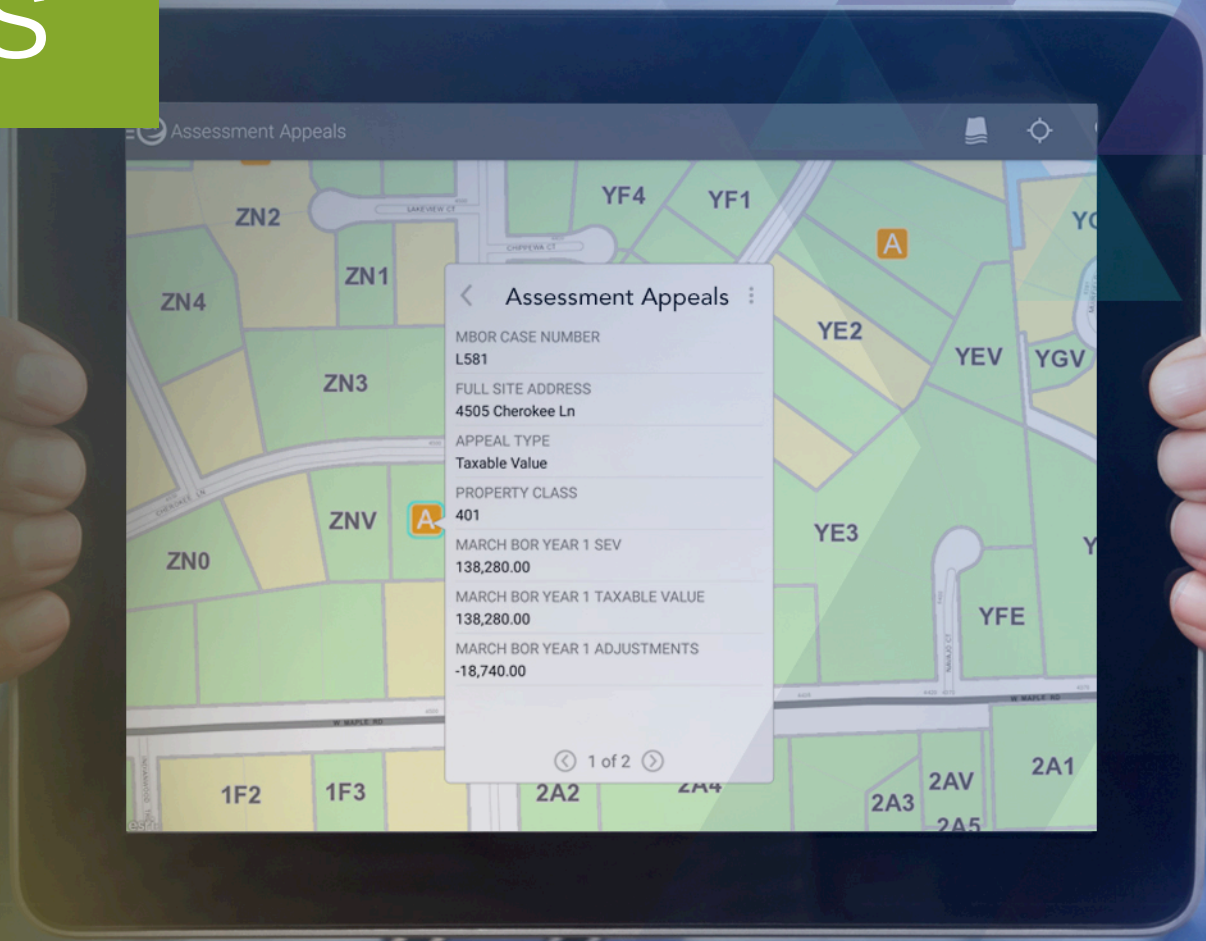


Explorer is Free!

