Accessing the Living Atlas through ArcGIS

Multiple ways to Experience the Living Atlas through ArcGIS Apps

- **ArcGIS Online & ArcGIS Enterprise (Portal) 10.5+!**

- Gallery: Esri Featured Content
- Add Data: Browse Living Atlas Layers
- Analysis: Choose Living Atlas Layers

- **Living Atlas of the World Website**

- livingatlas.arcgis.com
- Browse and preview maps, layers, and tools
- Contribute maps, layers, and data

- **ArcGIS Desktop**

- ArcGIS Pro 1.2+
- Open Maps, Add Layers, Perform Analysis

Esri Content Portfolio

Maps and Layers by Esri

Basemaps

Suite of basemaps to support your web maps and applications

- Variety of Basemaps for Different Maps and Apps
 - From neutral background maps to rich foreground maps, emphasizing human or physical worlds

- Now Available in both 'Vector' and 'Raster' Format!

Reference Maps for our World and Context for Your Work

Esri Vector Basemaps

What's New and Plans for 2017

- Initial Version (v1) Now Released and Available to Use in Your Maps & Apps
 - Configure to use in your Organization's Basemap Gallery
- Includes 9 'Core' Styles and other 'Custom' Styles to use as-is or customize
 - Introduce Oceans basemap in vector format, and others ...?
- Now Includes **Global Coverage** of large-scale street data
 - Using best available data from HERE, OpenStreetMap, and GIS Community
 - Will supplement with additional data layers, such as **physical place names**, **global contours** and **community roads**, etc.
- Localization: ongoing efforts to localize the maps for different regions
 - **Multiple Languages**: will offer vector basemaps with place labels in many languages
 - Disputed Places: existing maps enable different treatments of disputed places

World Imagery

What's New and Plans for 2017

- Multi-scale map featuring Most Recent, High-res imagery from Best Available Sources
 - Major updates to World Imagery map in 2016-2017
- Updates with DigitalGlobe basemap imagery (began Q3 2016)
 - Over 100 million sq. km. of imagery updated in past year
- Updates with DigitalGlobe to continue in remainder of 2017 and beyond ...
 - Next Updates for Afghanistan, Australia, Canada (north), and United Kingdom
 - Additional Updates for 100+ Metros in Q3-Q4, Refreshes for Hundreds More

World Imagery (continued)

What's New and Plans for 2017

- Continue to Publish Community Maps Imagery
 - Esri published imagery for approximately 100 communities in past year
 - Would like to grow publishing of community content in 2017
 - We currently have **250+ contributors** providing about **18 million sq. km.** of imagery

- Opportunity to publish recent, high-res imagery down to 2cm resolution

World Imagery (continued)

What's New and Plans for 2017

- Cache and Publish High-Res Imagery out to Smaller Scale Levels
 - Include the 1m or better imagery at Levels 12-13 instead of the current 15m or 2.5m imagery
 - Will improve the clarity and currency of the imagery in most areas

World Imagery (Clarity)

Alternative view of the World Imagery map (now in Beta release)

- View of World Imagery featuring Alternative Imagery from Archive
 - Reveals a curated set of imagery from Esri's multi-year archive
- Optimized for **Image Clarity and Accuracy**
 - Less haze or cloud cover, higher positional accuracy
 - Typically **less current** than default imagery content
 - May feature most recent imagery, if also clearest and/or most accurate
- Designed for Use Cases that Require imagery of Highest Clarity
 - Feature collection and editing, change detection, etc.
- During Beta, Esri will be **Curating in More Imagery** from Archive

World Imagery (Firefly)

Alternative view of the World Imagery map (now in Beta release)

- View of World Imagery for use as Neutral Background
 - Stylized to **de-saturate color** so it doesn't compete with overlays
- Features the Same Imagery as the World Imagery map
 - Transitions to standard full-color imagery at large scales
- Designed for Use Cases that Require Imagery with Muted Color
 - '[Firefly cartography](#)', maps with bright overlays, etc.
 - Includes the texture and richness of imagery
- During Beta, will refine style and migrate system

World Imagery (Historical)

Enable access to full set of imagery from archive (Road Ahead for 2017 and Beyond)

- Expose additional 'historical' imagery from archive in separate tile service and/or image service
 - Includes imagery beyond what is curated into the "Clarity" view
- Enable users to define imagery to be displayed in layer definition
 - Show imagery for specific time period, or from specific provider
- May require update to ArcGIS client apps to support display

Caution: Subject to Change!

