ArcGIS Online: Sharing Your Content

John Thieling

What is covered in this session

- How does ArcGIS Online enable & promote sharing and collaboration

Two aspects

- What can be shared?
- With whom can you share it?

ArcGIS: A platform for collaboration

- Mapping
- Analysis
- Visualization

. . . A Framework for Sharing, and Collaborating

ArcGIS Online information model

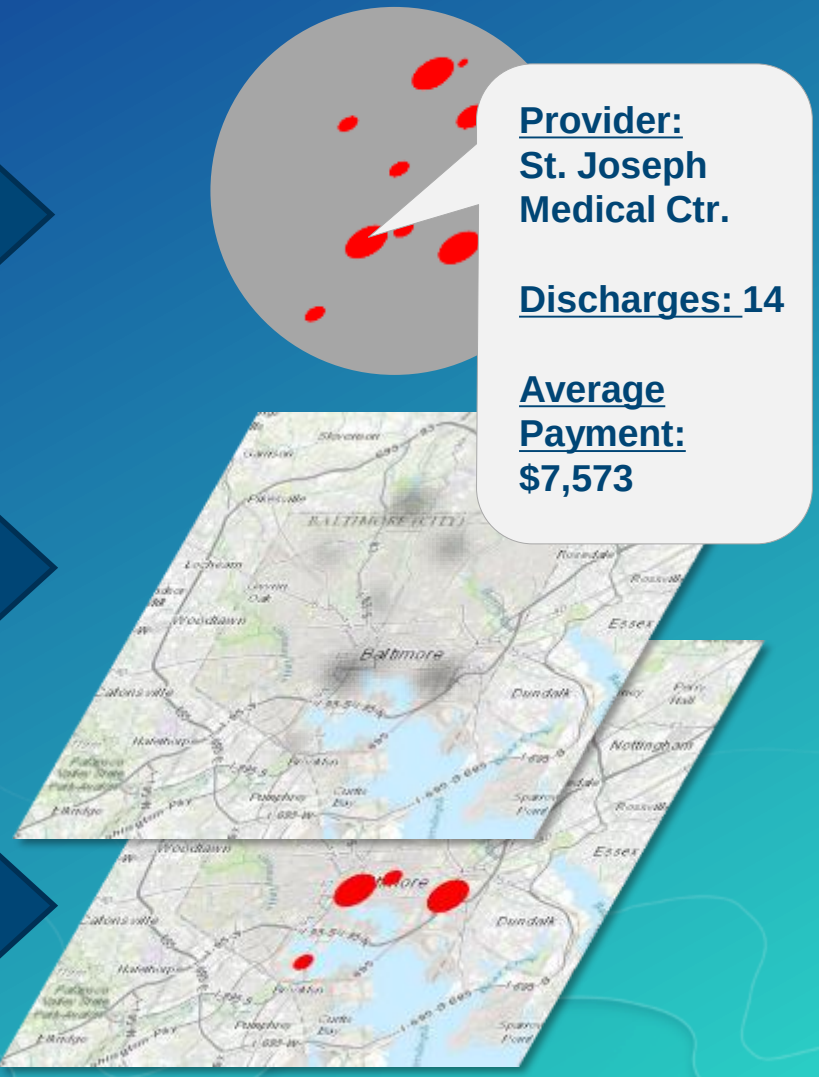
Web map layer types

