

Discover the Location Dimension of Your Business

Steven Temmermand

Location Value Assessment

A decorative graphic in the top right corner consisting of white, wavy contour lines on a blue background, resembling a topographic map.

Why

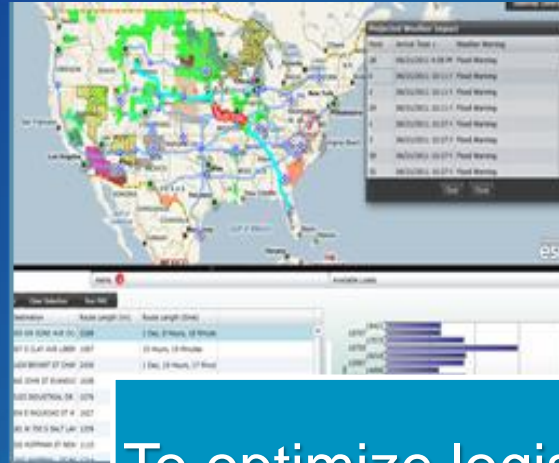

When

What

Why? - Believe geography can transform

To provide services
to communities

To optimize logistics

To fight the spread
of disease

Make and share apps

- Deliver apps to users
- Follow business priorities and outcomes
- Use Web GIS

**GIS
Professionals**

**Apps for
users**

**Business
outcomes**

When? - Launch a location platform in five steps

- 1 Location Value Assessment
- 2 Pilot Project
- 3 Production Rollout
- 4 Operations and Support
- 5 What's Next