World Imagery

What's New and Next ...

Sentinel Imagery

Planned Addition to the Living Atlas

- Esri is Planning to Publish Image Services with Sentinel 2 Imagery
 - Sentinel 2A and 2B will provide global, multi-spectral imagery of planet updated every 5 days
 - Improves upon the temporal and pixel resolution of Landsat 8 imagery
 - Goal is to provide easy access to Sentinel 2 imagery for visualization and analysis
 - Reduce the need to download complete Sentinel 2 scenes
- Publishing Plans
 - Publish image services for Sentinel imagery similar to what we have now for Landsat
 - Publish most recent Sentinel scenes (e.g. 5-10 scenes per location)
 - Make available as 'subscriber' content (i.e. no credits) in ArcGIS Online
 - Feature in the Living Atlas (i.e. image layers, web maps, web mapping app)
 - ETA: Q4 2017

Caution: Subject to Change!

Esri Boundary Layers

Current Status and the Road Ahead

- Boundary Layers available in ArcGIS Online for Visualization and Analysis
 - Boundary Layers for over **130 countries** available now!
 - Featured in Living Atlas and Optimized for Use in Analysis Tools
 - Updates published (as available) as part of ArcGIS Online releases
 - Updates published in June for 45 countries (e.g. Poland)
- Boundary Layers **available now in ArcGIS Enterprise** for Visualization and Analysis
 - Enterprise users can download SD files from MyEsri and publish with Portal
 - 10.5 Release: includes boundaries for World and United States
 - 10.5.1 Release: includes boundaries for over 130 countries
- **Road Ahead:** additional boundary layers by country from local authoritative sources
 - Additional levels of geography, updated more frequently (as required)

Landscape

What's Next ...

Esri Content Portfolio within Living Atlas

Landscape – Elevation/Bathy

- Airbus WorldDEM4Ortho - Q4 2017
 - 24m Global pole to pole with 4m vertical accuracy
 - Added to profile GPTool
 - Export Exceptions
 - Kosovo, Senegal coming later 2017
 - Not available due to export restrictions
 - Ethiopia, DR of the Congo, Ukraine, Eritrea, Azerbaijan, West-bank, Gaza-strip
- New dark gray multi-dimensional Hill shade - Q4 2017
- Roughness/Rugosity views – Q1 2018
- New GEBCO update - Q4 2017

Landscape

- MDA World Landcover 2016
 - 2013-2016 change detection
- USA Croplands historical layers
 - 2008-2016(present)
 - Summary maps
- USA Soils reporting widget based on user defined area.
 - Percent soil types
 - Soil water storage capacities
 - Horizon summaries
 - 72 hr precipitation estimate
 - Current drought condition

Landscape

- World Population Estimate 2015
 - update in Q2 with new UN estimates from 2015.
- World Population Estimate 2016
 - Additional census data sources
 - Greatly improved accuracy (new settlement algorithm)
 - Move to two updates per year
 - Q4

Oceans - Ecological Marine Units (EMUs)

- EMU's will get additional attribution
 - Average Current Direction
 - Average Current Velocity
- EMU's are being localized
 - Support smaller detailed research where high density data exists
 - Support in-house workflows for Hydrographic offices
- New Visualization Techniques

EMU Story Map (New): <http://arcg.is/2rErPAI>
EMU Website: <http://www.esri.com/ecological-marine-units>

Oceans - HYCOM (HYbrid Coordinate Ocean Model)

Sea Water Temperature (Available in Celsius and Fahrenheit).