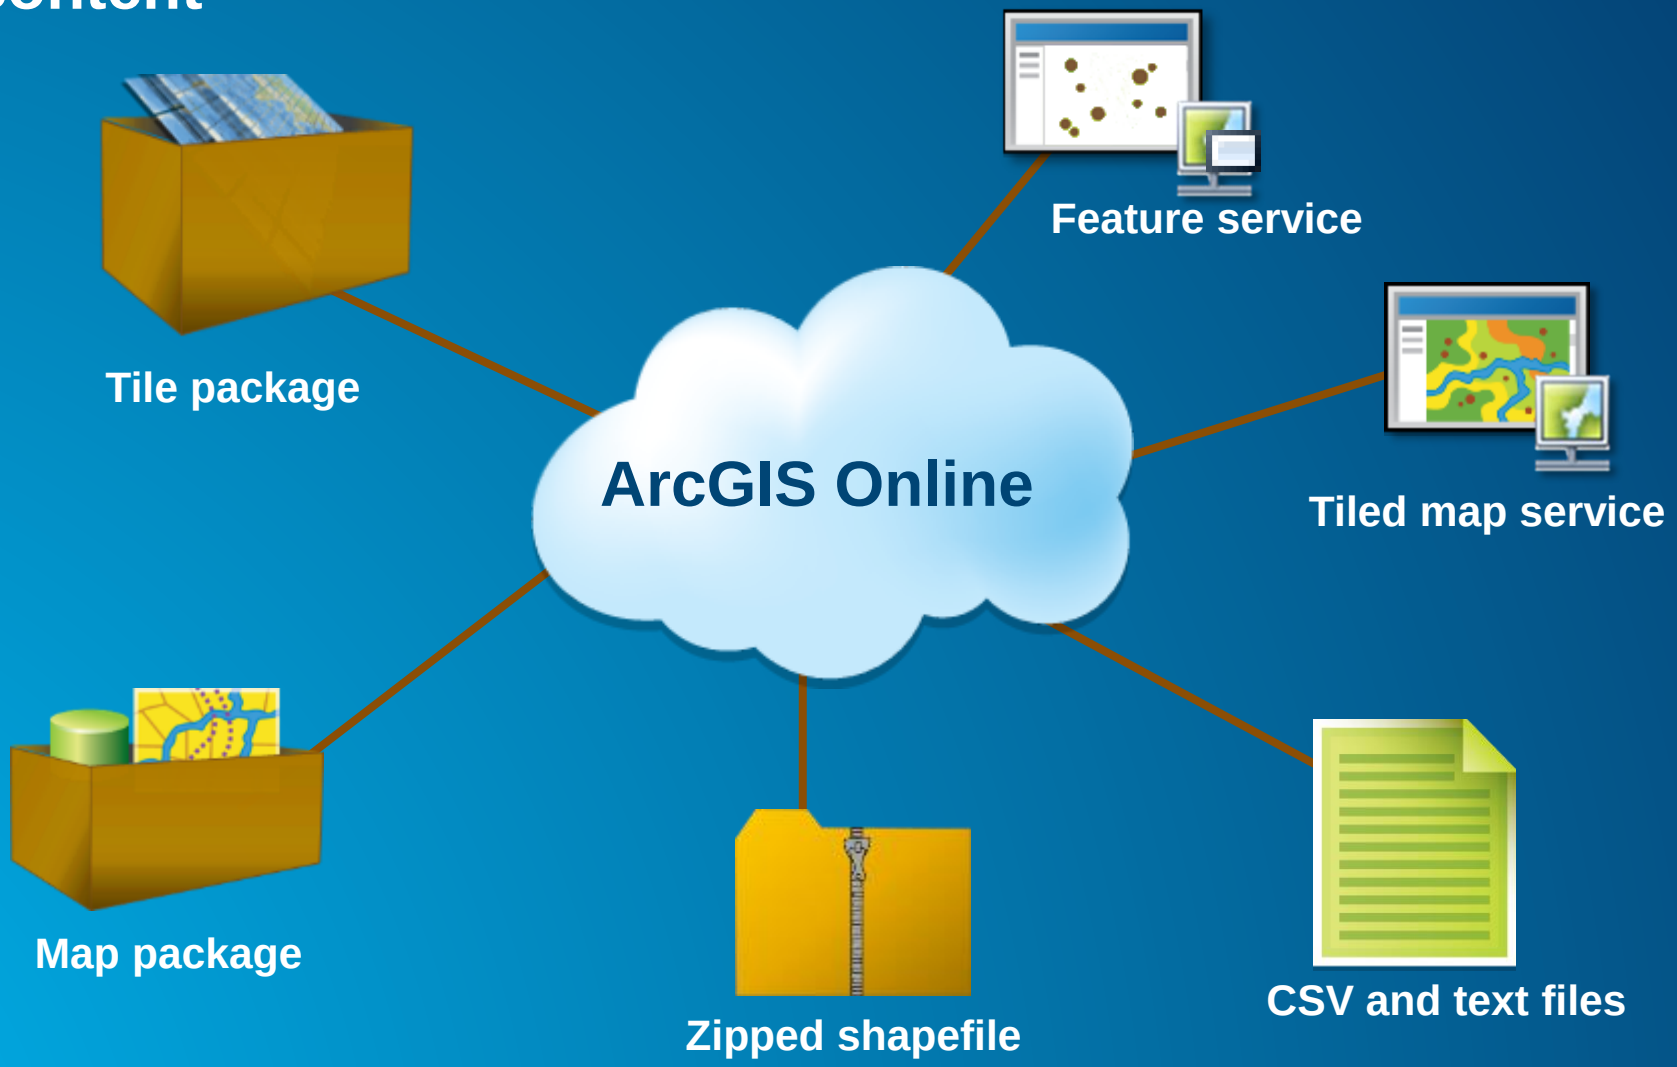
Feature layer

Tile layer

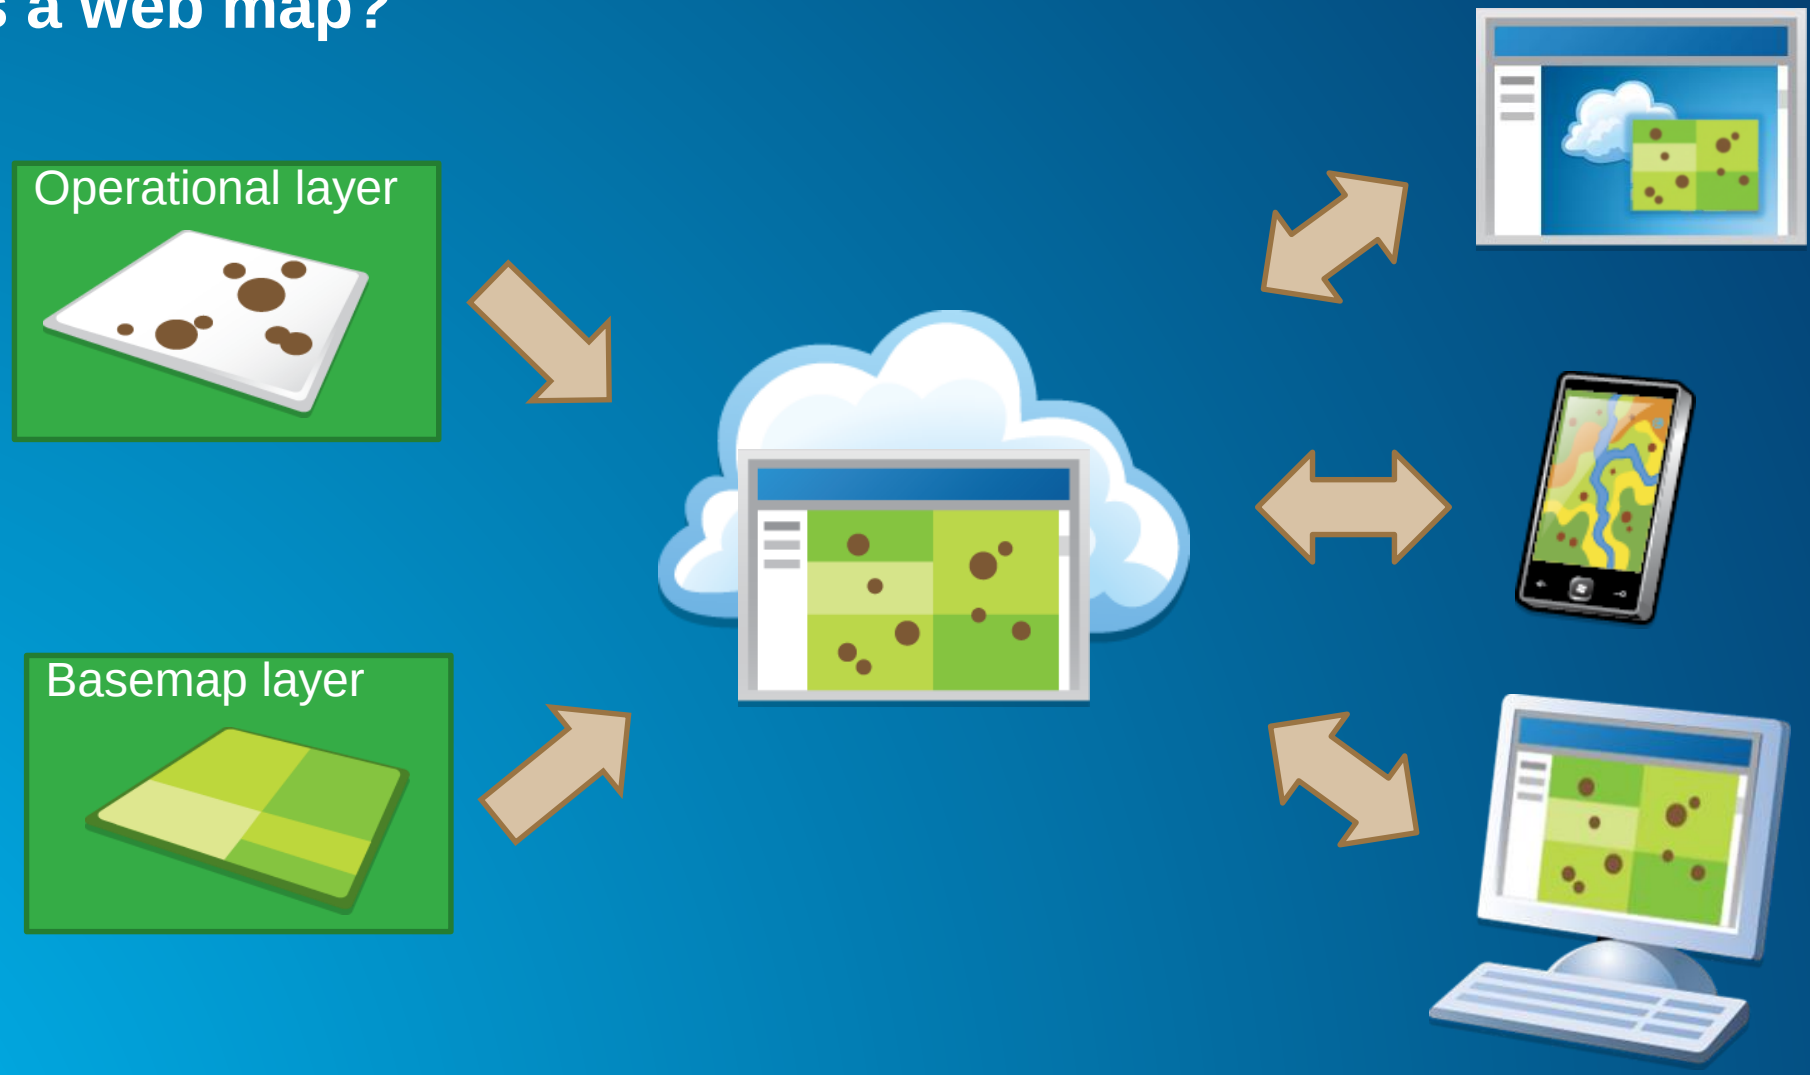
Web map



Hosted content



What is a web map?



