Maritime Operations

One Language to Rule Them All...

Other approaches can be a bit complex...

A woman with blonde hair, wearing a blue blazer over a white shirt, is looking towards a speech bubble. The background is blurred, showing other people in a professional setting.

We need to *reduce violent crime...*

Is there anything we
can do to help?

A woman with blonde hair and blue eyes, wearing a blue blazer over a white shirt, is looking directly at the camera with a confused expression. She is in a meeting with two other women, one with blonde hair on the left and one with dark hair on the right, both in blue blazers. The background is a blurred office setting.

We need to *reduce violent crime...*

...???

A woman with blonde hair and blue eyes, wearing a blue blazer over a white shirt, is looking towards two other people in a meeting. The background is blurred, showing an office setting. Two speech bubbles are overlaid on the image.

We need to reduce
violent crime...

We have some
maps and *apps*...

A woman with blonde hair, wearing a dark blue business suit and a white shirt, is looking directly at the camera with a skeptical expression. She is surrounded by other people in a professional setting, though they are out of focus. Two speech bubbles are overlaid on the image, one above her head and one below her chin.

Sounds interesting
but **how** can that
help exactly?

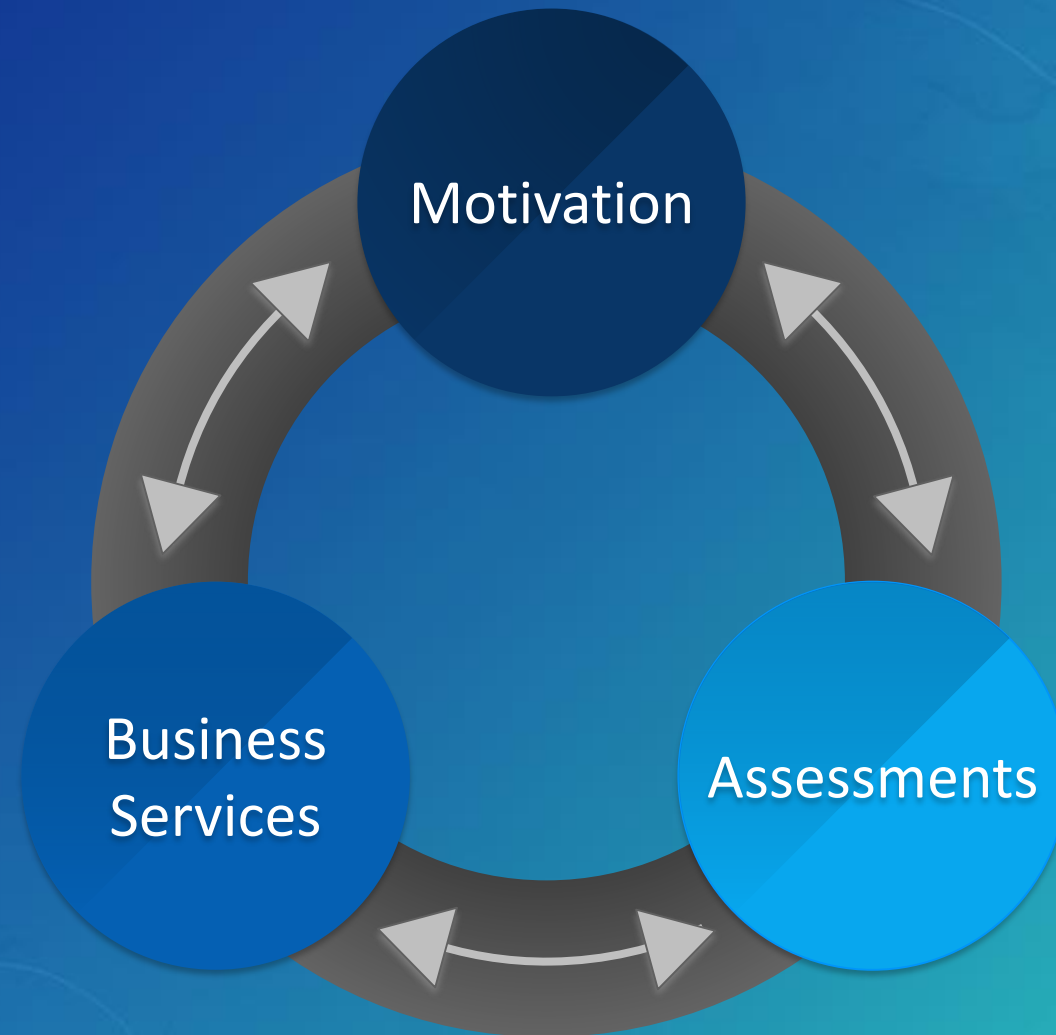

...generate *online*
maps for your
users...

A woman with blonde hair, wearing a blue blazer over a white shirt, is looking directly at the camera with a confused expression. She is surrounded by other people in a professional setting, though they are out of focus. Two speech bubbles are overlaid on the image. The first bubble, located in the upper left, contains the text "Sounds interesting but how can that help exactly?". The second bubble, located in the lower center, contains the text "...???...".

Sounds interesting
but how can that
help exactly?

...???...

One Language to Rule Them All...

Describes the Need to Change

- Drivers & Trends
- Goals & Objectives

Respond by

- Seeking more information

Motivation

Examples

Drivers & Trends

- Need to protect life
- Need to create awareness
- Desire to achieve top ranking
- Reacting to slowing new supply
- Consider future cities initiatives

