Tasks

How to create a task to streamline editing workflows

Benefits of using Tasks

- Implement best practices
- Improve efficiency
- Can act as a tutorial
- Required tools can be embedded
- All steps occur in one pane

Task Designer
Task Item:
General Resources
Name
Author
Description
ArcGIS Version 2.0.0
Task Version
Auto Increment
Published Version 1.0.0
Last Modified 7/3/2017