On the ArcGIS platform the web map format is ubiquitous…

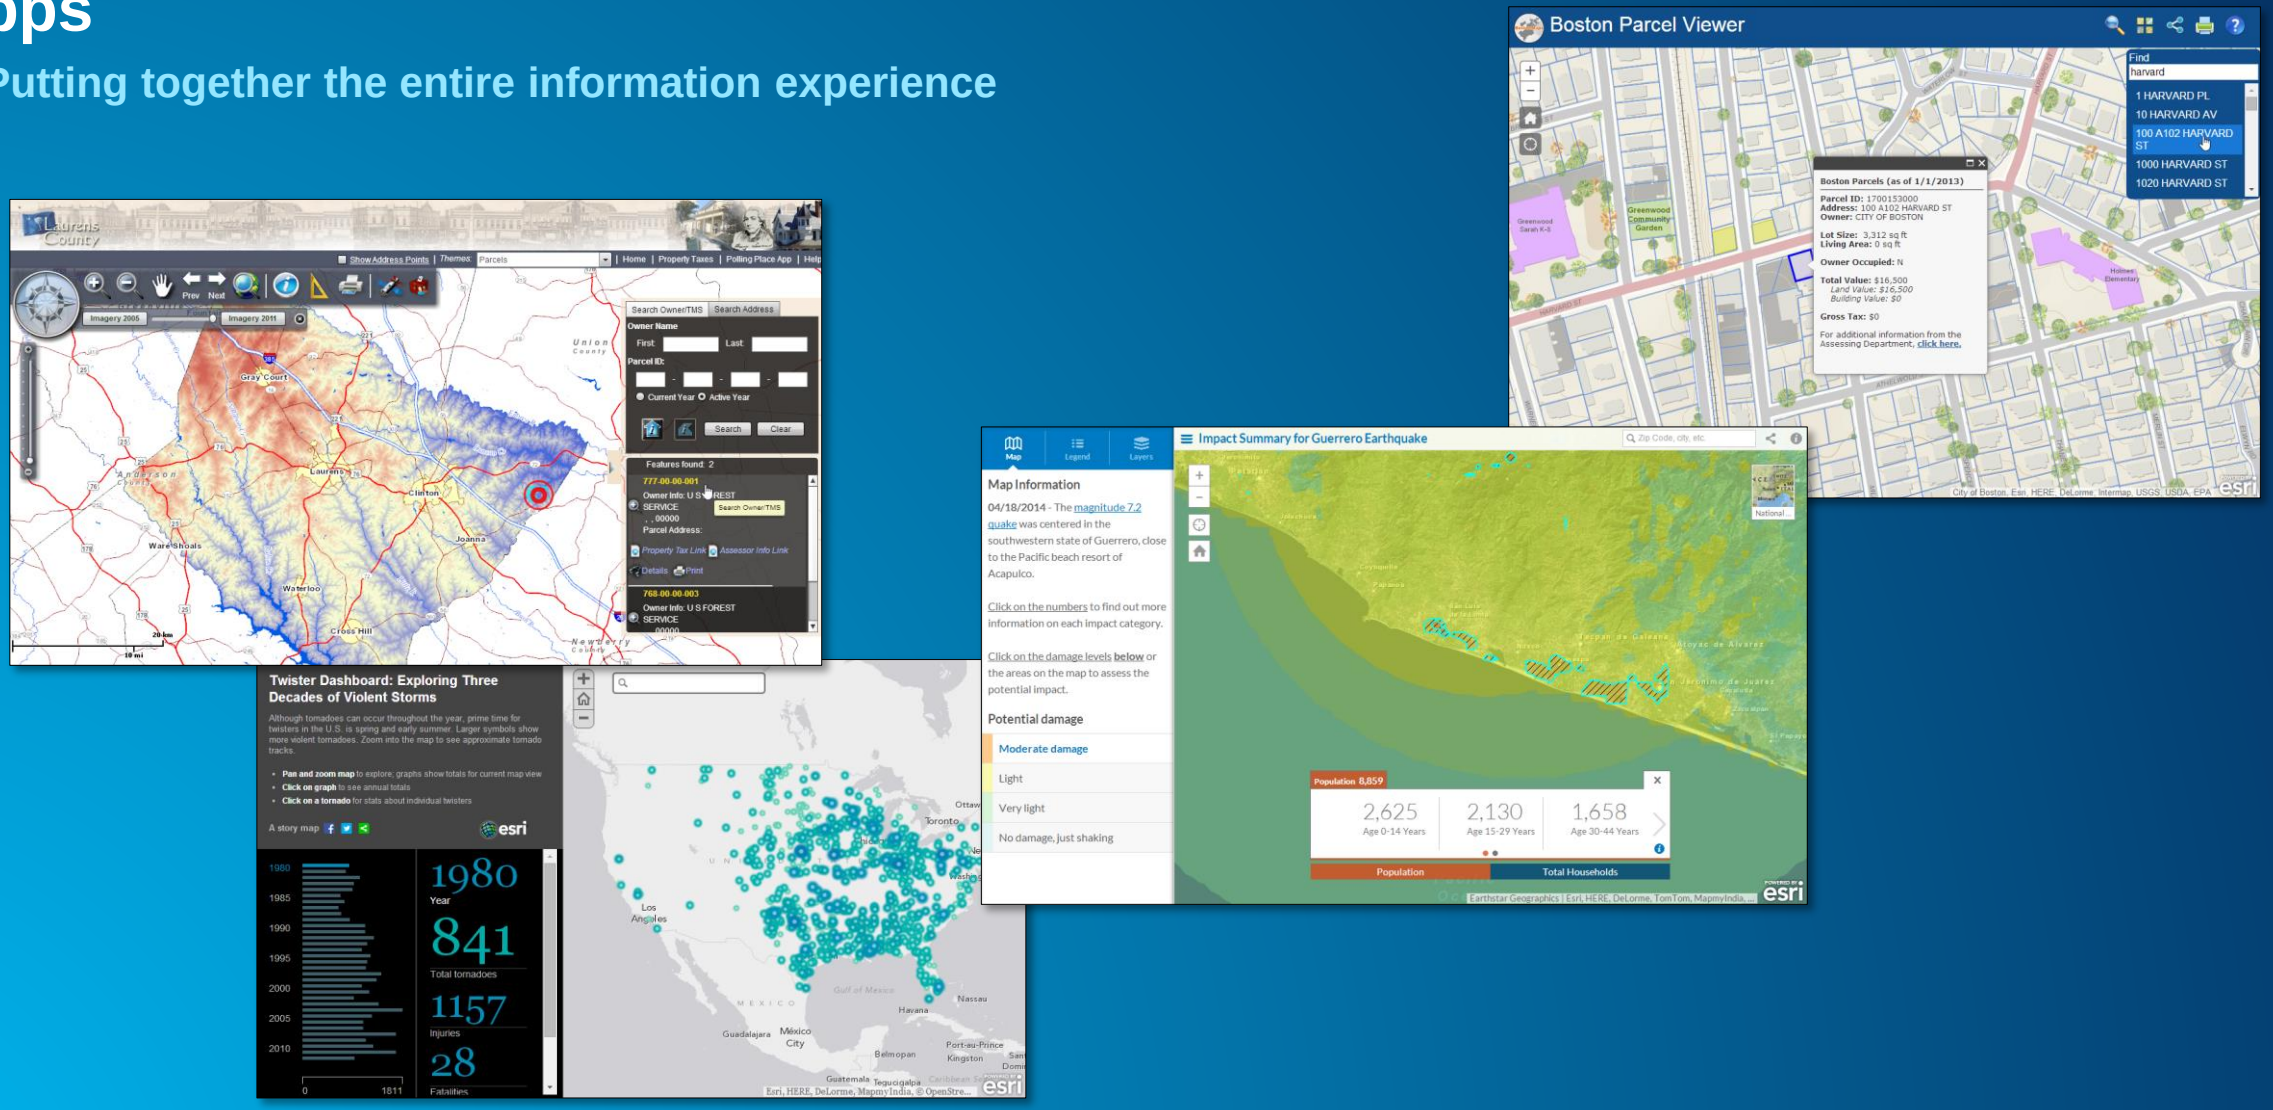
Authoring a web map

Task	Web map tool
Edit the data	Enable editing
Visually differentiate between data	Symbology
Work with data that meets a specific attribute value	Filter
Locate predefined areas	Bookmark
Gather information about the data	Pop-up

D

Apps

Putting together the entire information experience



With whom do you want to share?