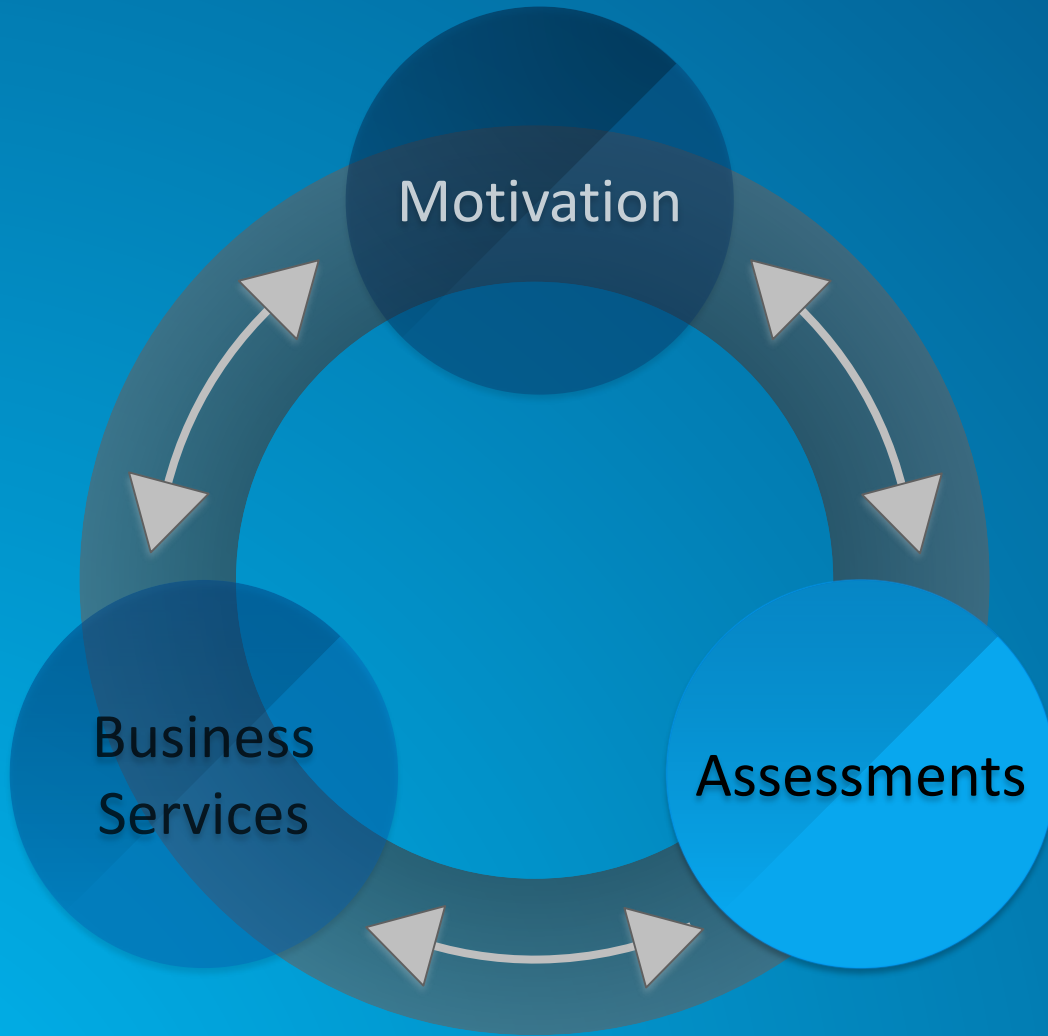

Goals & Objectives

- Reduce violent crime
- Increase sales
- Optimize operations
- Stop delivering packages to the wrong place

A woman with blonde hair, wearing a blue blazer over a white shirt, is looking slightly to her right with a thoughtful expression. Two speech bubbles are overlaid on the image. The background is blurred, showing other people in a professional setting.

We need to reduce
violent crime...

Which...?
How much...?
Known causes...?

Describes Business Impact

- Performance & Outcomes
- Customers & Environments

Respond by

- Exploring Analysis & Prediction

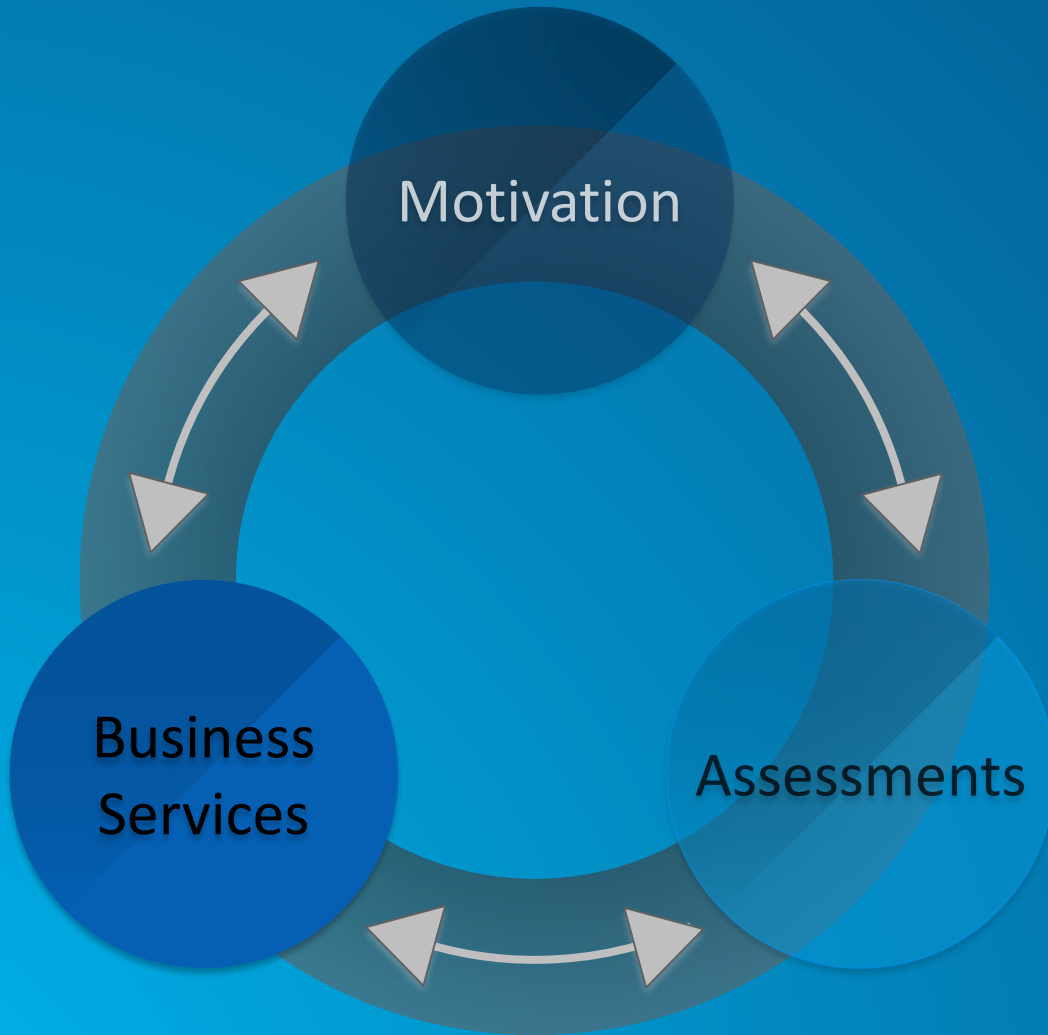

...***uptick*** in shootings,
poverty ***rising***...

...***current*** state vs
preferred...

...uptick in shootings,
poverty rising...

...use GIS to *find patterns*
in *areas* of
concentration...

