

# Temporal Mosaic Datasets and Their Overviews

Paul VanZuyle

NAVFAC GeoReadiness System Manager

Anthony Scardino

GISinc Sr Geospatial Analyst

# How Does NAVFAC Use Imagery?

- Imagery is stored within Mosaic Datasets
  - Served up as an Image Service
- Primary usage as a basemap
  - Need for acquiring our own imagery
- This particular implementation is to recognize change
  - Future improvements may include adding functions to image services

# Challenges of Historical Imagery

- Explanation of challenges
- Testing and Results
  - Why weren't we seeing the results we wanted
- Why customization was needed

# Esri Tool Set and Python Help

- Original Tool Set location
- Our edits
- Python to help automate further