What? - Location Value Assessment

Review organization broadly

Identify uses & assess value of each

Prioritize opportunities

Client example - Improve service delivery

Healthcare
Services

Community

Orientation

- Digital maps
- Decision making
- Understanding

Discuss similar organizations

**Deploy a mobile
workforce**

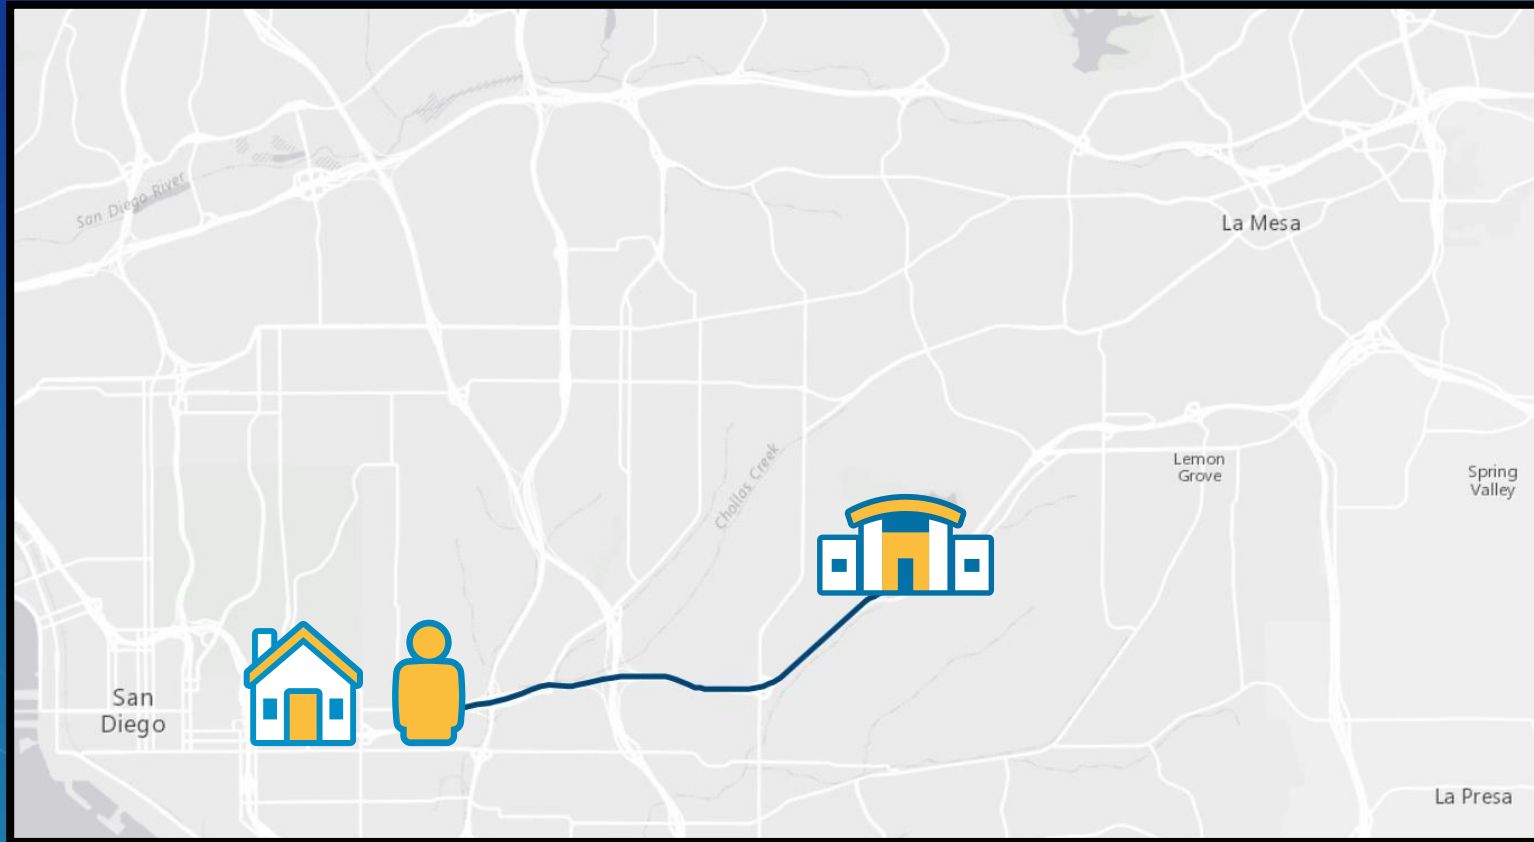

Target outreach

Review organization broadly

Review organization broadly

Think about:

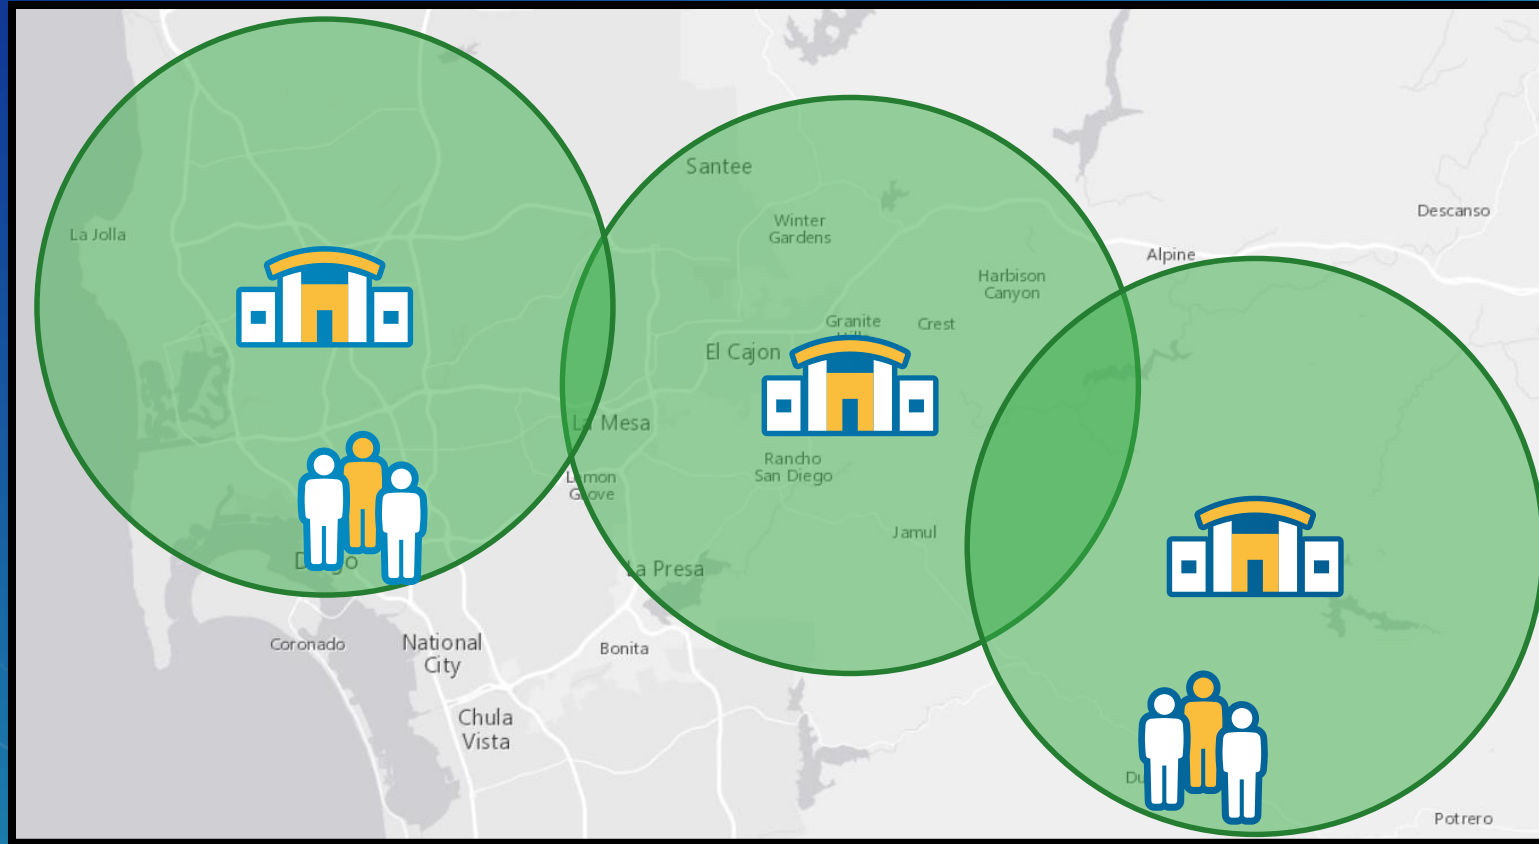

- **Which departments would you work with in your organization?**
- **How do they use geography?**

Identify uses & assess value of
each

Identify uses & assess value of each

Identify uses & assess value of each

Think about:

- In what ways do you think your organization could be using geography?
- How would that benefit you?

Prioritize opportunities

Prioritize opportunities

| Priority | Opportunity |
|----------|--|
| High |  |
| High |  |

Prioritize opportunities

- 
- Membership
 - Customer satisfaction

- 
- ER utilization rates

Prioritize opportunities

Quick Wins

Planning and analysis

Member engagement

Think about:

- **What factors would determine your priorities?**

Location Value Assessment

Why – believe in geography

When – start your launch

What – value, opportunities

Recommended Session: Defining and Driving Location Strategy

- **Wednesday, July 12**
 - **1:30 PM – 2:45 PM**
 - **Room 05 B**
 - **San Diego Convention Center**
-
- **This session presents an approach you can use to champion a location strategy in your organization and unlock the power of your ArcGIS platform.**

Framework to help you move forward

Checklist for Launching Your Location Platform

1

Location Value Assessment

- ☐ Conduct a kickoff meeting.
- ☐ Discuss how organizations in similar industries use location information.
- ☐ Assess workflows that would benefit from location information.
- ☐ Prioritize workflows.
- ☐ Summarize the implications that the workflows would have on your organization.

2

Pilot Project

Pilot project plan

- ☐ Identify the workflow(s) to be used in the pilot project.
- ☐ Identify the business areas and people involved.
- ☐ Define your products or deliverables.
- ☐ Define the data.
- ☐ Define the software.
- ☐ Define the infrastructure.
- ☐ Establish a communication plan.
- ☐ Create a training and support plan.
- ☐ Identify success measures.
- ☐ Identify constraints.

Implementation

- ☐ Set up your pilot environment.
- ☐ Implement training and support.
- ☐ Perform change management activities.
- ☐ Incorporate workflows.

Evaluation

- ☐ Evaluate pilot success.
- ☐ Evaluate production readiness.