Describes Offerings and Ops

- Products & Services
- Processes & Capabilities

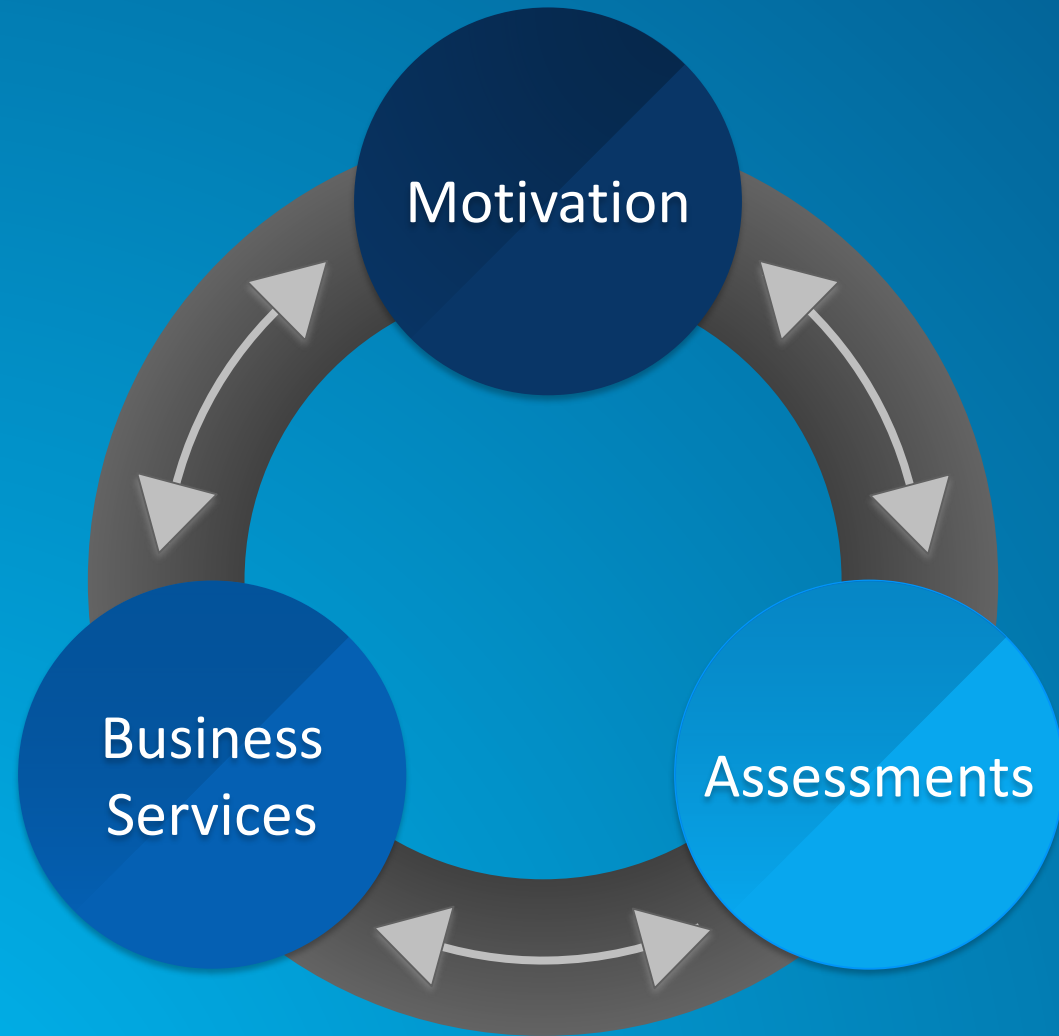

Respond by

- Exploring Automation & Enabling

A woman with blonde hair, wearing a blue blazer over a white shirt, is looking directly at the camera. She has a serious expression. Two speech bubbles are overlaid on the image. The first bubble is in the upper left, pointing towards the top left corner, and contains the text "...requires new patrol strategies...". The second bubble is in the lower right, pointing towards the bottom right corner, and contains the text "...enable by informing & automating...". The background is blurred, showing other people in a professional setting.

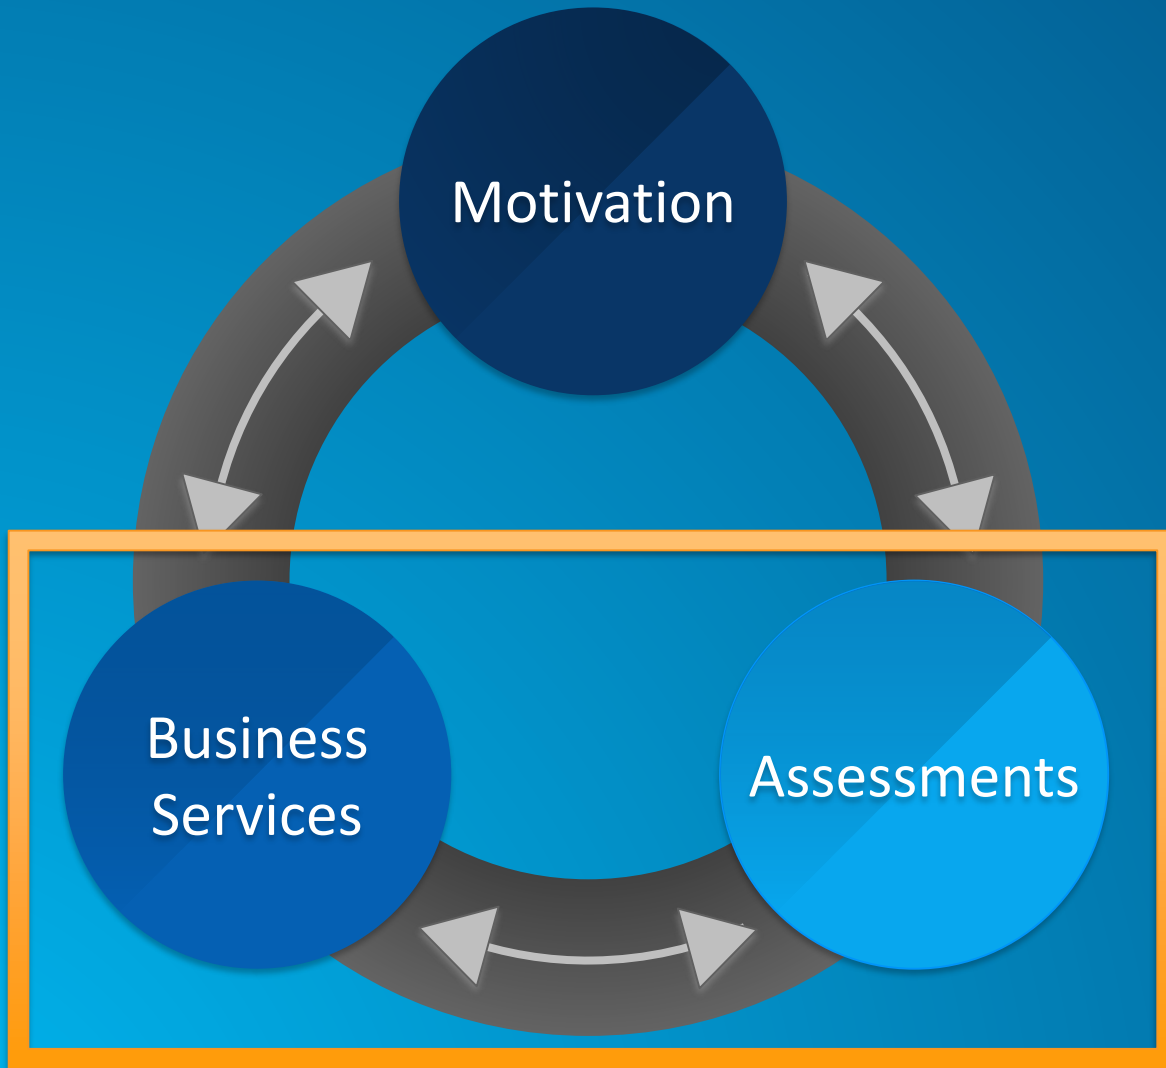

**...requires new patrol
strategies...**

**...enable by informing
& automating...**

Basic Relationships

- Motivation Requires Assessment
- Motivation Impacts Business Services
- Business Services Improve Through Assessment

