THE
SCIENCE
OF
WHERE

Which Font is Best For Your Presentation?

Avenir Next

If you are the sole presenter and **will not distribute your PowerPoint presentation to others outside of Esri** and will only be using your own Esri computer for presenting, please use the new font Avenir Next LT Pro.

See instructions on the following slide to see how to use this new font.

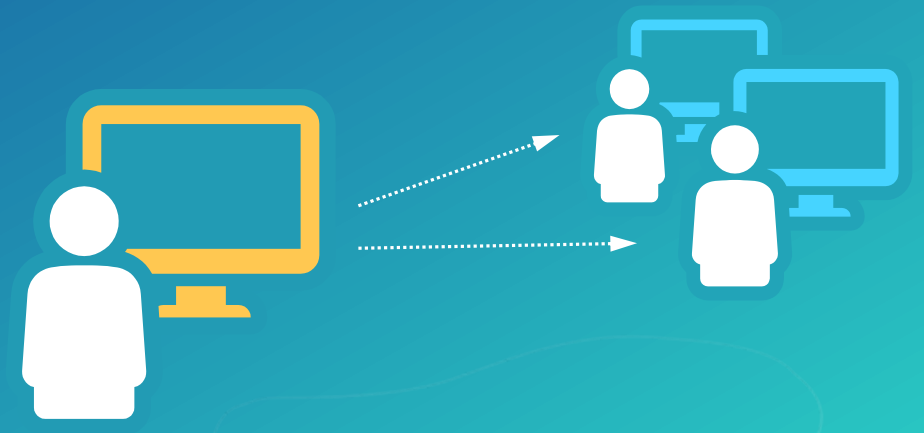
Use Avenir Next if …

Sole Presenter
Single computer used for presentation

Arial

If you will be distributing your PowerPoint presentation to **others outside of Esri**, or using various computers to present please use Arial.

Using Arial gives your PowerPoint presentation the flexibility to be used by many people on various machines without the risk of font compatibility and changing the look of your layout.



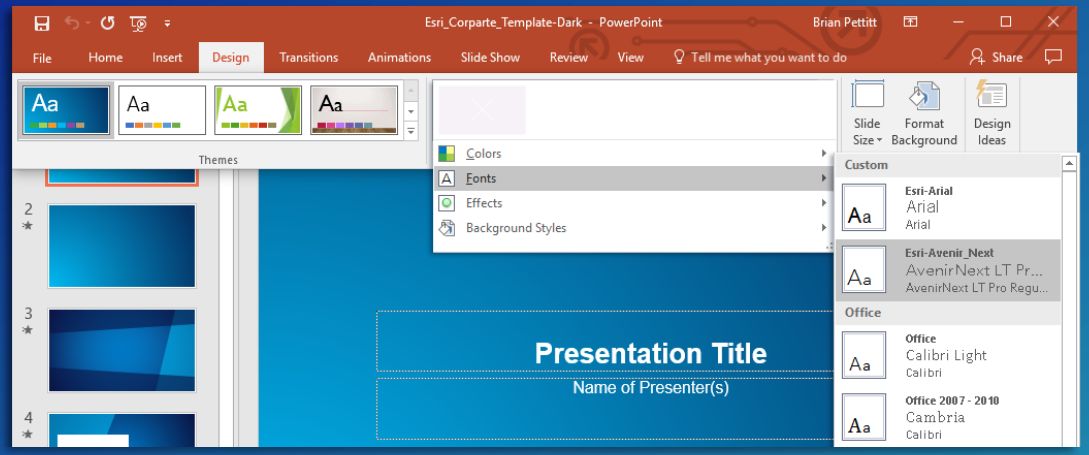
Use Arial if…

Multiple Users / Presentation Distributed to others
Presentation used on multiple computers

How to Change Your Theme Fonts to Avenir Next

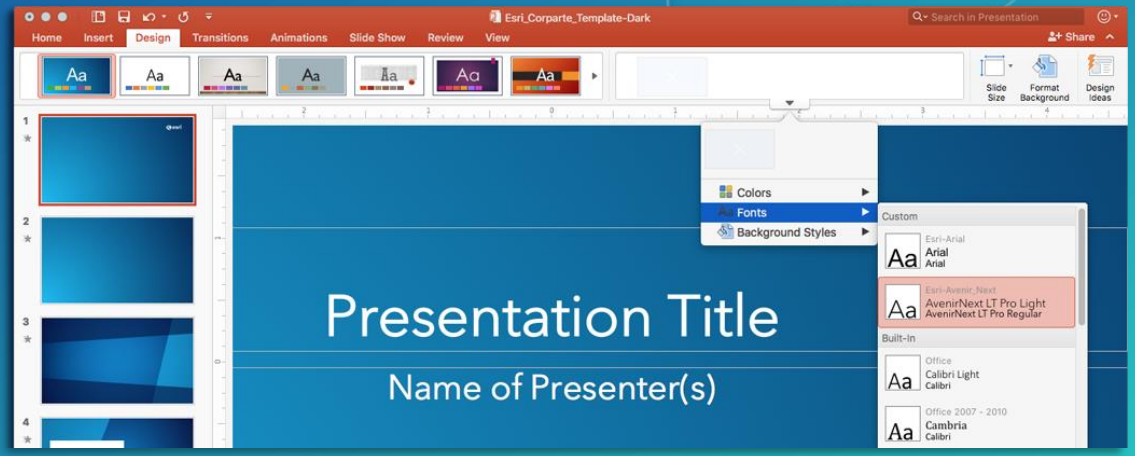
Windows

Select: Design
Variants (arrow)
Fonts > Esri-Avenir Next

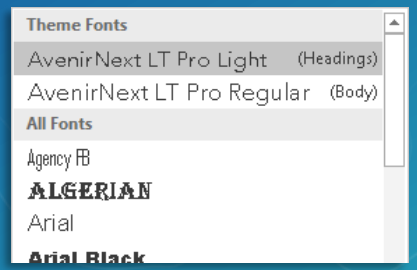


Mac

Select: Design
Variants (arrow)
Fonts > Esri-Avenir Next



What if my fonts don't change?



If the text boxes on your slides are not using (Heading) or (Body) fonts from the Theme Fonts section, they will not update correctly. You will have to replace them manually.

How to Test if you’re using Avenir Next

**If you have Avenir Next installed,
the two Qs will match.**

Did you know?

To quickly update any current presentation

Copy and paste your slides from your current deck into the newest template. The title and ending logo slide will update automatically.

For More Templates, Sample Files, and Icons See

Videos not working?

For video in PowerPoint, animated GIF is recommended. AVI and WMV (native PC files) will work best on a PC platform. H.264 MP4 will work only on PowerPoint 2013 and later.