Salinity (Practical Salinity Scale - PSS)

Sea Surface Elevation (Available in meters and feet)

Sea Water Current (As vector arrows for visualization)

Eastward Velocity (ms-1)

Northward Velocity (ms-1)

Oceans - HYCOM

- HYCOM Temperature front detection. - Q4
- HYCOM Route optimization using least cost-path analysis against the current velocity information for shipping vessels. - Q1 2018
- Add daily chlorophyll to help identify hot spot areas for fishing, security, or fishery planning. - Q1 2018
- Field operations planning for maritime industry divers and survey equipment – provide ability to plan for safe operations.

*Sea Water Current
Direction/Velocity*

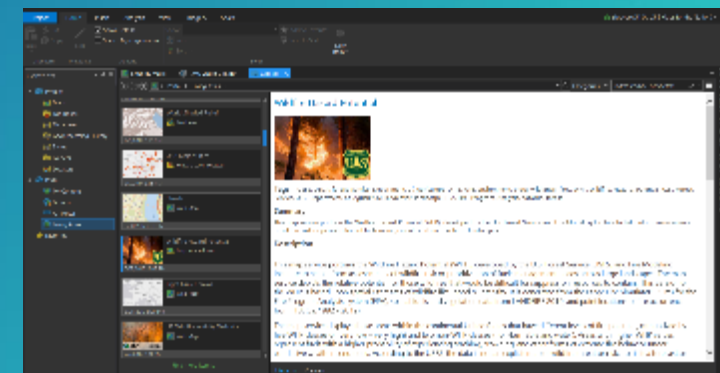

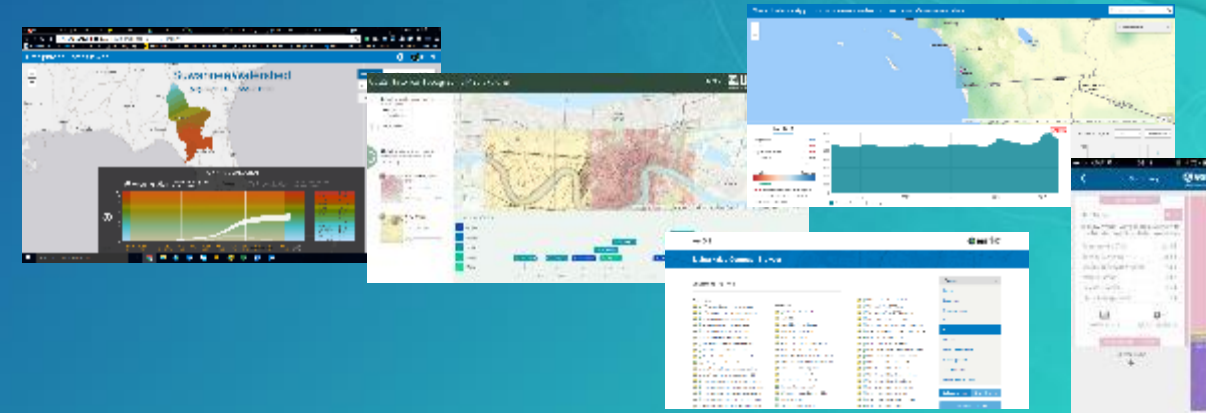

Sea Surface Elevation

Living Atlas Experience

What's Next ...

Living Atlas

- Website
 - Items Scoring moving to Item Pages
 - Next Generation thumbnails – Auto sizing
 - Service items checked daily – ArcGIS Layers, Maps, and Storymaps
 - Improved Taxonomy
 - Improved Search – semantic and geographic
 - NEW Apps page
 - Higher requirements to participate
- Pro
 - Improves search results sorting
 - Additional items types like styles and pro packages