GIS Delivers Value

- By Enabling and Performing Assessments
- By Enabling and Automating Business Services

Business Value

Describing how GIS delivers business value

Technology is amazing

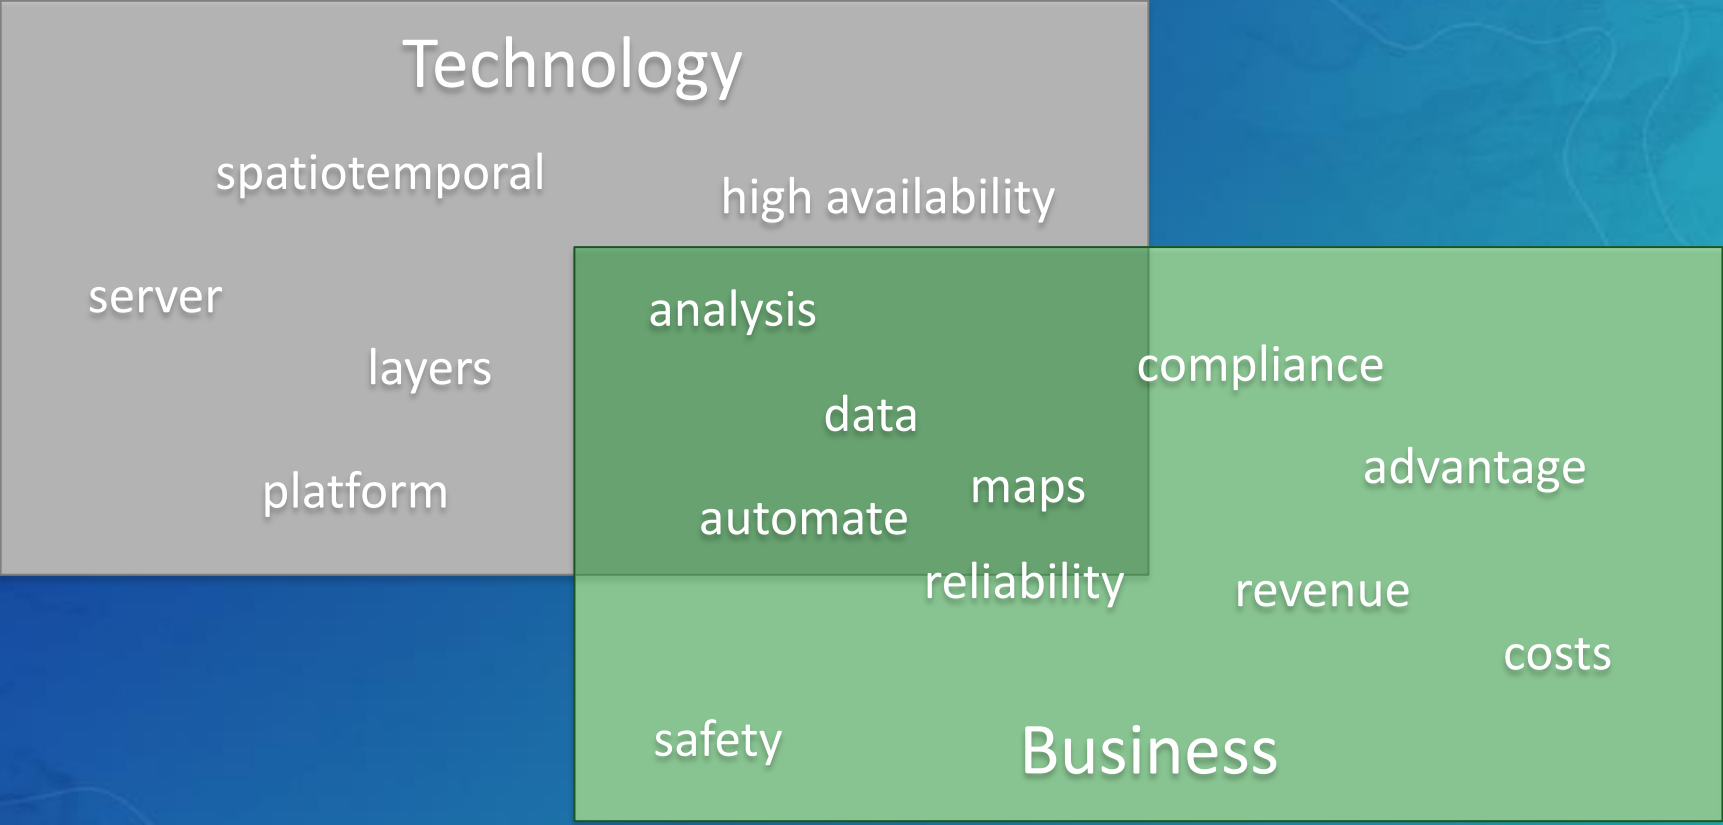

How?

How?

Technology Value

Spatiotemporal

High Availability

Data / Maps

Analysis / Trends

Data Quality & Accuracy

Business Value

Real-time / Instant

Reliable / *Always working

Better-informed Decisions

Getting ahead of the curve

Compliance / Safety

Technology

Business Story

Adding GIS to business stories to create better outcomes

GIS professionals say...

Thinking of users, apps, and data...