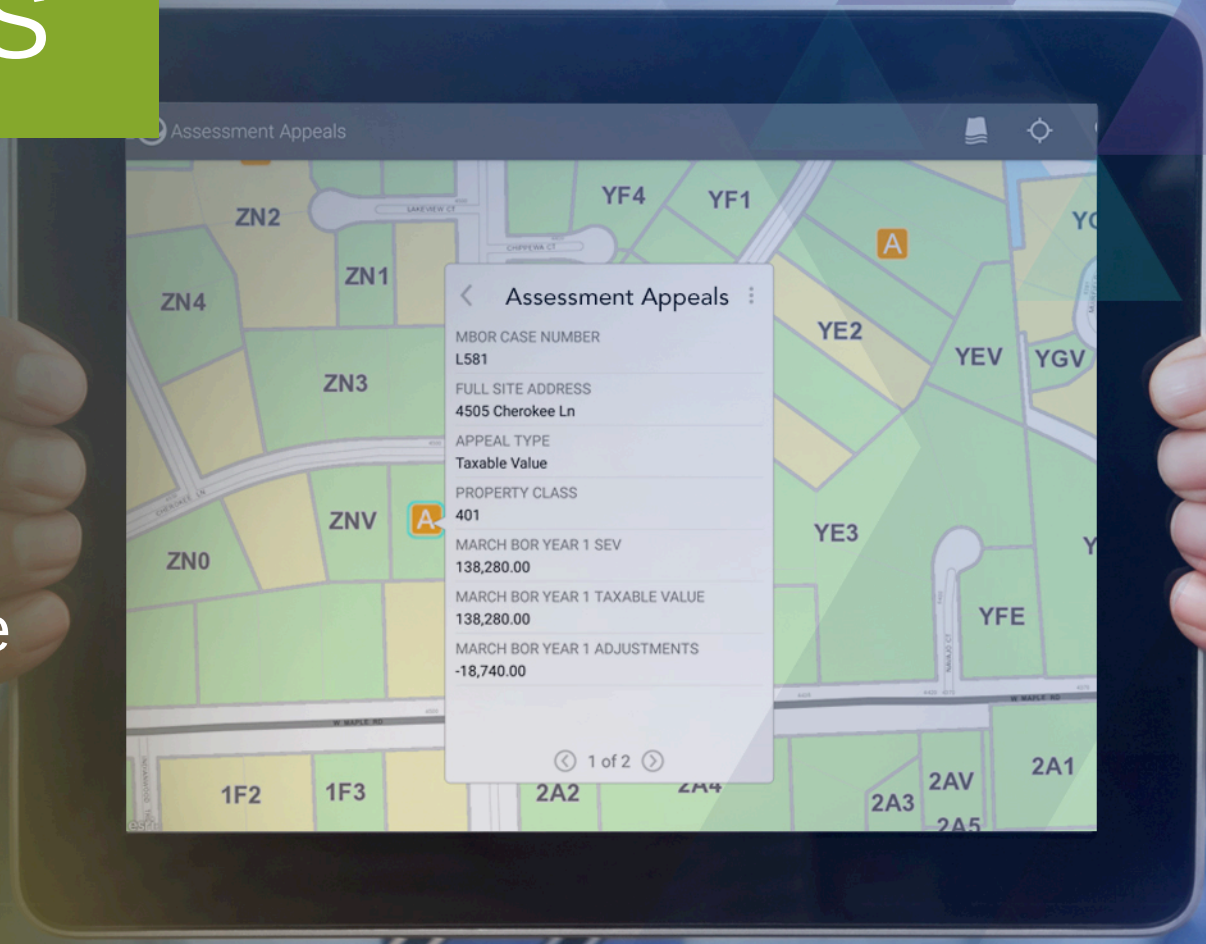
No sign in required to view public maps

Explorer for ArcGIS

- Non-GIS Communicators in your organization can tell stories to motivate the community and brief stakeholders
- You can show the power of dynamic maps to engage these audiences.



Explorer for ArcGIS



What you can do:

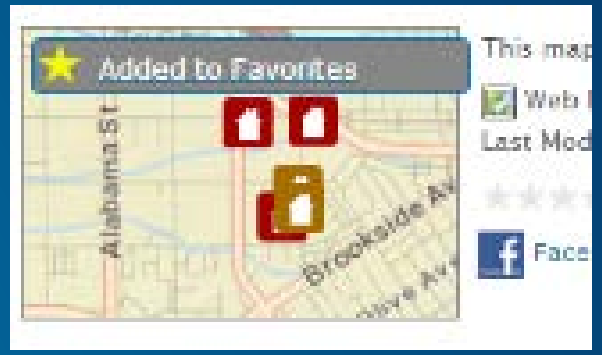
- Discover, Use and Share maps
- Personalize your ArcGIS experience
- Take your maps into the field

