Community Maps Program Living Atlas FAQ Greg

Join the Community

Participating in the Community Maps Program provides the opportunity for your organization to share its data excellence with the wider GIS community. Basemap layers, Imagery, elevation, stream gauges, and Urban Observatory layers can all be contributed. The data will then be hosted in maps and layers in ArcGIS Online for free as part of Esri's Living Atlas of the World. [Read the FAQ](#)

Who are you?
Each organization that contributes data to Esri basemaps needs to have at least one person to act as a point of contact.

Hello Greg Merget, we have you as a member of the ArcGIS Online Organization. Please complete the following form.

Citation Name:* 32/32 ?

Organization Type:* ?

Point of Contact: Email: ?

+ Additional POC

Where are you?
What portion of the globe will your data cover? From campuses to nations, we are interested in authoritative data across a wide range of scales.