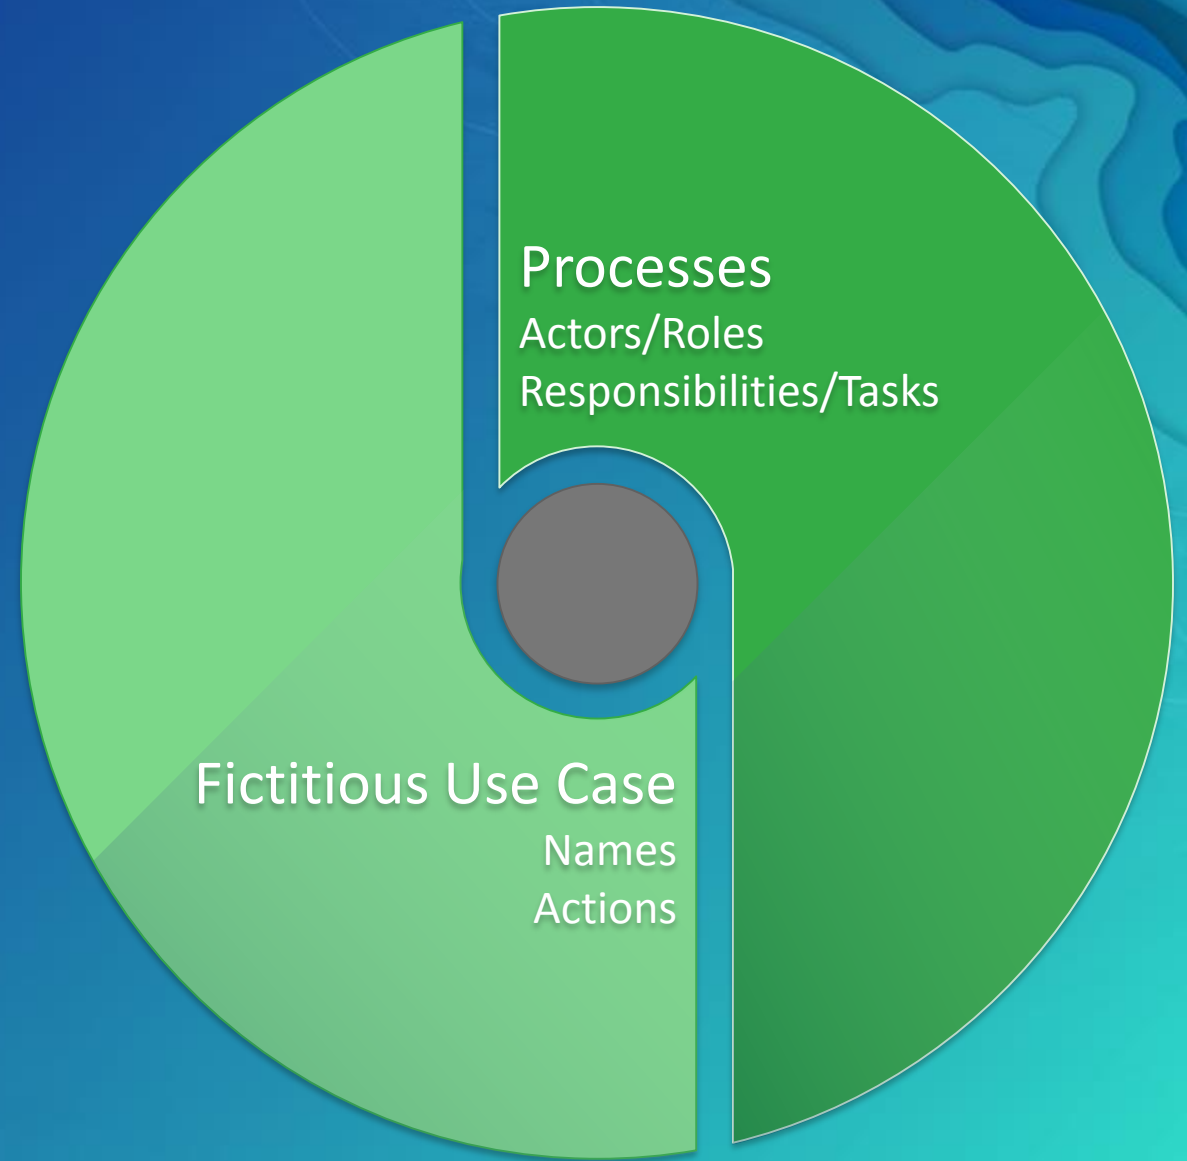

Q:

What do the users need?

A:

Data, Apps, Maps

Types of Stories

Thinking of processes...

Roles and Responsibilities

Q:

What do the detectives need?

A:

...to identify and locate suspects...

Thinking of use cases...

Names and Actions

Q:

What did detective Maxwell need to do?