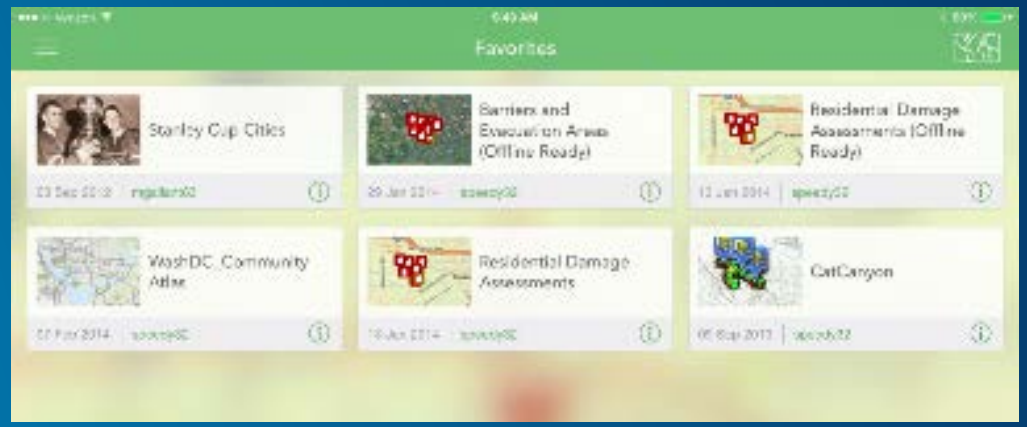
Demo

Discover Maps

A Personalized Experience for Working with Maps

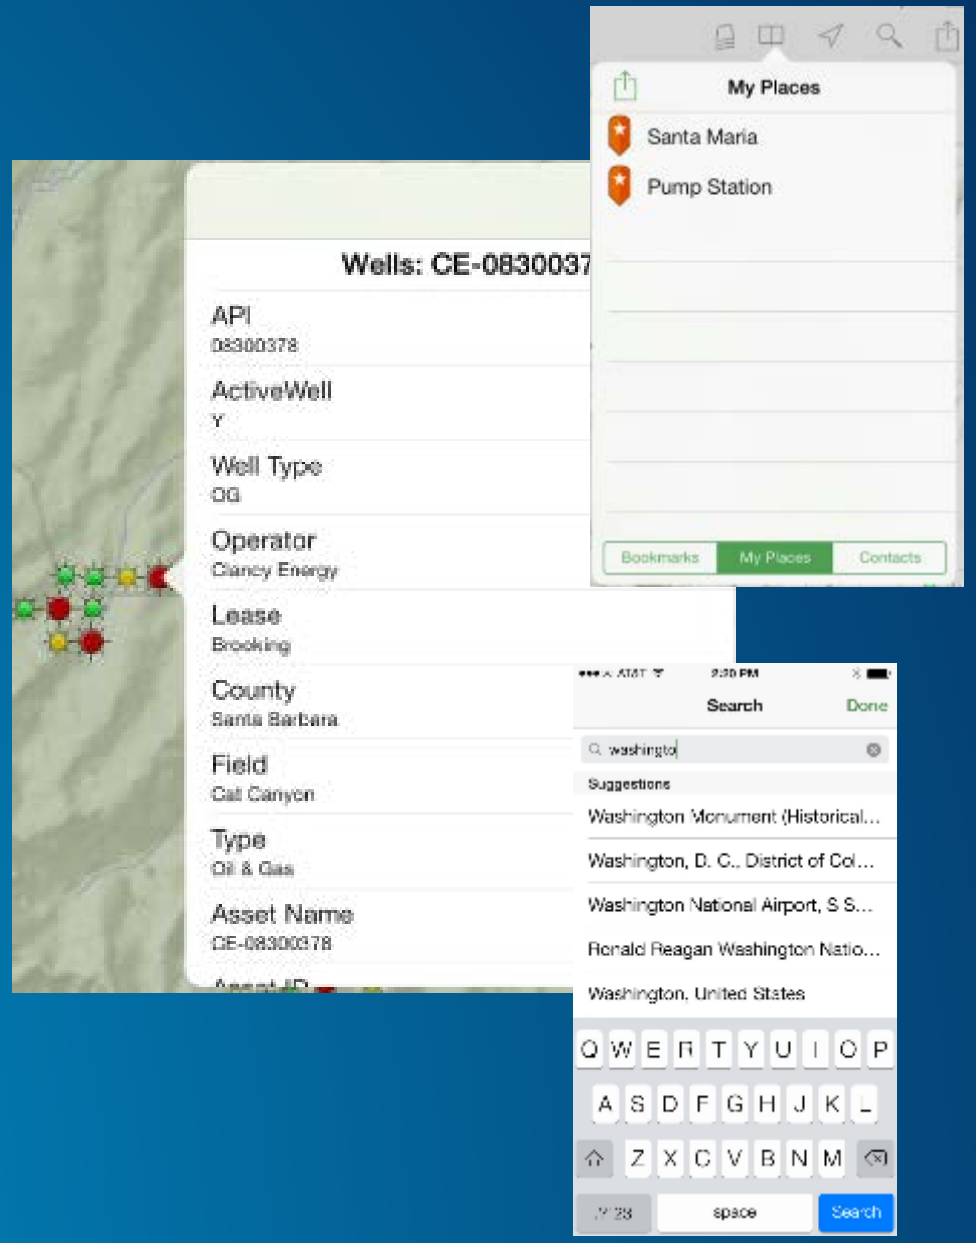
- **Use the maps you work with every day**
  - Favorites
  - My Maps
  - My Groups
  - Recently used
- **Search for Maps within your organization**
  - Featured and newest maps
- **Map Information**
  - View map details
  - Add maps to your favorites





