- Leveraging the Esri team
 - 20 Year Relationship
 - Content, Engineering, Business
- Pilot Goals
 - Enable Parcel + Property Products
 - Provide WMS and WFS
 - Robust Testing with Existing Users
 - Optimize Performance
 - Gather Feedback & Suggestions

Feedback

- “There was almost no effort for me to get this service set up.”
- “... provided seamless integration with my existing Esri architecture.”
- “This service allows ETL to go away and eliminates internal lag of loading data.”
- “This service is going to be a huge step toward me implementing a complete virtual environment for my 2000+ users.”
- “CoreLogic’s ArcGIS Enterprise delivery will allow me to easily expand access to parcel boundary data within my organization.”
- “This service is not only what I was hoping for, it is what I was dreaming of.”
