

# Configuring Photo Survey in your Community

Chris Buscaglia

# ArcGIS for Local Government

Solutions for Esri's government customers

- Collection of useful maps and apps
  - Configurable and extensible
  - Freely available and fully supported
- Community of users
  - Best Practices / Implementation Support
- Network of Esri Services and Partner offerings
  - Help users implement, sustain and enhance

.....Available on-premise or in the cloud

# Photo Survey

Why is it important?

- Inventory blighted properties and devise neighborhood revitalization efforts
- Conduct rapid damage assessments after an incident so federal aid can be garnered more quickly
- Target re-appraisal efforts in areas that may result in new value added to assessment roll
- Identify structures that pose public health and safety concerns to fire service personnel

# Which Font is Best For Your Presentation?

## Avenir Next

If you are the sole presenter and **will not distribute your PowerPoint presentation to others outside of Esri** and will only be using your own Esri computer for presenting, please use the new font Avenir Next LT Pro.

See instructions on the following slide to see how to use this new font.

**Use Avenir Next if ...**

**Sole Presenter**

Single computer used for presentation

## Arial

If you will be distributing your PowerPoint presentation to **others outside of Esri**, or using various computers to present please use Arial.

Using Arial gives your PowerPoint presentation the flexibility to be used by many people on various machines without the risk of font compatibility and changing the look of your layout.

**Use Arial if...**

**Multiple Users / Presentation Distributed to others**

Presentation used on multiple computers

# How to Change Your Theme Fonts to Avenir Next

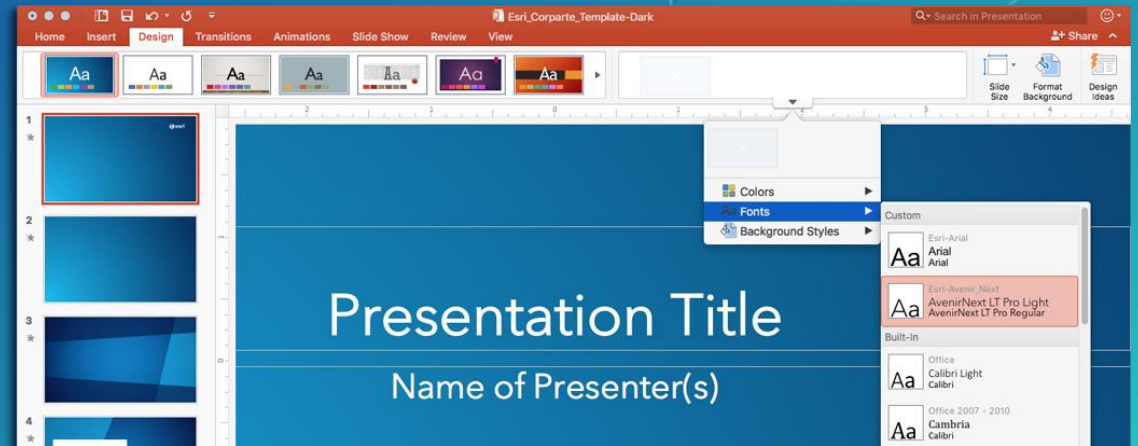

## Windows

Select: Design  
Variants (arrow)  
Fonts > Esri-Avenir Next

## Mac

Select: Design  
Variants (arrow)  
Fonts > Esri-Avenir Next

What if my  
fonts don't  
change?

← If the text boxes on your slides are not using  
← (Heading) or (Body) fonts from the Theme Fonts  
section, they will not update correctly.  
You will have to replace them manually.

# How to Test if you're using Avenir Next

If you have Avenir Next installed,  
the two Qs will match.

Live Text

# Did you know?

## To quickly update any current presentation

Copy and paste your slides from your **current** deck into the **newest** template. The title and ending logo slide will update automatically.

## For More Templates, Sample Files, and Icons See

<https://compass.esri.com/resources/presentations/Pages/Main.aspx>

## Videos not working?

For video in PowerPoint, animated GIF is recommended. AVI and WMV (native PC files) will work best on a PC platform. H.264 MP4 will work only on PowerPoint 2013 and later.

# Aspect Ratio Test

If this shape does not appear as  
a perfect circle, adjust the aspect  
ratio of your display until it does.

Try the resolution 1920x1080 for  
16:9 displays.