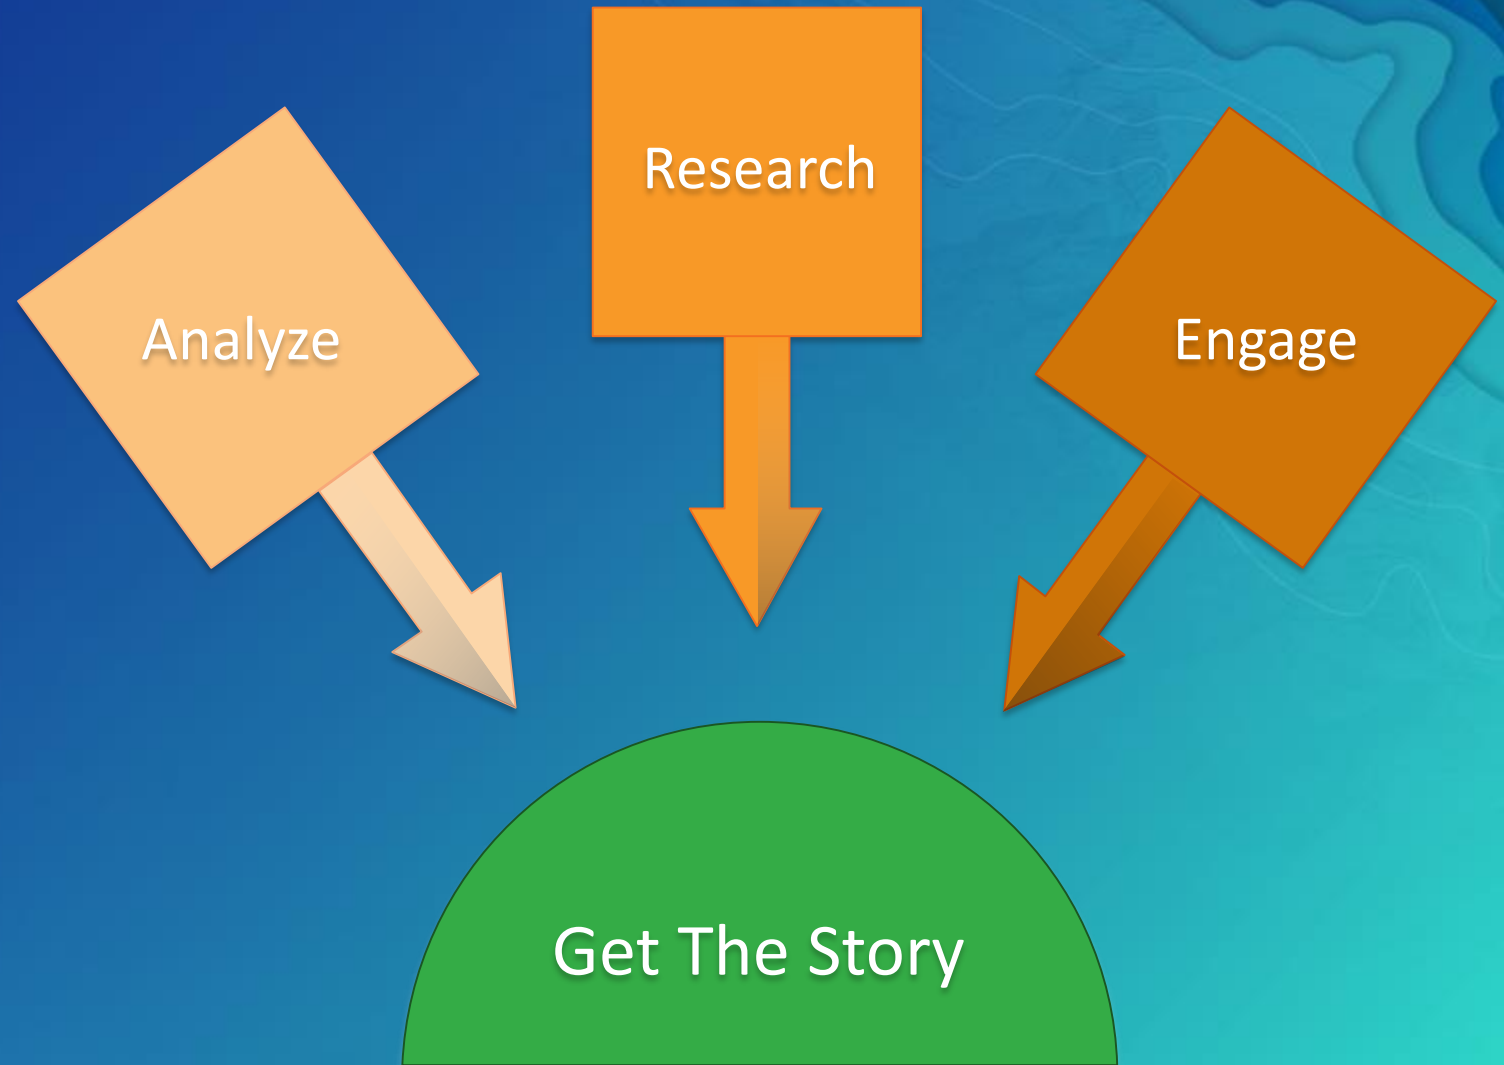

A:

...track down the shooter and known associates...

This is hard!
Remember?

How do you get there?

A woman with blonde hair, wearing a blue blazer over a white shirt, is looking slightly to the right with a thoughtful expression. She is surrounded by other people, whose faces are blurred in the background. Two speech bubbles are overlaid on the image. The first speech bubble, located in the upper left, contains the text "...requires new patrol strategies...". The second speech bubble, located in the lower right, contains the text "...enable ***teams*** to ***find the best places*** to deploy...".

...requires new patrol
strategies...

...enable ***teams*** to ***find
the best places*** to
deploy...

A woman with blonde hair, wearing a dark blue blazer over a white shirt, is looking slightly to her right with a thoughtful expression. She is in a meeting with other people, whose faces are blurred in the background. Two speech bubbles are overlaid on the image.

...requires new patrol
strategies...

...enable ***your commanders*** to find the
best locations to deploy ***patrols***...

A woman with blonde hair, wearing a blue blazer over a white shirt, is looking towards a speech bubble. The background is blurred, showing other people in a professional setting.

Really? Tell me
more.

...informing your
users whenever,
wherever...

Really? Tell me
more.

...**commanders** can see **patrols in the field** and respond as the situation changes...

Really? Tell me more.

...**officers on patrol** can stay connected to **command** and see **calls** and **incidents** around them...

Resources

Process and Capability Models

Examples of Models and other Resources

Title/Description	Url
Federal Enterprise Architecture: Business Reference Model Taxonomy of business functions and services for the Federal Government. Some elements can be adapted for state and local government.	https://obamawhitehouse.archives.gov/sites/default/files/omb/assets/e-gov_docs/fea_v2.pdf
Local Government Capability Framework [In Progress] A capability framework for local government currently under development.	https://www.lgnsw.org.au/key-initiatives/capability-framework
Association of Retail Technologies Standards (ARTS) Business Process Models (BPM) Business Process models for the retail industry.	https://nrf.com/resources/retail-technology-standards/business-process-models-0
Water Research Foundation A not-for-profit research collaborative that provides industry insights and practical solutions to the water community.	http://www.waterrf.org/