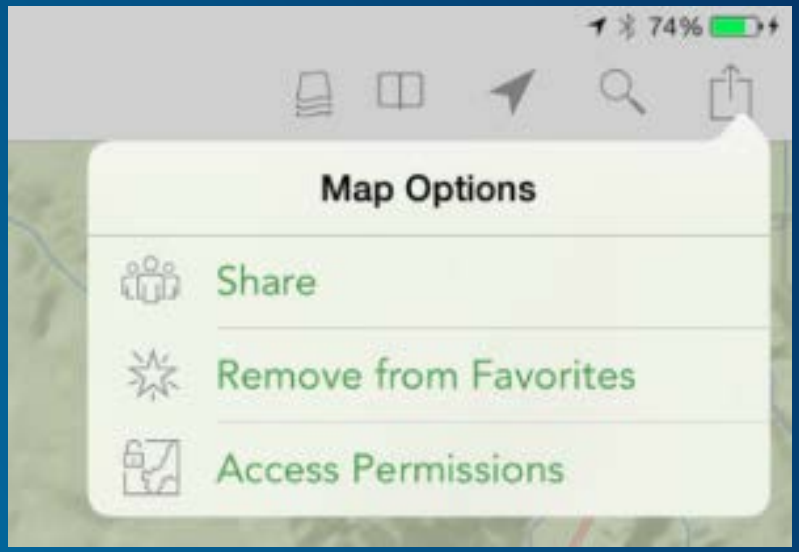
Use and Search the Map

- **Key features for using maps**
  - Measure Distances and Areas
  - View Feature Details
  - Change basemaps
  - Bookmarks, My Places
- **Search the map for**
  - Places
  - Features
  - Locations by coordinate notation
  - Search suggestions

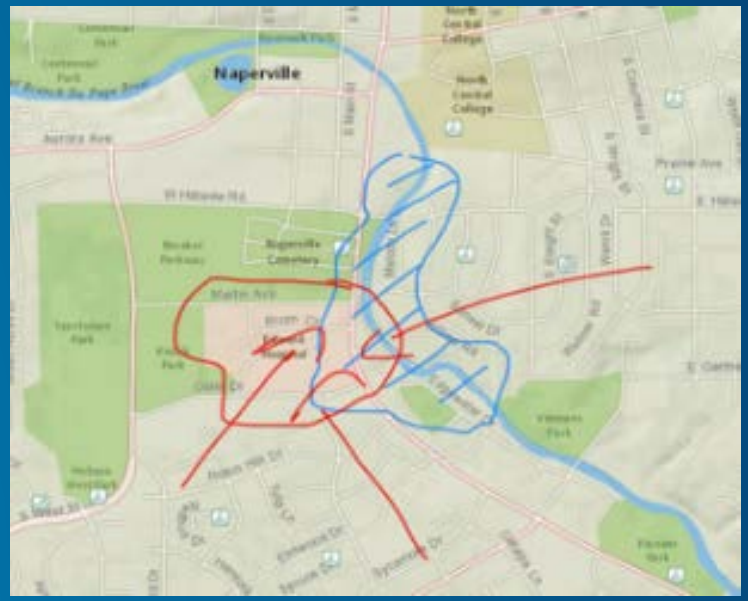


Share and Collaborate

- **Share maps**
  - Within your organization (groups, everyone)
  - Directly with others (Email, Text Message, AirDrop)



- **Collaborate**
  - Sketch on the map
  - View presentations



View the interactive map of the Traffic Management Loop on your mobile device by downloading the *Explorer for ArcGIS* app and searching "2015 Bikefest Traffic Loop".

Available on the App Store

ANDROID APP ON Google play

View Map on a Desktop/PC

Scan this code after the app is installed

No sign in required to view public maps

Create a Custom URL

- Use this URL as a template and insert your Web map ID

  http://www.arcgis.com/home/mobileviewer/appsharer.html?id=YourMapIdHere

  Example:
  http://www.arcgis.com/home/mobileviewer/appsharer.html?id=ac7e0840c3444ccbb69082ad99d18eeb

- Post the URL on your website or send via email

- Opens your map in Explorer for ArcGIS on an iOS or Android device.

- If the recipient does not have either of those installed, the map will open in a browser.

Recap

- Finding Maps and Adding Favorites
- Presentations
- Sketching and Measuring