Motivation to Assessment

Making Motivation Measurable

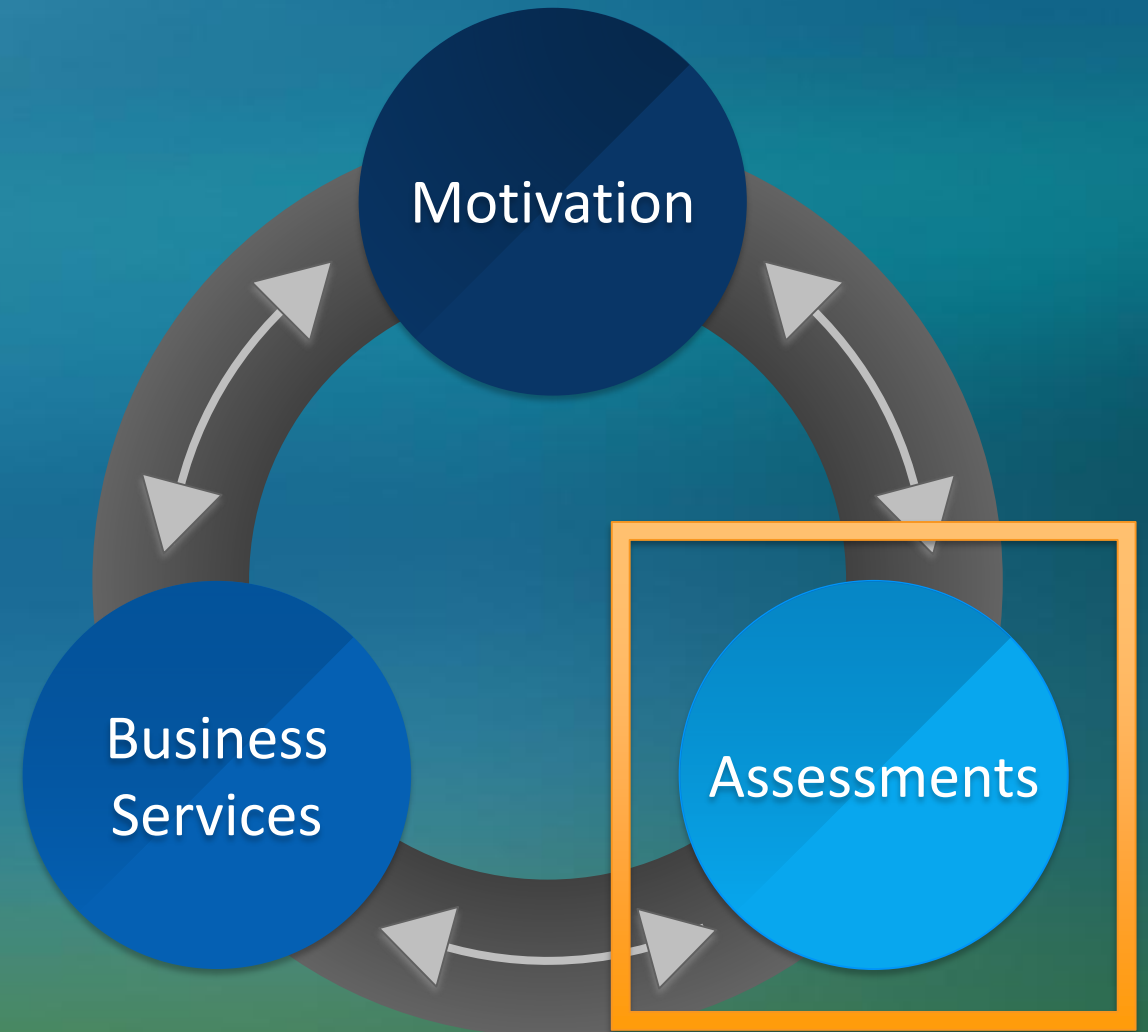

- Regardless of the type of motivation (Driver, Trend, Goal, or Objective)...
 - Identify Metrics and Targets
 - Identify Indicators

Motivation to Assessment

FICTITIOUS EXAMPLE

- Reduce Violent Crime
 - Metrics and Targets
 - Shootings [Number of, Rate]
 - Robberies [Number of, Rate]
 - Murders [Number of, Rate]
 - Indicators
 - Drug Related Incidents
 - Poverty

Motivation to Business Services

Making Motivation Actionable

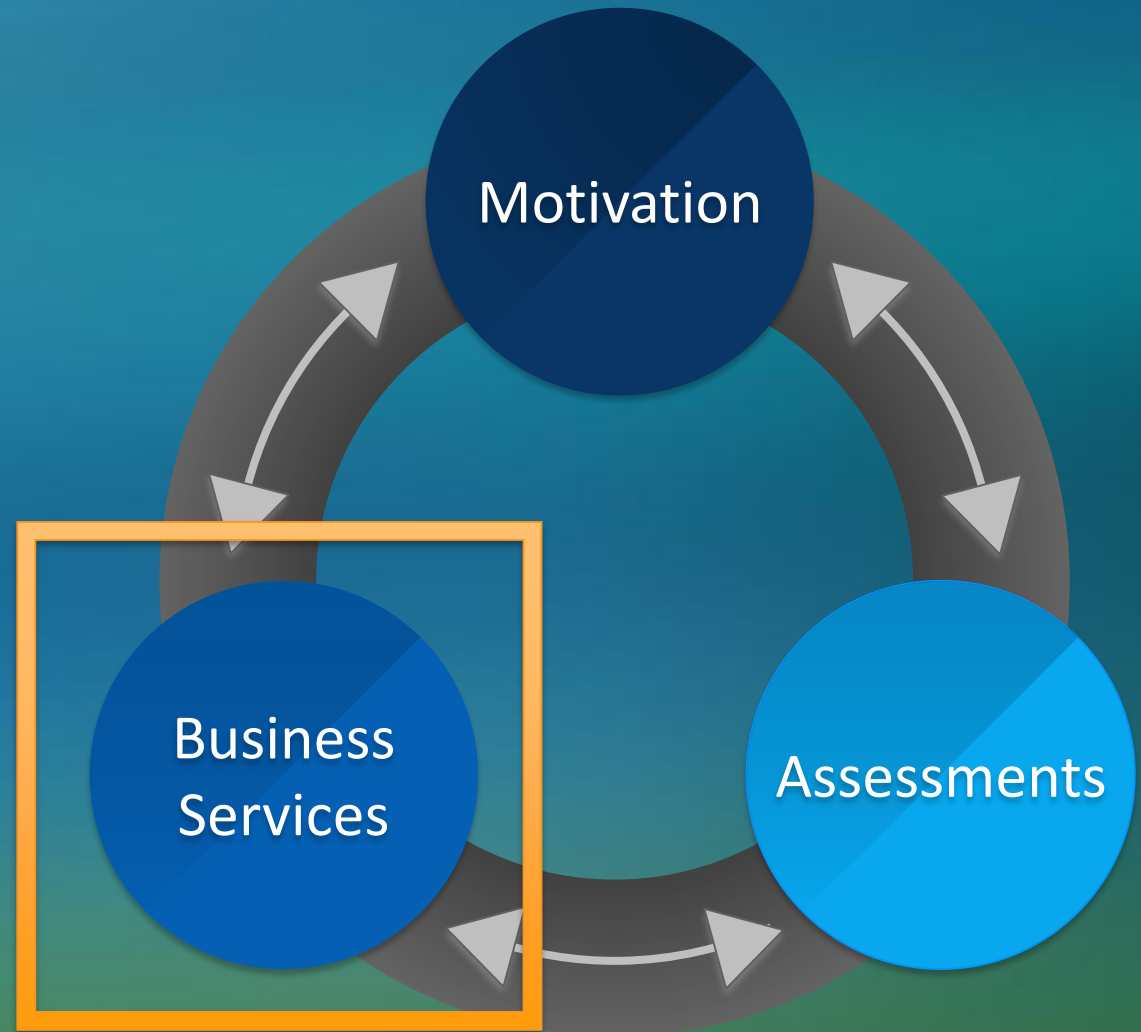

- Regardless of the type of motivation (Driver, Trend, Goal, or Objective)...
 - Identify Impacted Products and Services
 - Identify Impacted Processes
 - Roles and Responsibilities
 - Identify Impacted Information Systems
 - Apps and Data Systems

Motivation to Business Services

FICTITIOUS EXAMPLE

- Implement New Patrol Strategies
 - Impacted Services
 - Citizen Protection
 - Crime Prevention
 - Impacted Processes [Roles & Responsibilities]
 - Commanders
 - Patrols
 - 911
 - Impacted Information Systems
 - CAD
 - Incident Database
 - In-vehicle Computers
 - Vehicle and Officer Cameras
 - Vehicle GPS and Sensors

Strategic Alignment of GIS

Highlight the use of GIS capabilities in the planning, execution, realization, and monitoring of major change initiatives

Strategic Initiative	Time Frame	Planning	Execution / Realization	Monitoring / Assessment

Key

✓ – Used/To Be
Used

Strategic Initiative Use of GIS Capabilities

Highlight the location platform needs of strategic or change initiatives

Change Initiative	Time Frame	External Collaboration	Internal Collaboration	Self-Service Mapping	Dashboards	Mobile Data Access	Mobile Data Collection	Real-time GIS	Big Data	Advanced Desktop GIS	App / Data Integration

Key

✓ – Used/To Be Used

Organizational Unit, Process, or Capability GIS Capability Usage

Highlight the degree of use of GIS Capabilities by Organizational Units, Processes, or Capabilities [Current or Future]

Organizational Unit, Process, or Capability	External Collaboration	Internal Collaboration	Self-Service Mapping	Dashboards	Mobile Data Access	Mobile Data Collection	Real-time GIS	High Volume / Throughput Data	Advanced Desktop GIS	App / Data Integration
Service Qualities										

Key

- – Full Use
- ◉ – Limited Use
- – Not Used

L – Low
M – Medium
H – High

A – Availability
P – Performance

Key Takeaways

This is hard!

- Learn Business Dialects
- Connect GIS to Business Value
- Arm Business Teams with GIS

Focus on the impact to business...

Cases Closed

30/45

Online Sales

\$50K

Inform them with impact on activities, costs, and revenues

Think about the people trying to save the day...

Q:

What did need to detective Maxwell do?

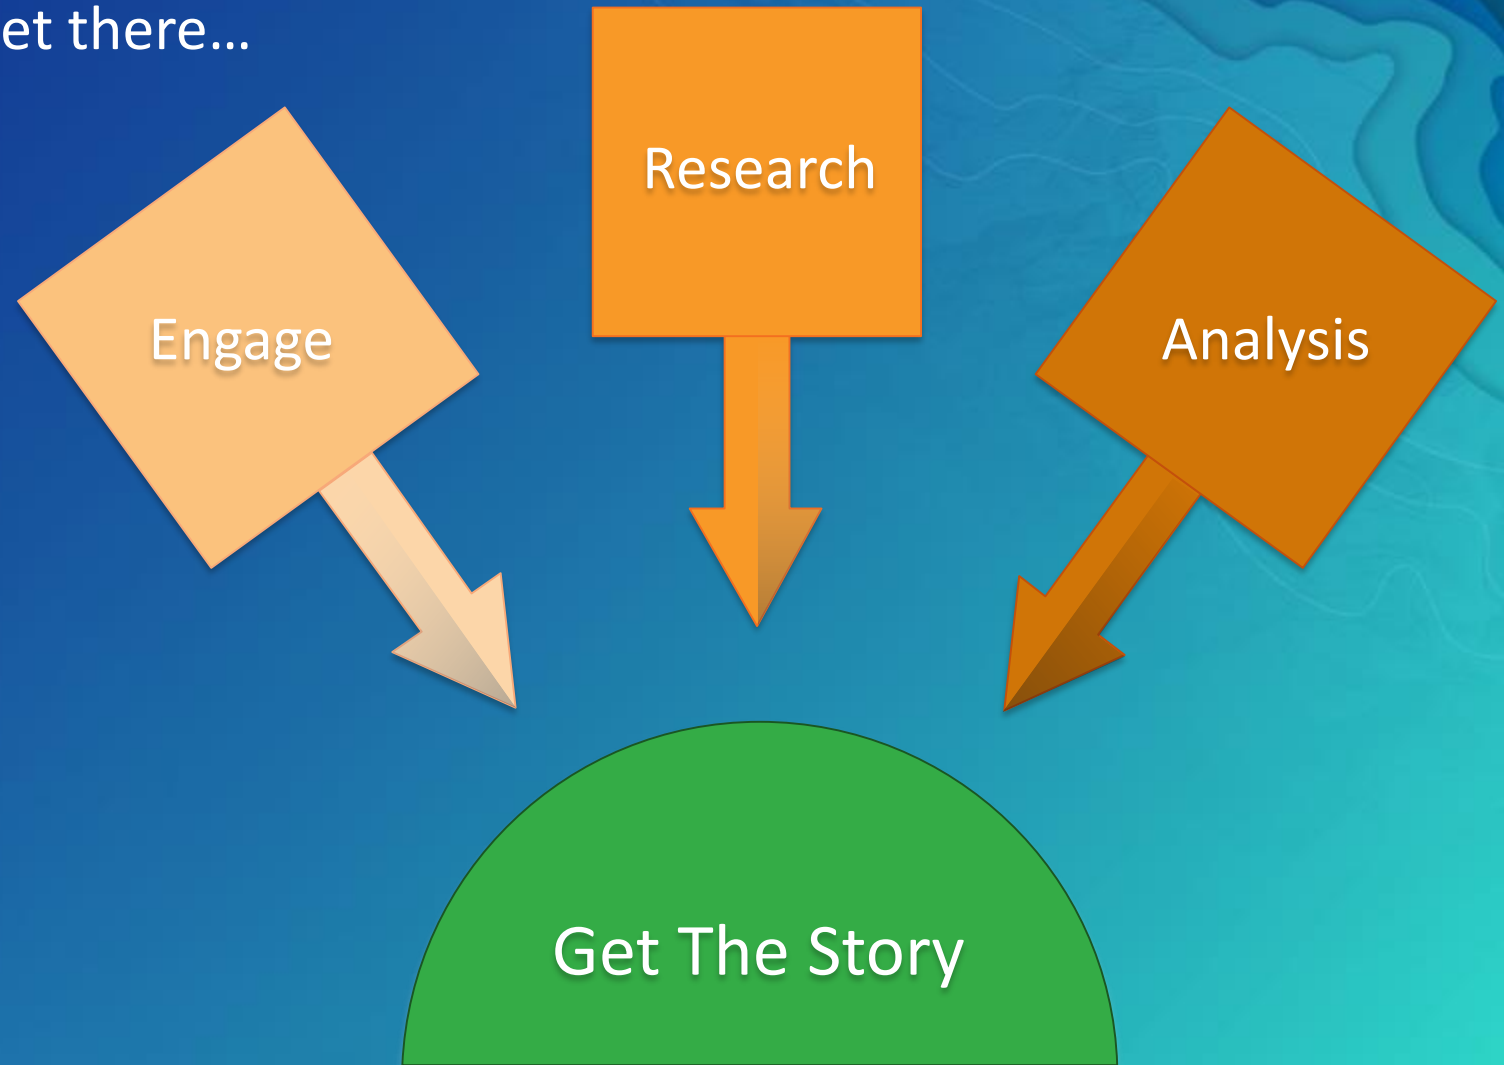

A:

...track down the shooter and known associates...

Arm them with the tools they need to succeed

I don't care how you get there...

A woman with blonde hair, wearing a white shirt and a dark blue blazer, is looking directly at the camera. A green smiley face emoji is overlaid on her face. To her left, a speech bubble contains the text "Sounds great! Just let me know what you need from me...". In the background, two other people are partially visible: a woman with blonde hair on the left and a woman with dark hair on the right, both in business attire.

Sounds great! Just let me know what you need from me...
